C PROGRAMMING & DATA PROCESSING WITH LINUX (UBUNTU)

Bui Ngoc Bao Tran – QE170086

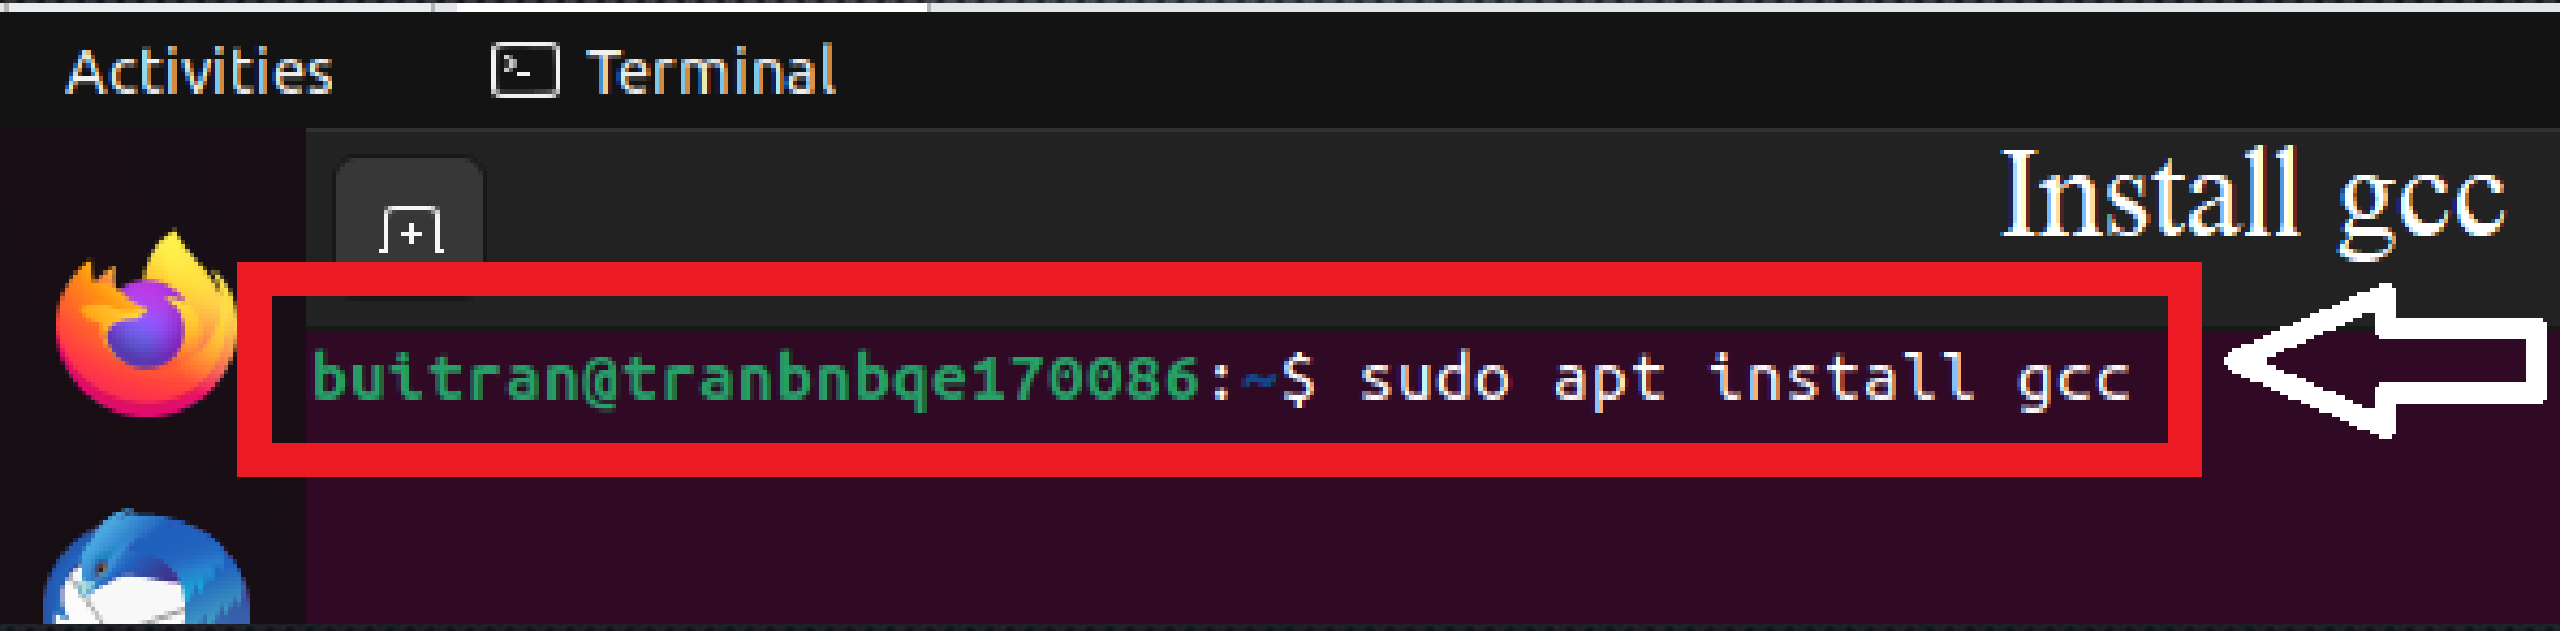

Before starting, you have to download VMWare and Ubuntu Virtual machine.

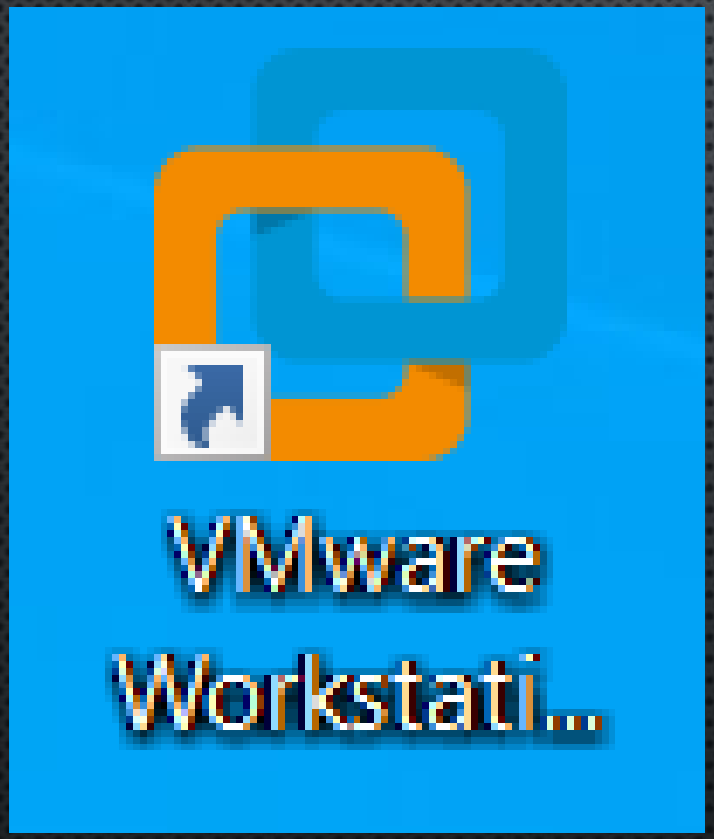

If you haven't download it, you can install VMWare at: https://www.vmware.com/asean/products/workstation-pro/workstation-pro-evaluation.html

And download Ubuntu at: https://ubuntu.com/download/desktop

Make sure you install "gcc" to execute the code in our exercise.

Install “gcc” to easily excute C programme in Linux (Ubuntu).

Access to the VMWare icon on your desktop.

Click "***Power on this virtual machine***" to start Ubuntu.

Ubuntu

Power on this virtual machine

Edit virtual machine settings

Click here to open Virtual machine.

Devices

Memory	4 GB
Processors	2
Hard Disk (SCSI)	20 GB
CD/DVD 2 (SATA)	Using file E:\PHA...
CD/DVD (SATA)	Using file autoin...
Floppy	Using file autoin...
Network Adapter	NAT
USB Controller	Present
Sound Card	Auto detect
Printer	Present
Display	Auto detect

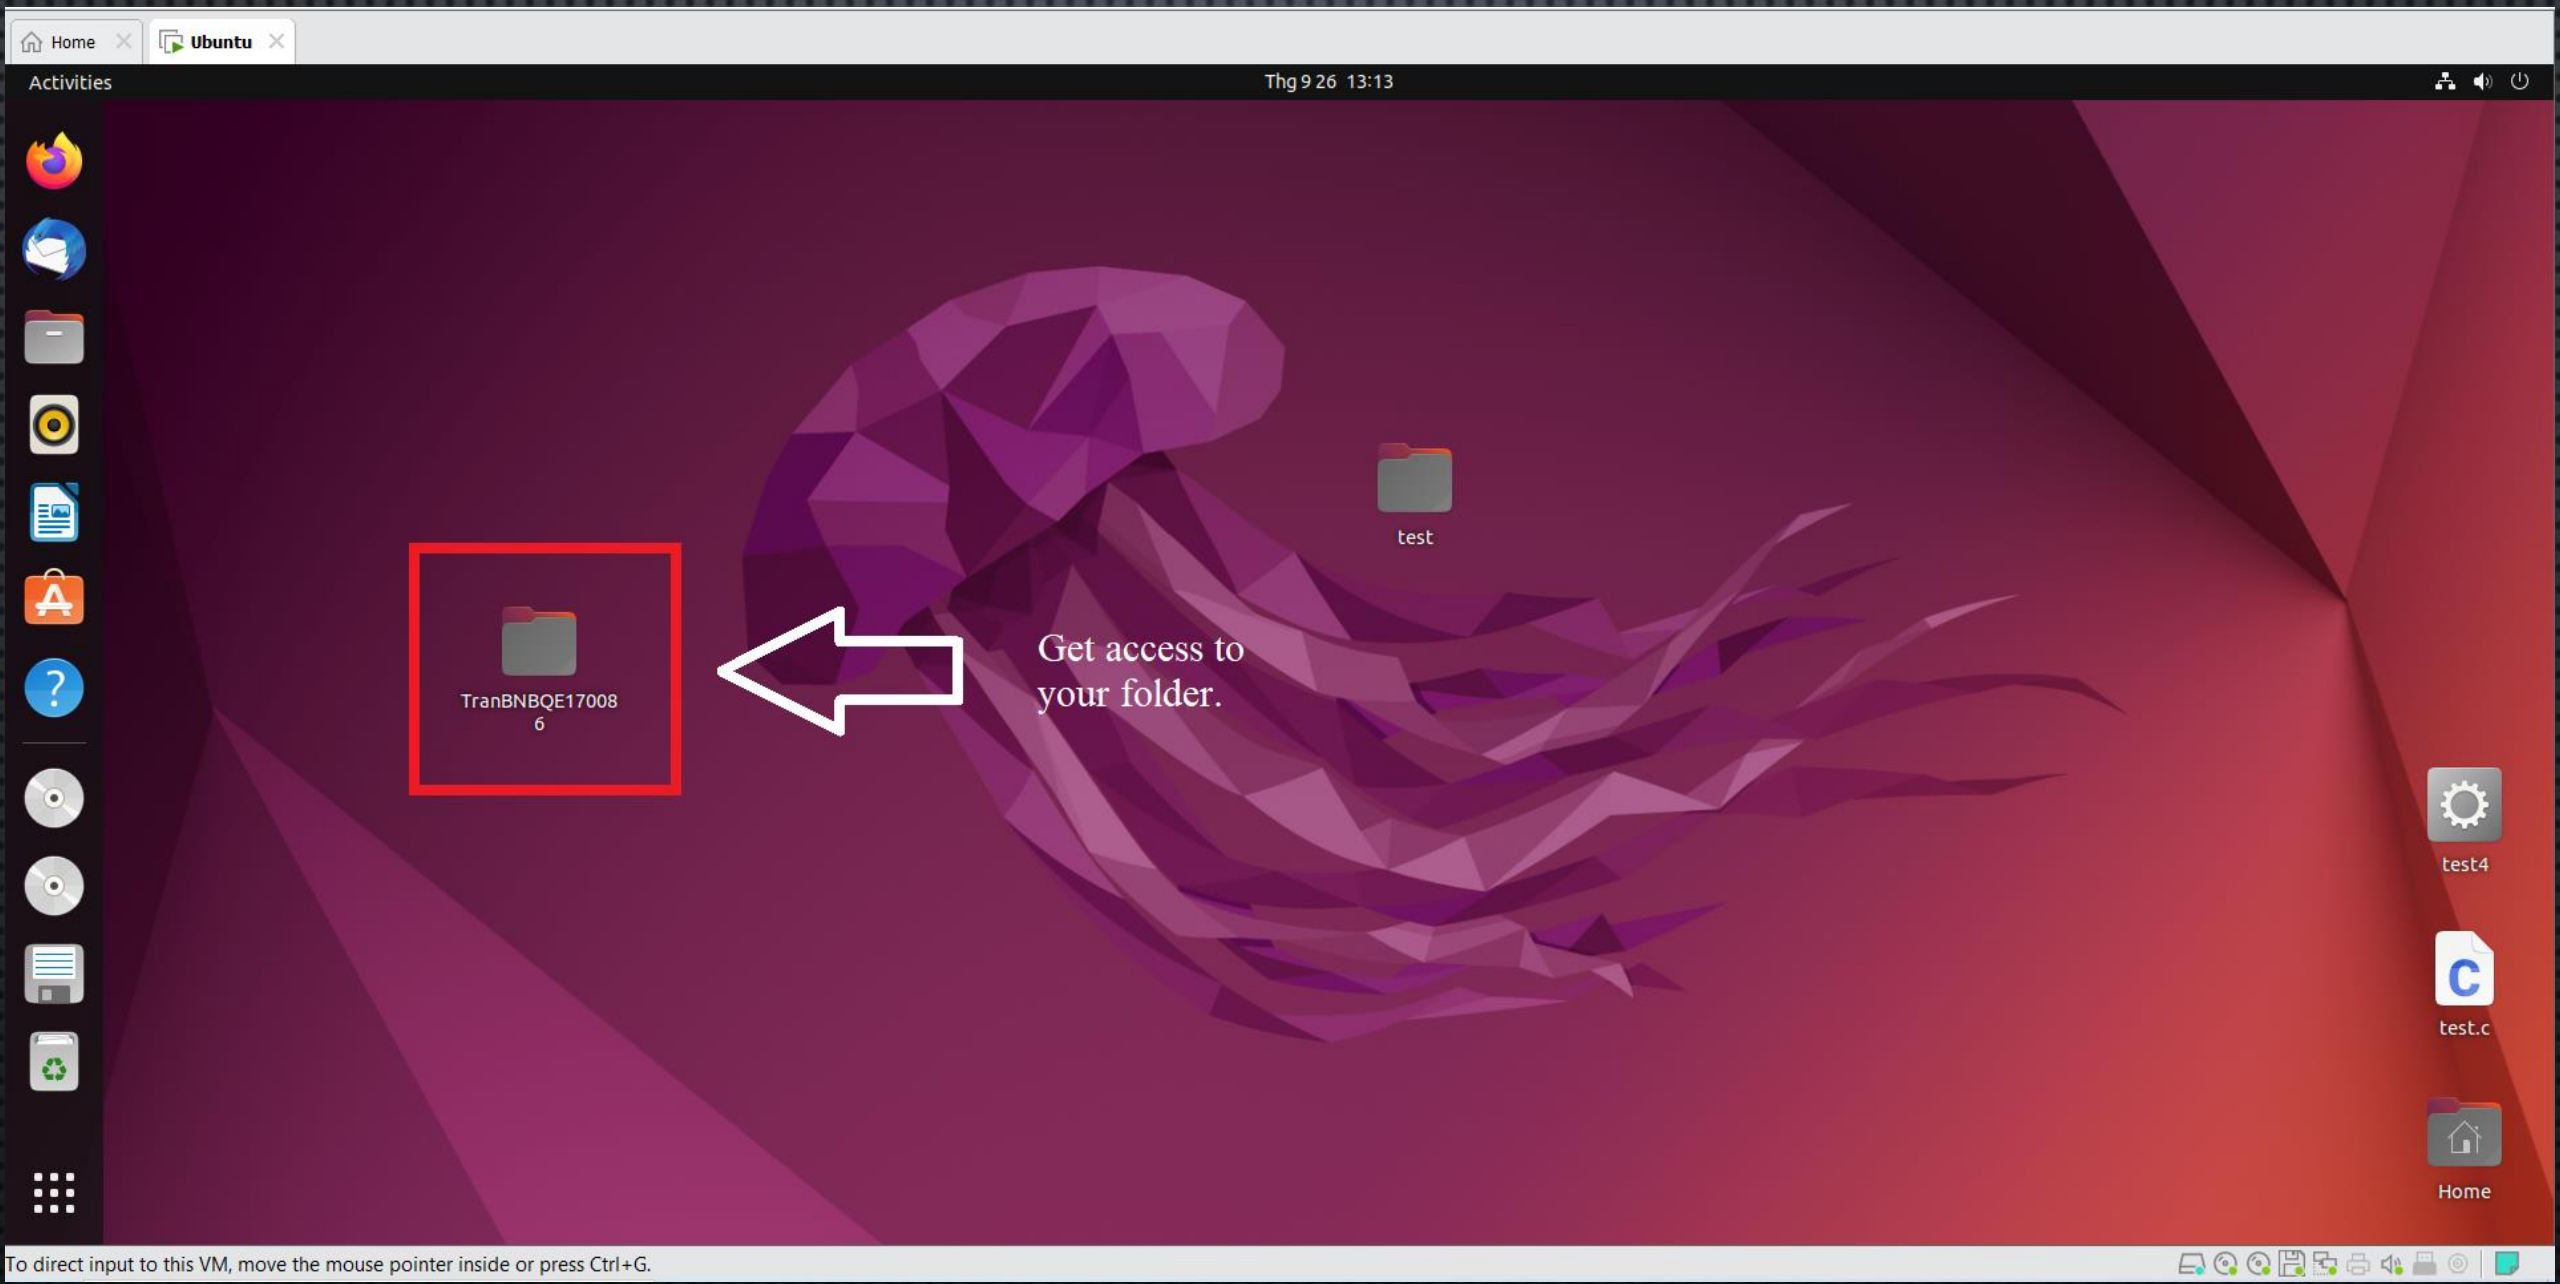

Description

Type here to enter a description of this virtual machine.

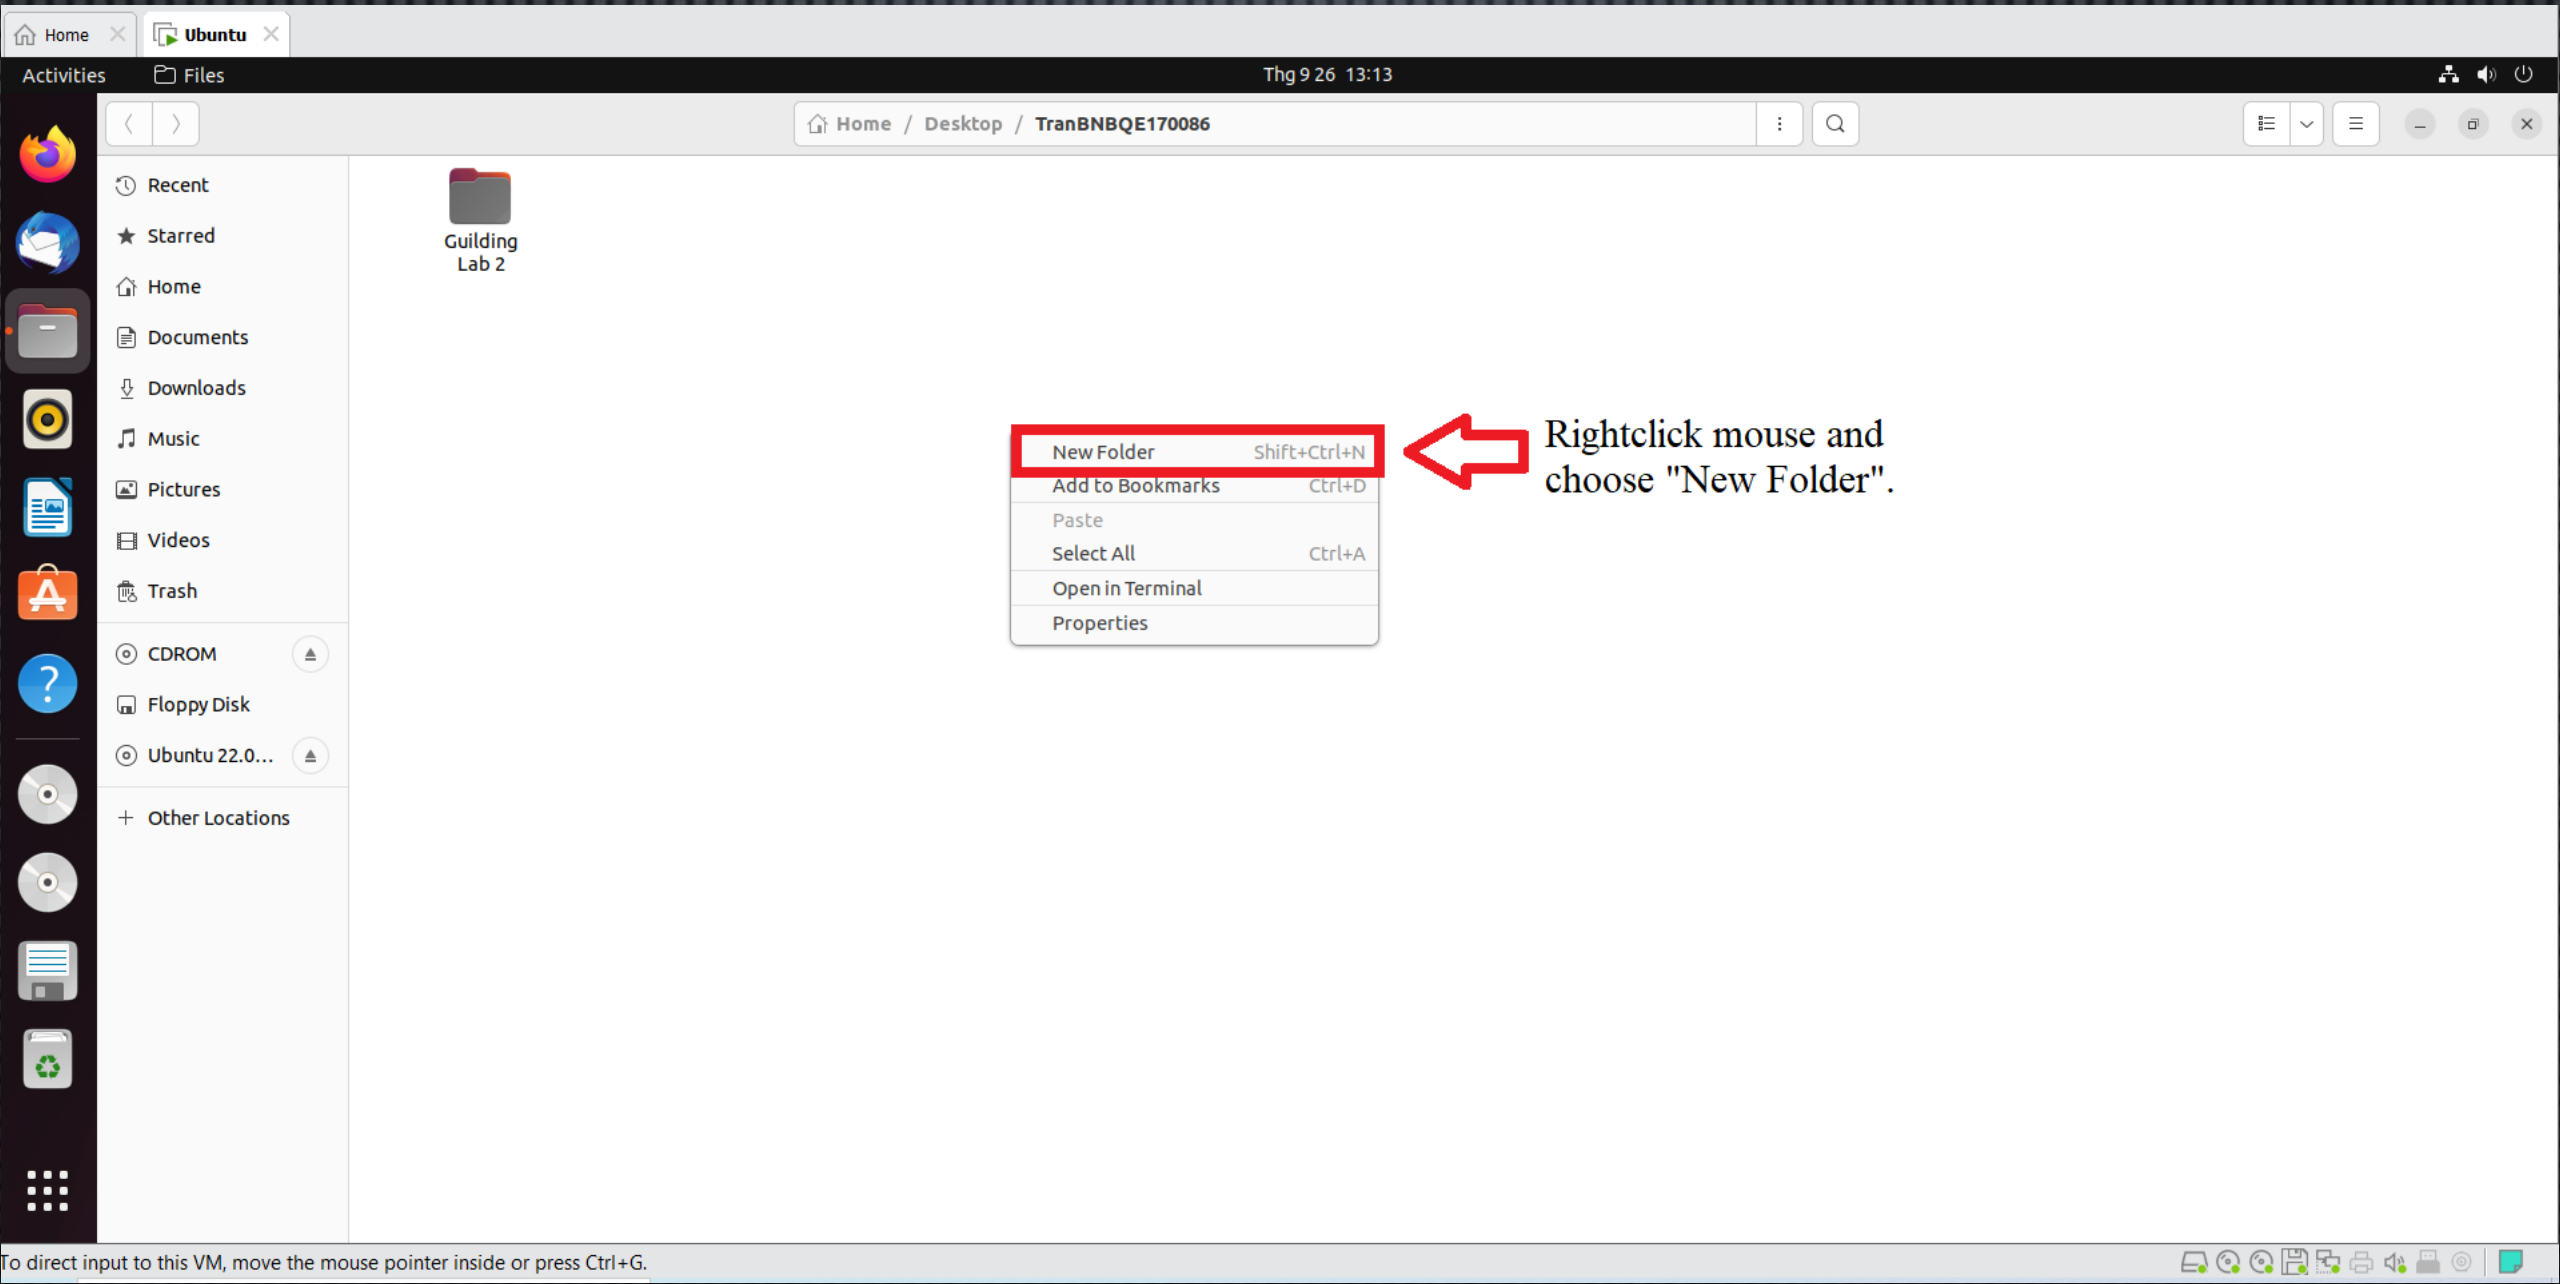

Virtual Machine Details

State: Powered off
Configuration file: E:\PHAN MEM\UBUNTU\Ubuntu.vmx
Hardware compatibility: Workstation 16.2.x virtual machine
Primary IP address: Network information is not available

Double click to get access to your folder.

Rightclick mouse and choose "***New Folder***".

Rename your file and click "***Create***".

Step 2: Click "Create".

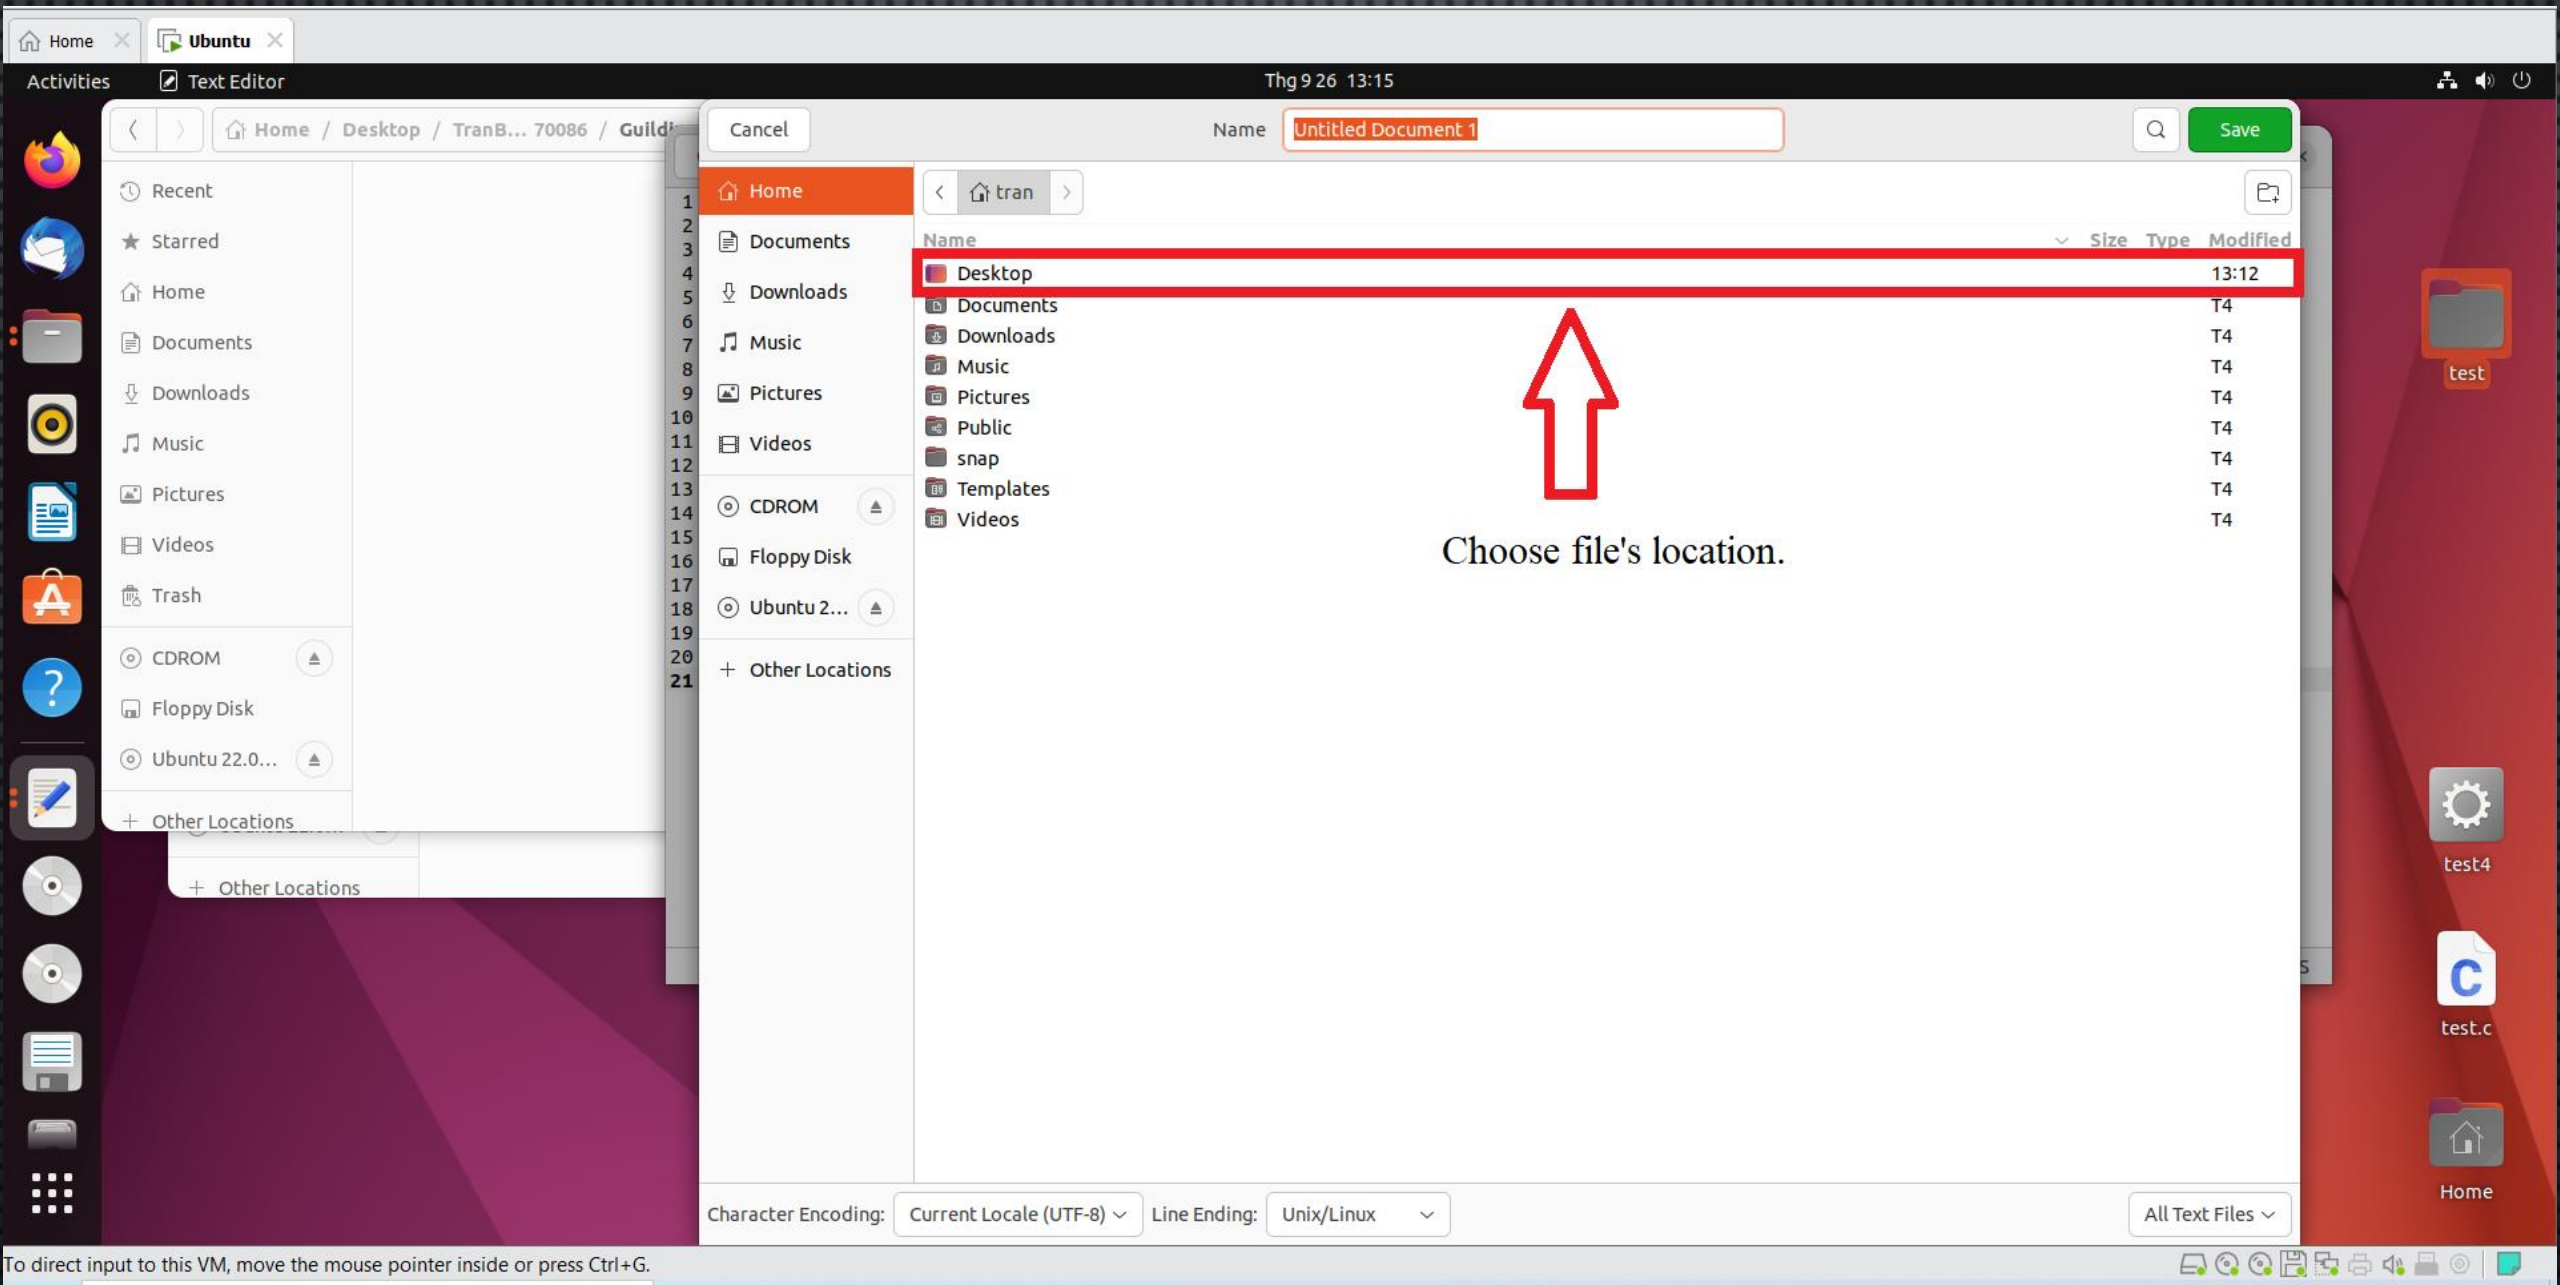

Step 1: Rename your file.

To direct input to this VM, move the mouse pointer inside or press Ctrl+G.

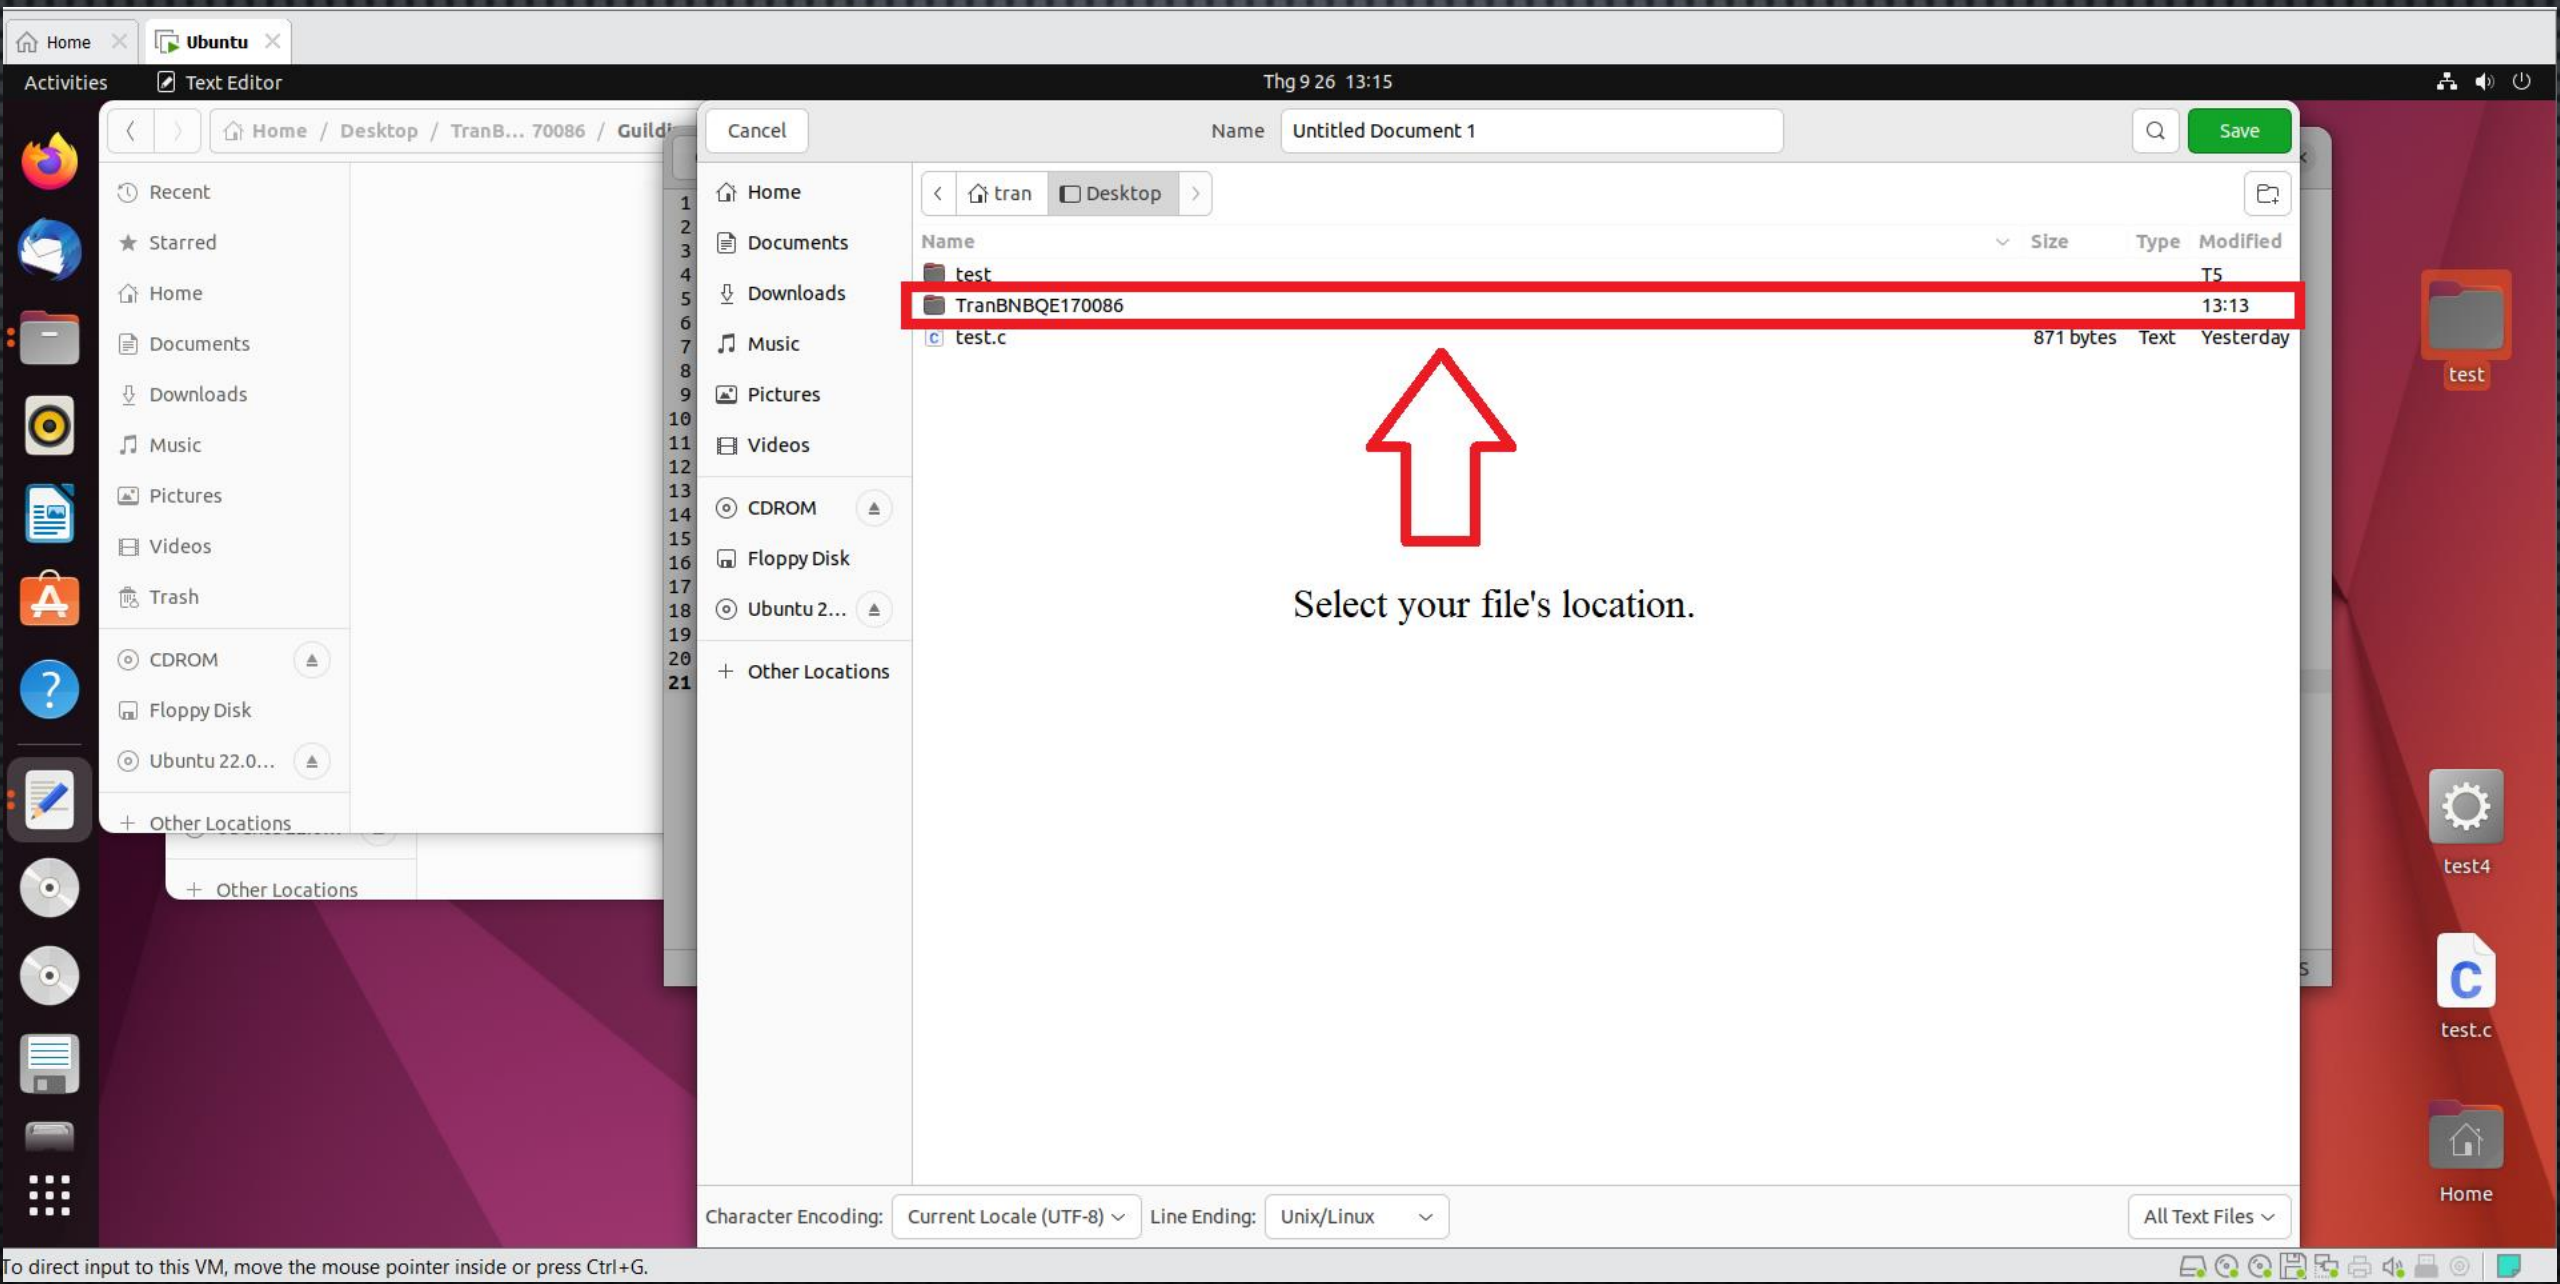

Code exercise 1 C programme.

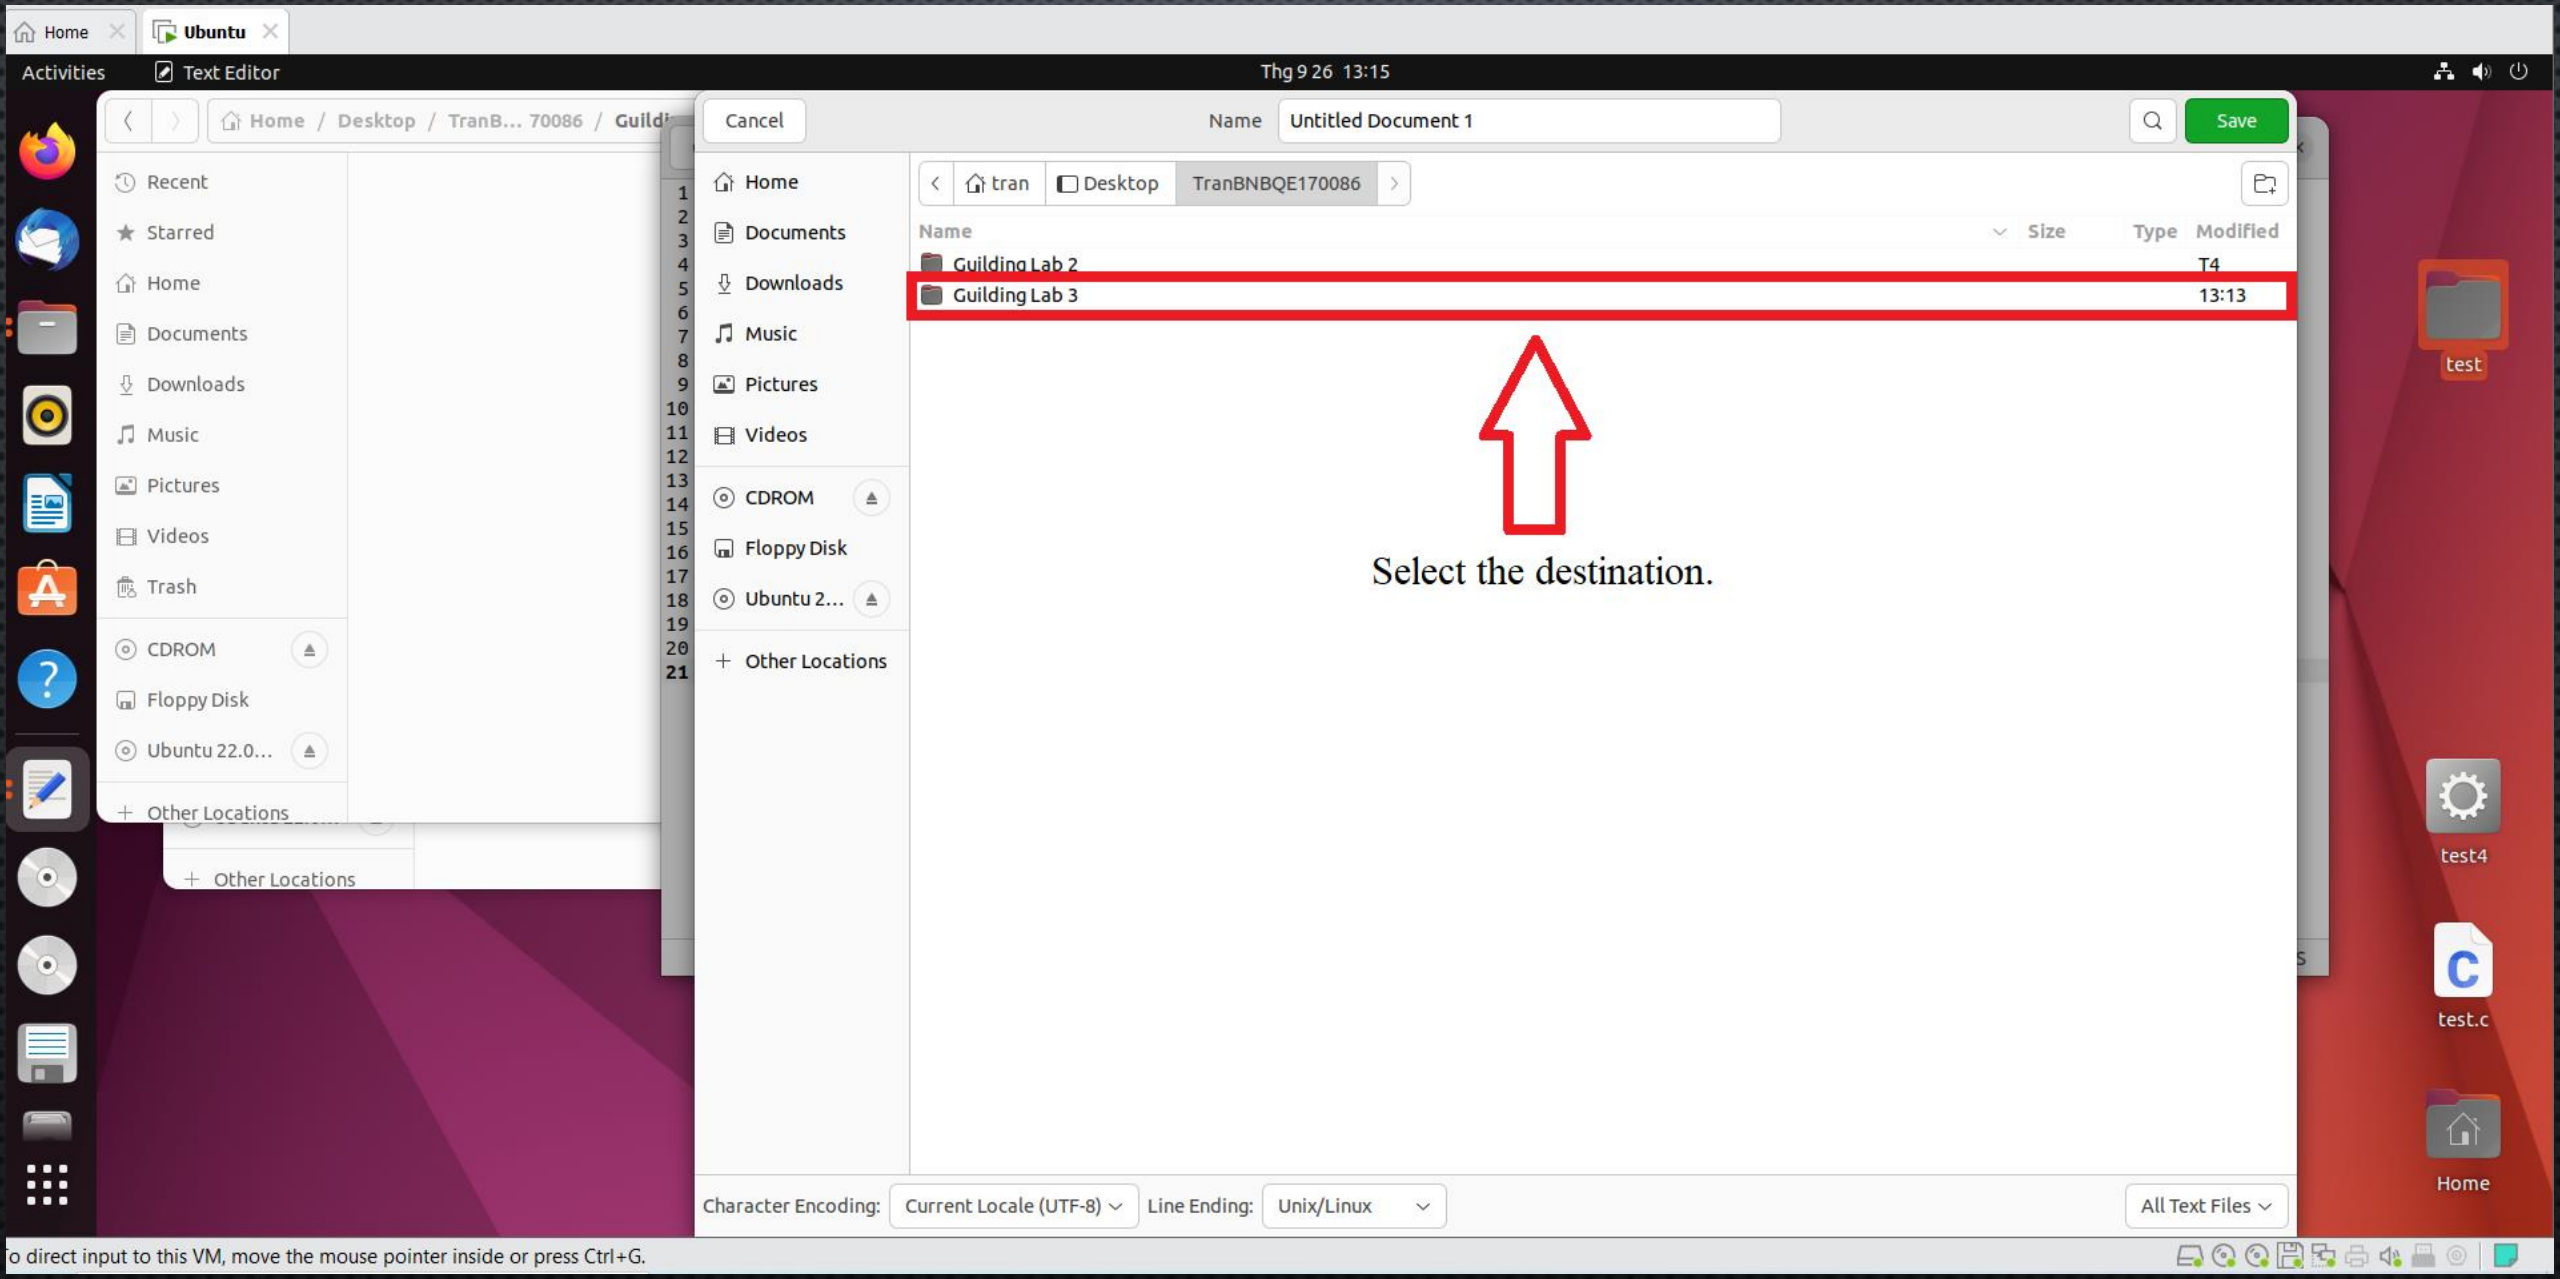

Choose the address.

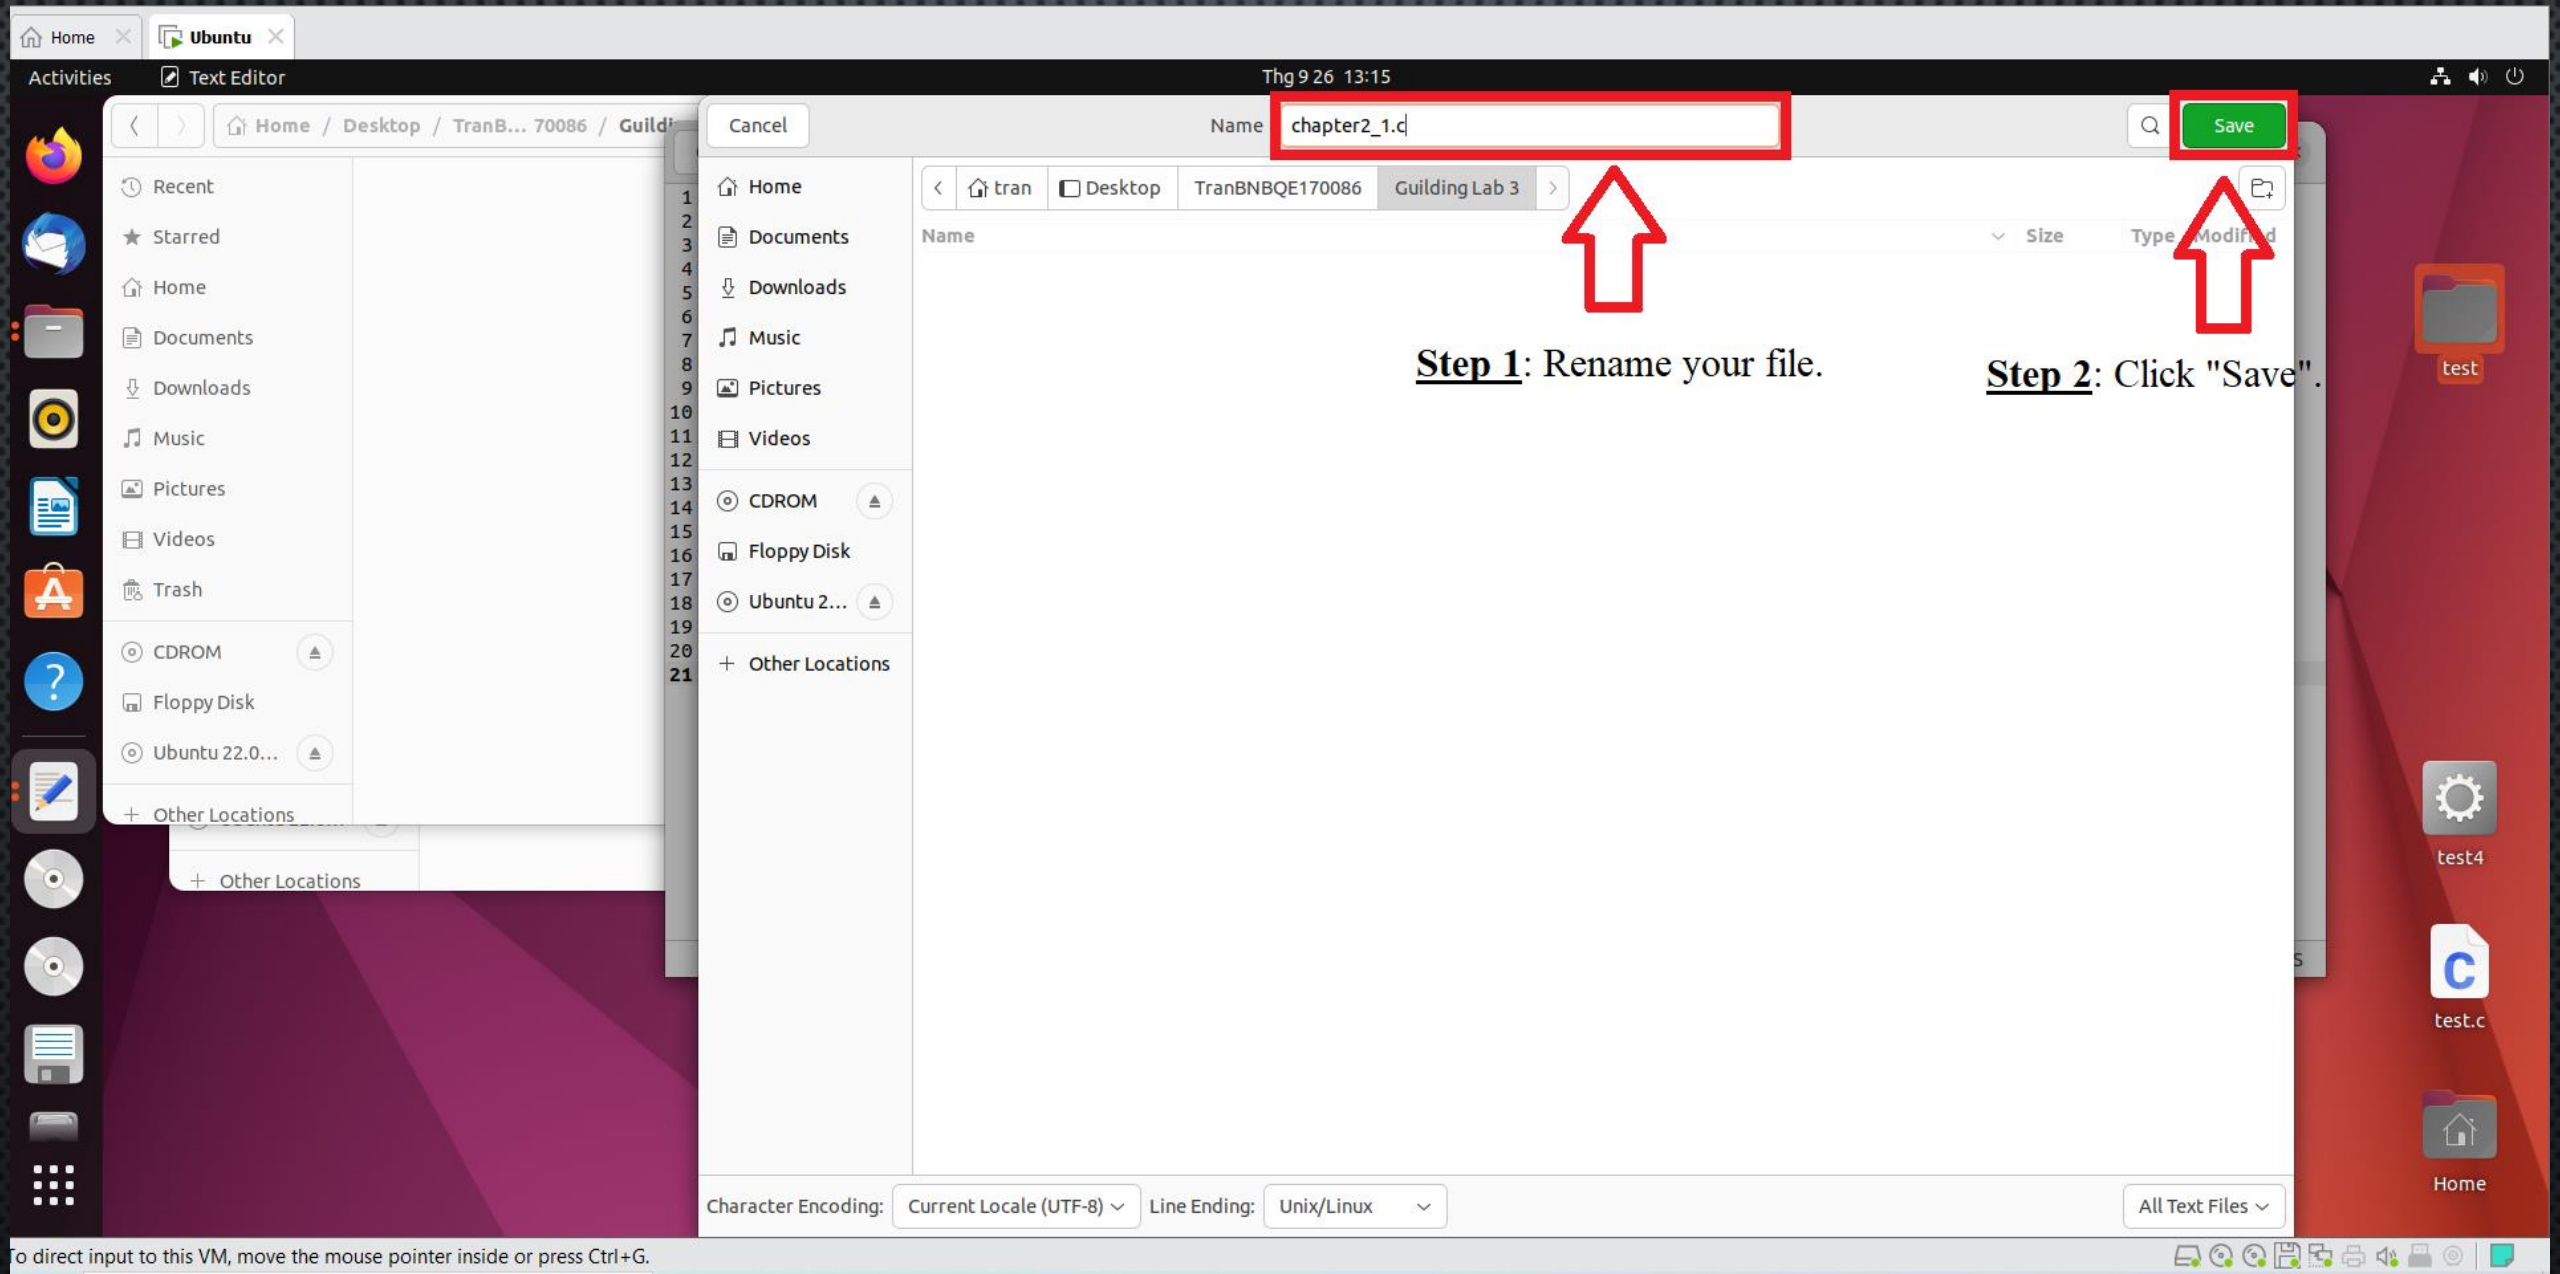

Select file’s location.

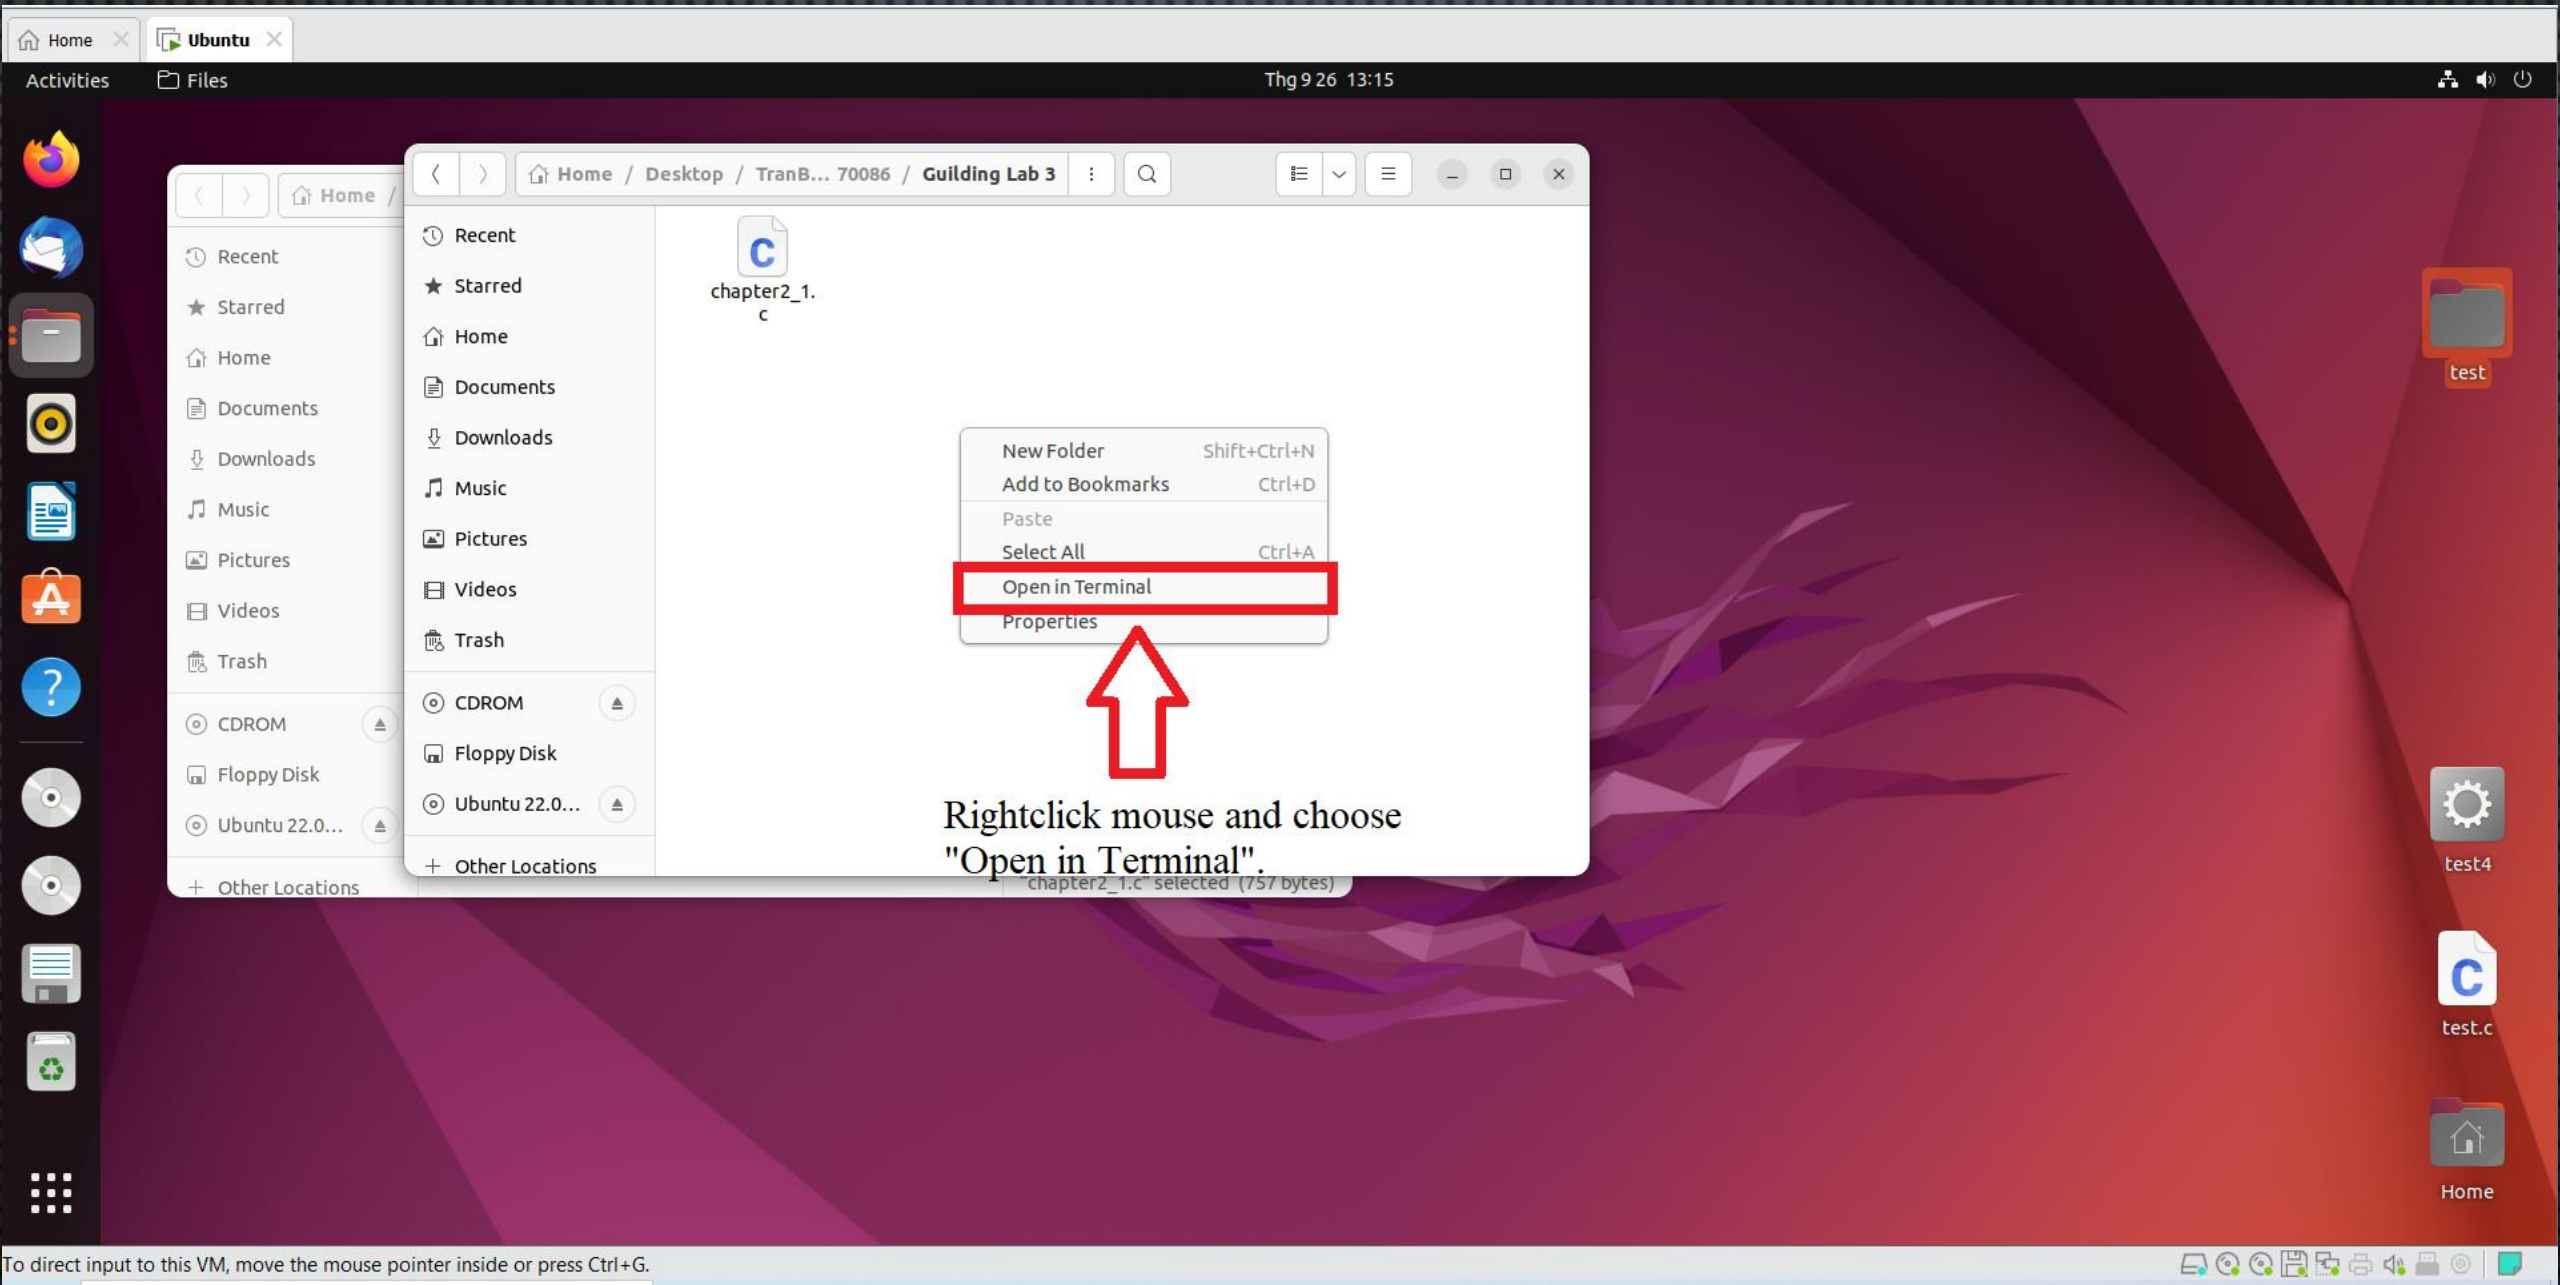

Select the destination.

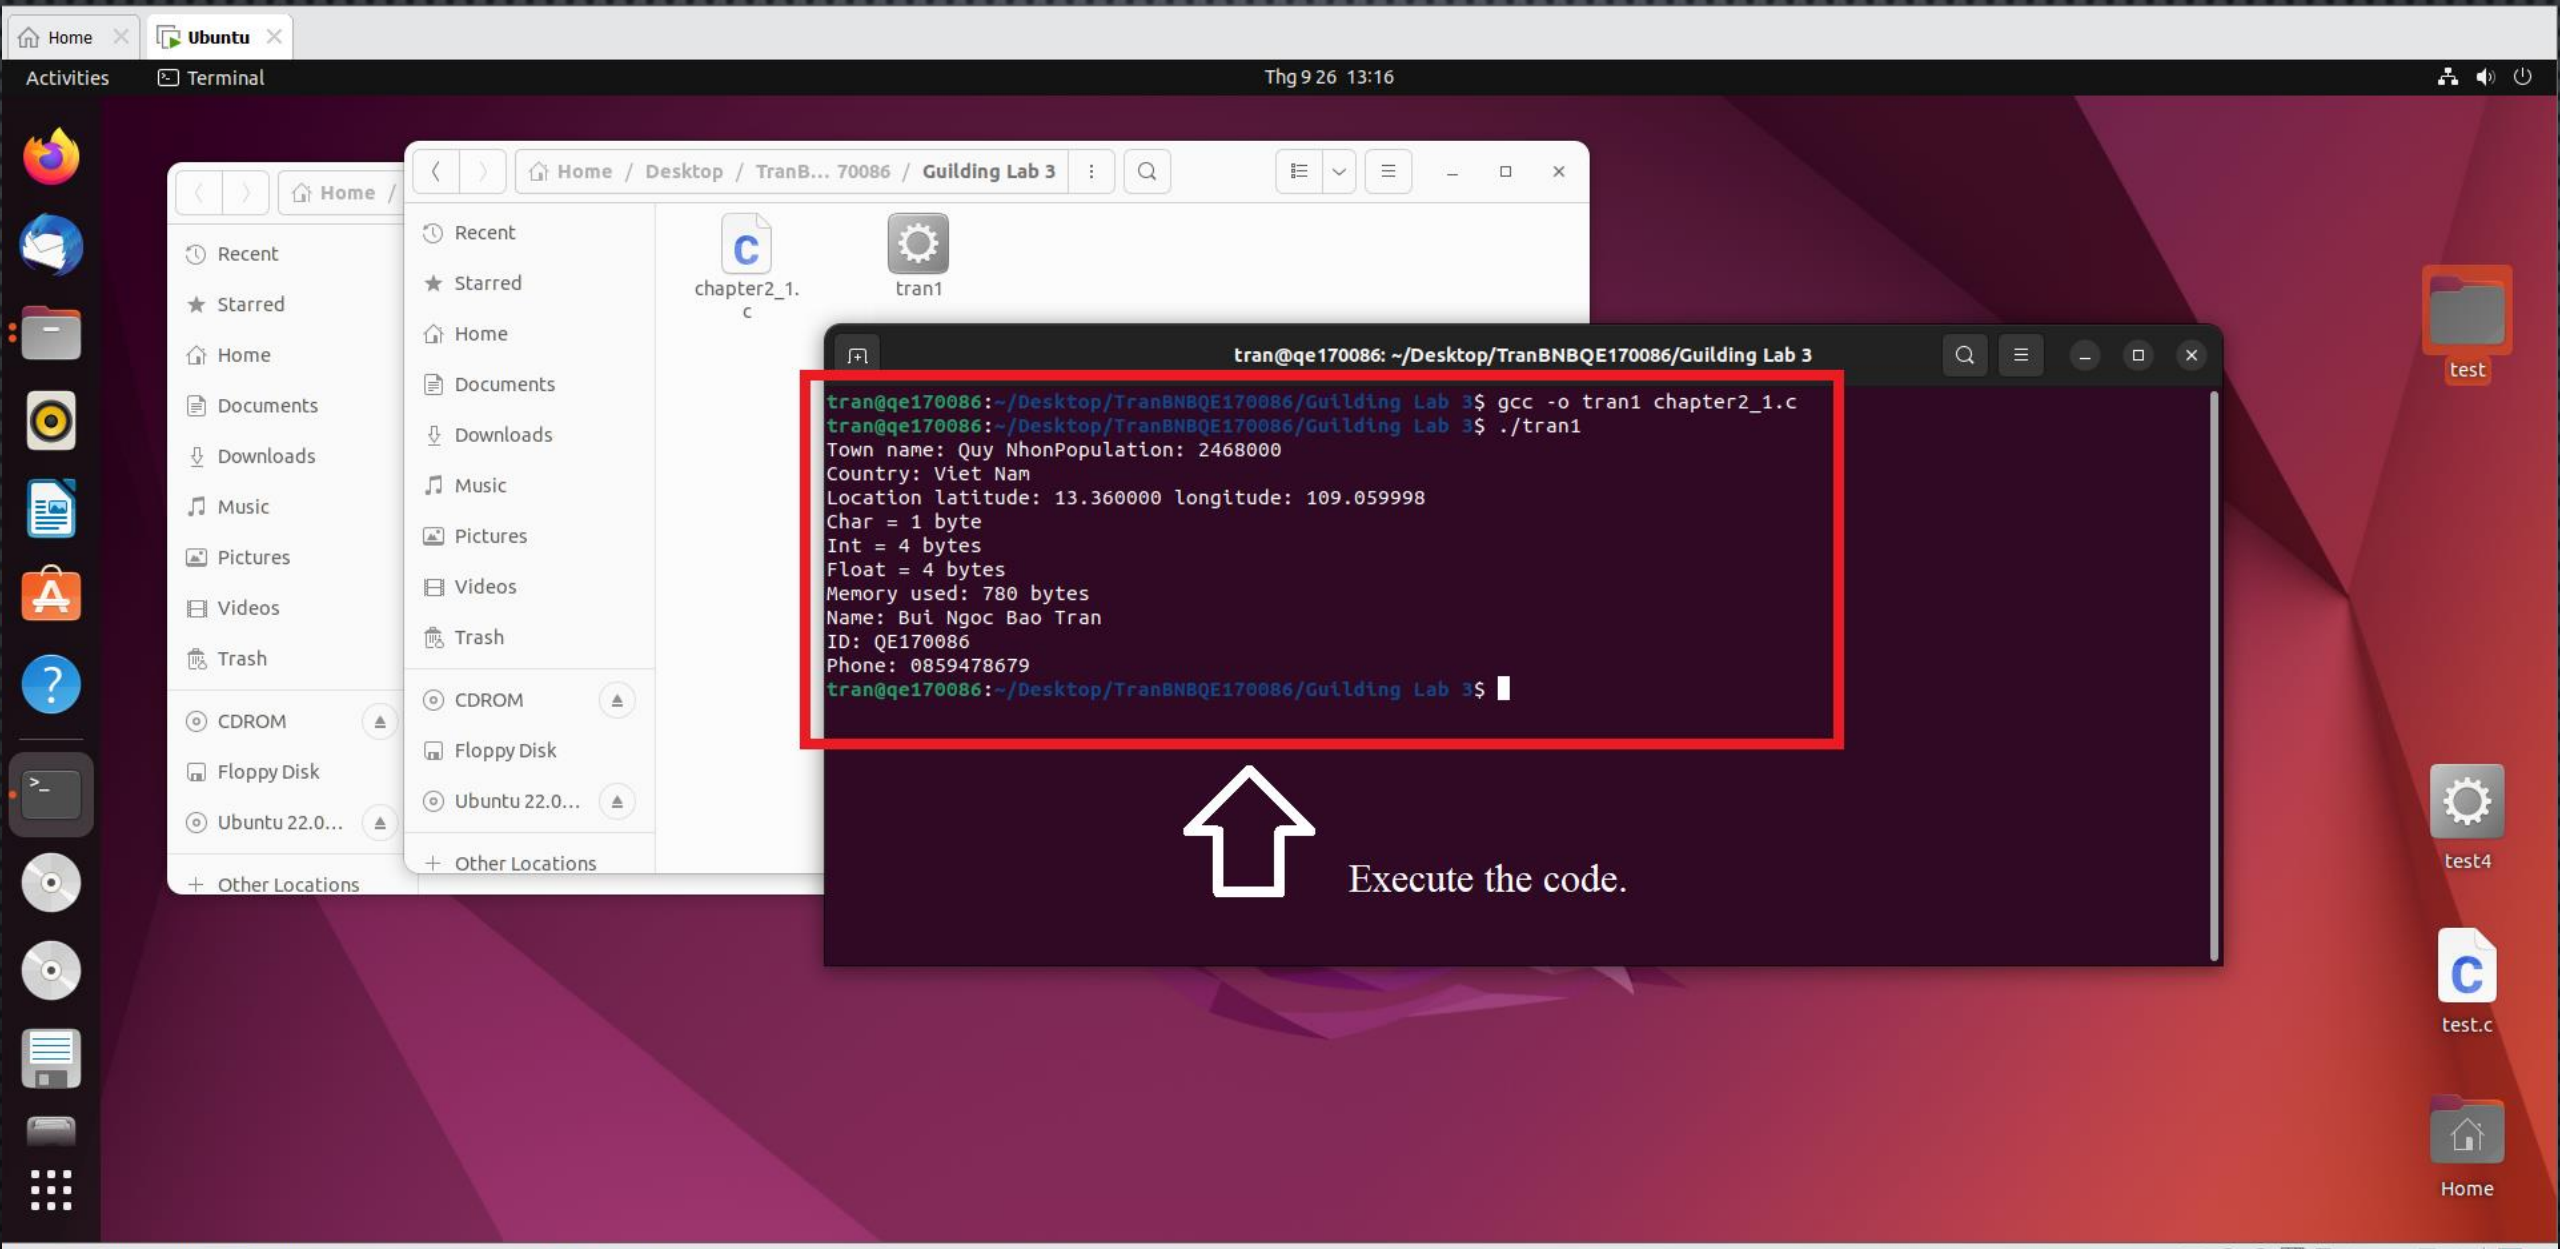

Rename your file and click "***Save***".

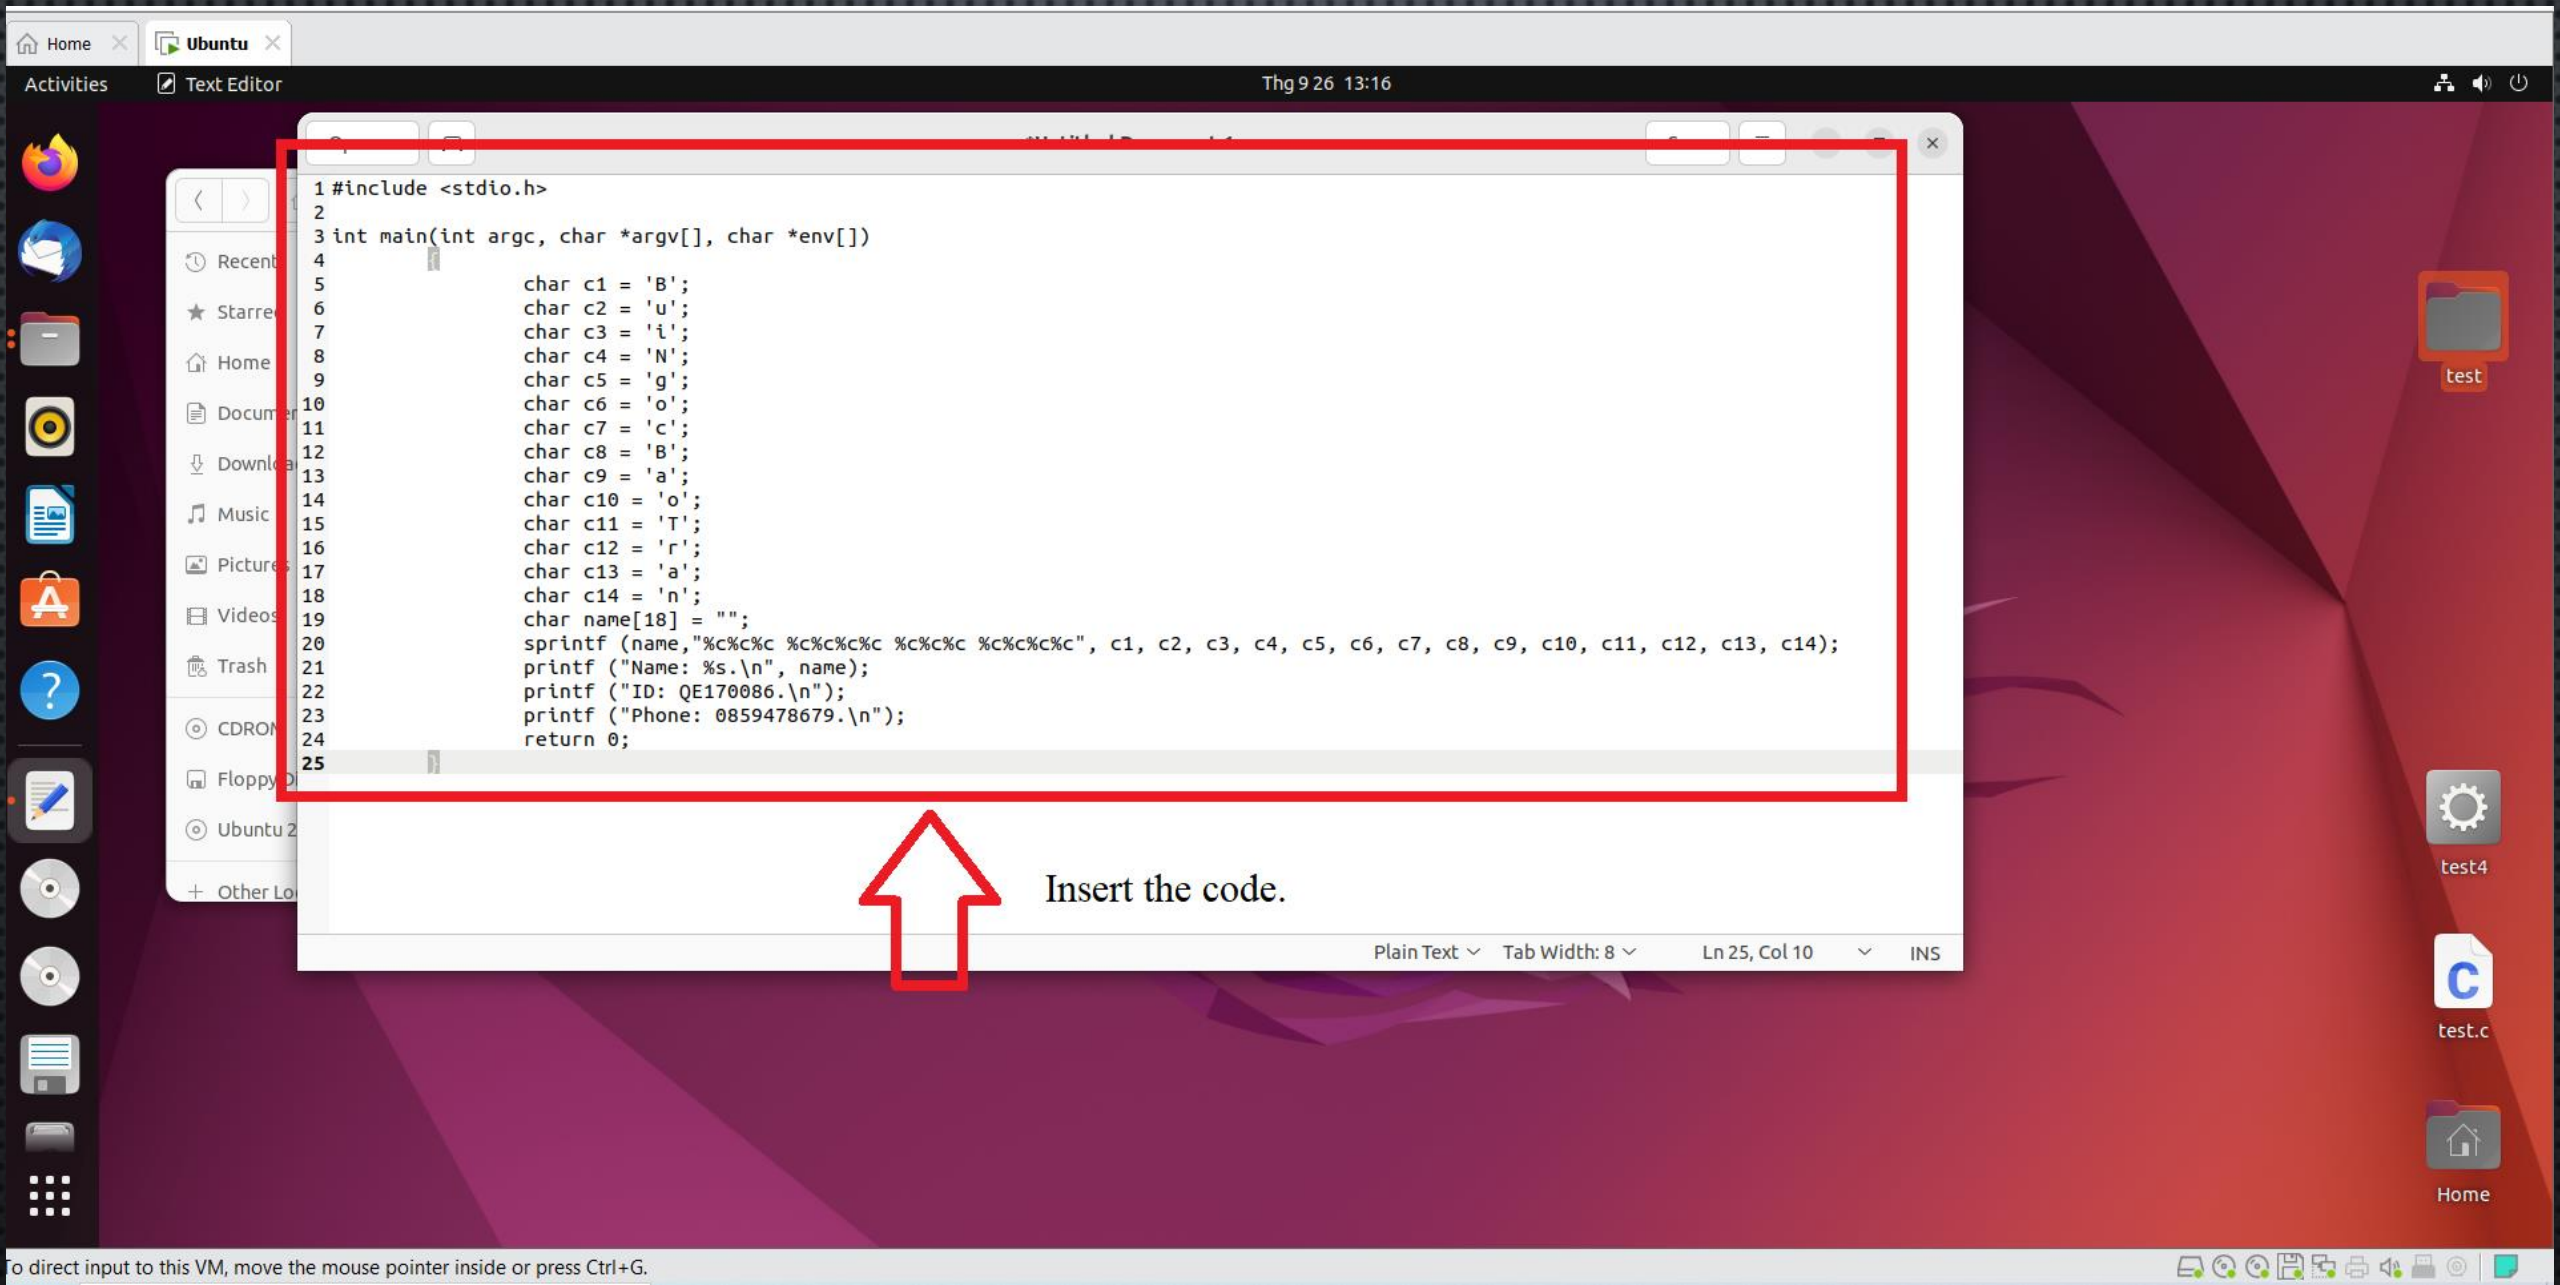

Rightclick mouse and choose "***Open in Terminal***".

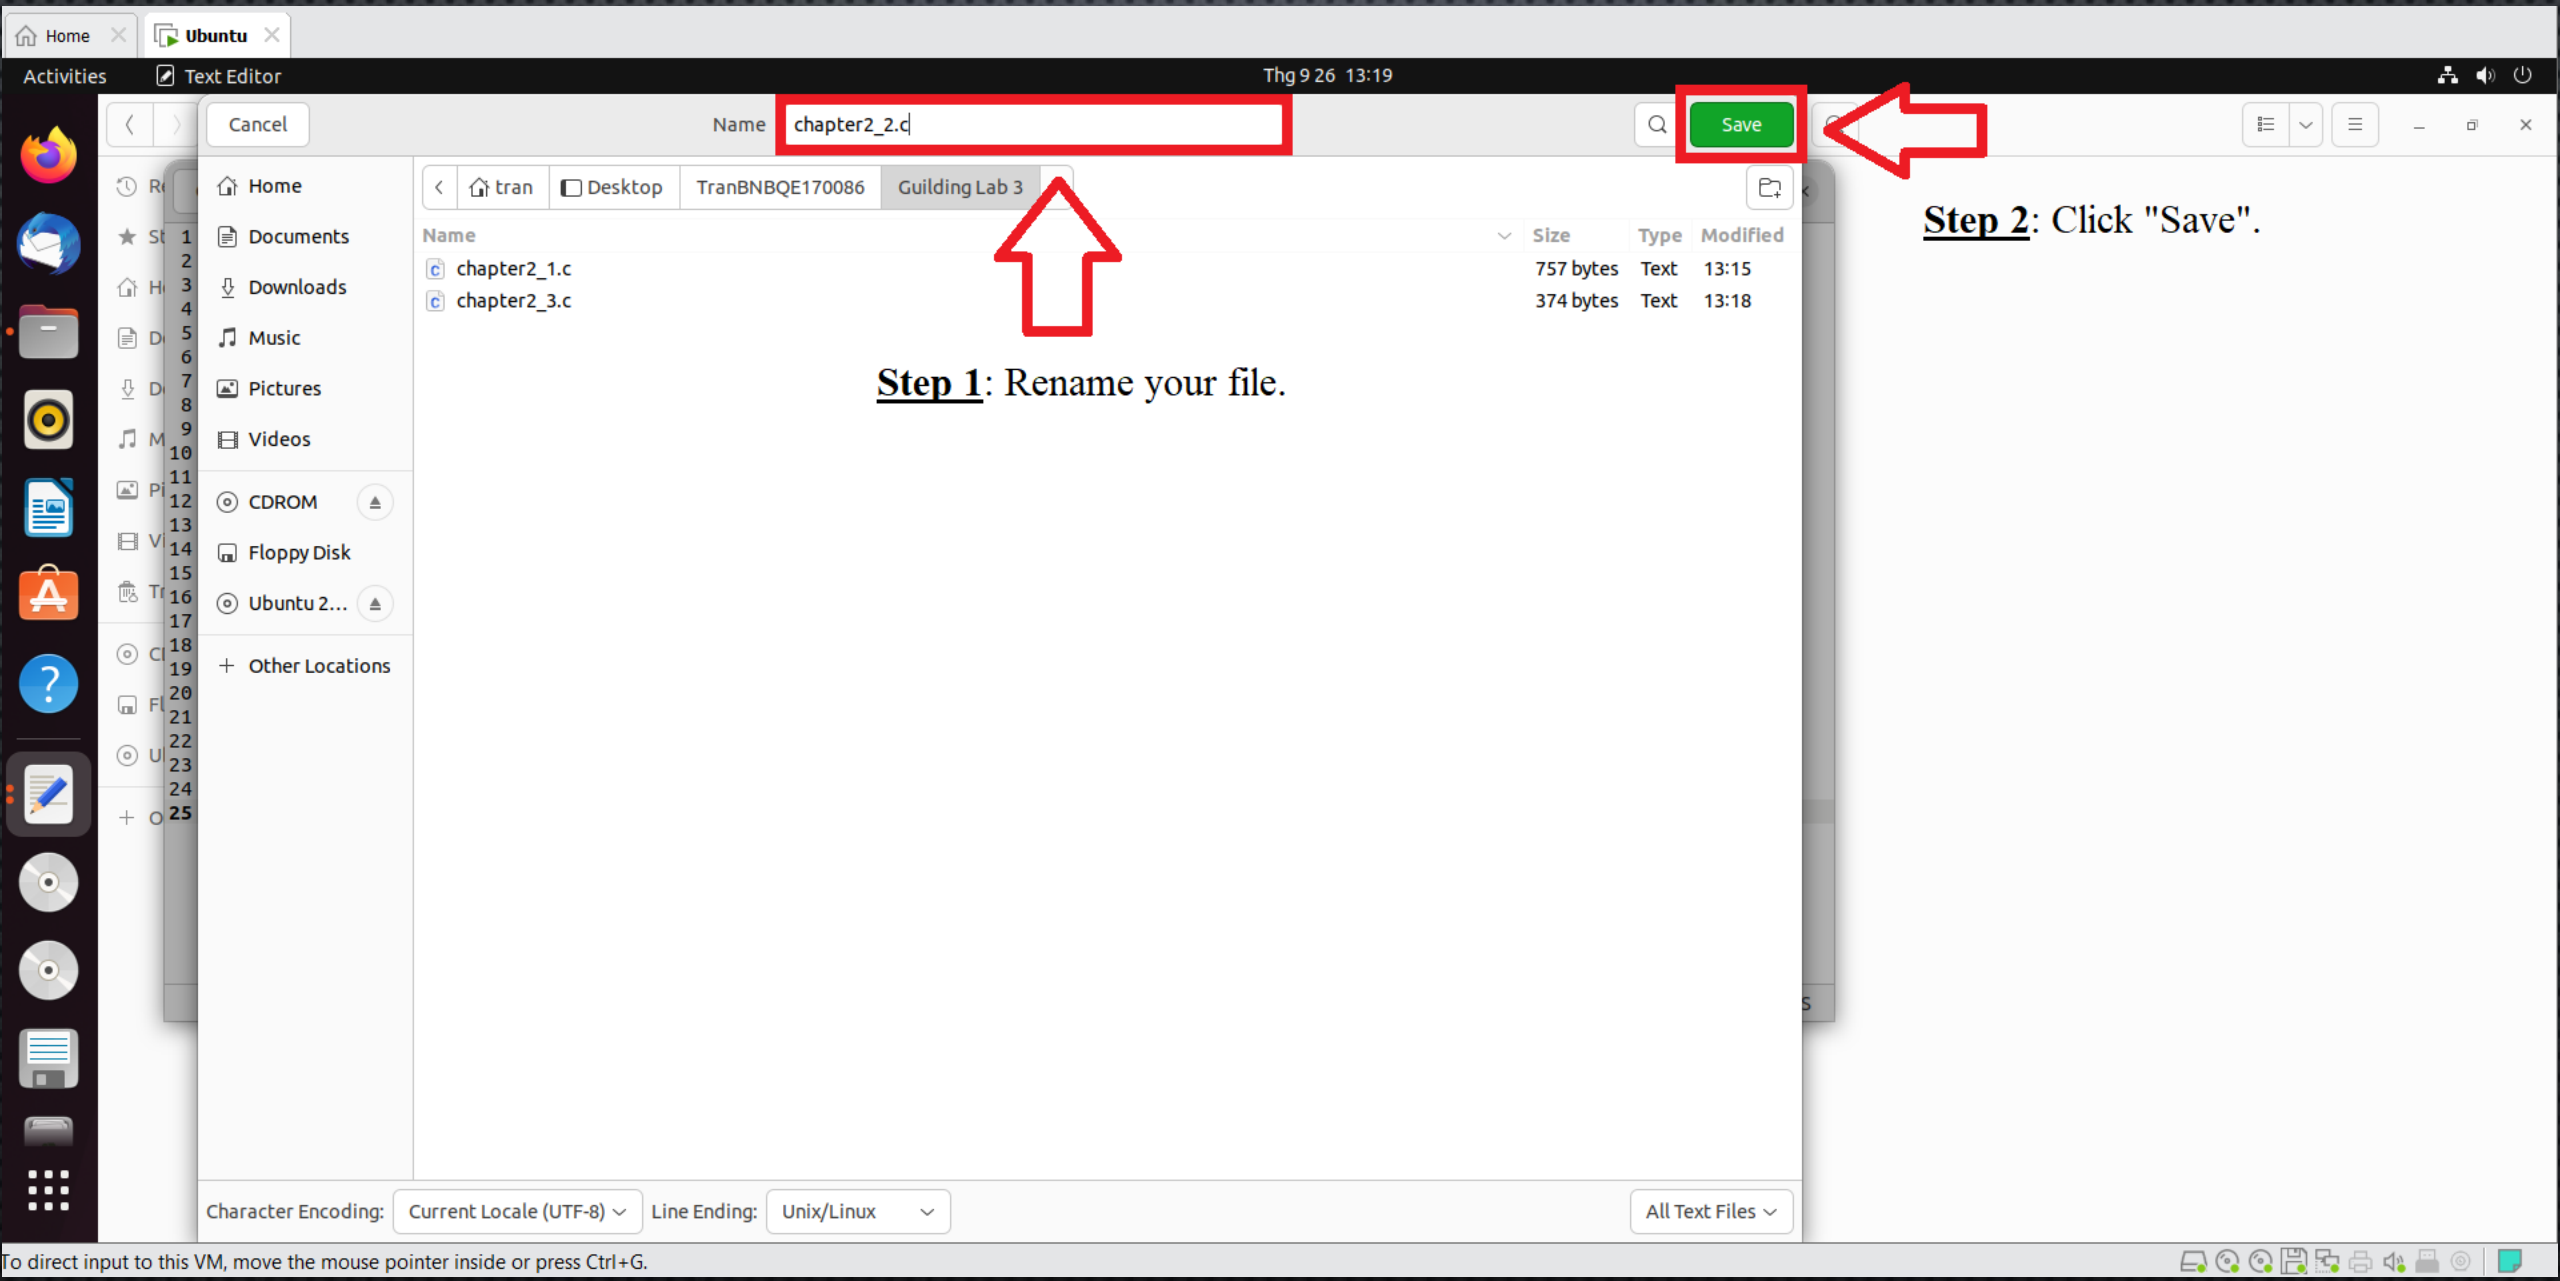

Execute the code.

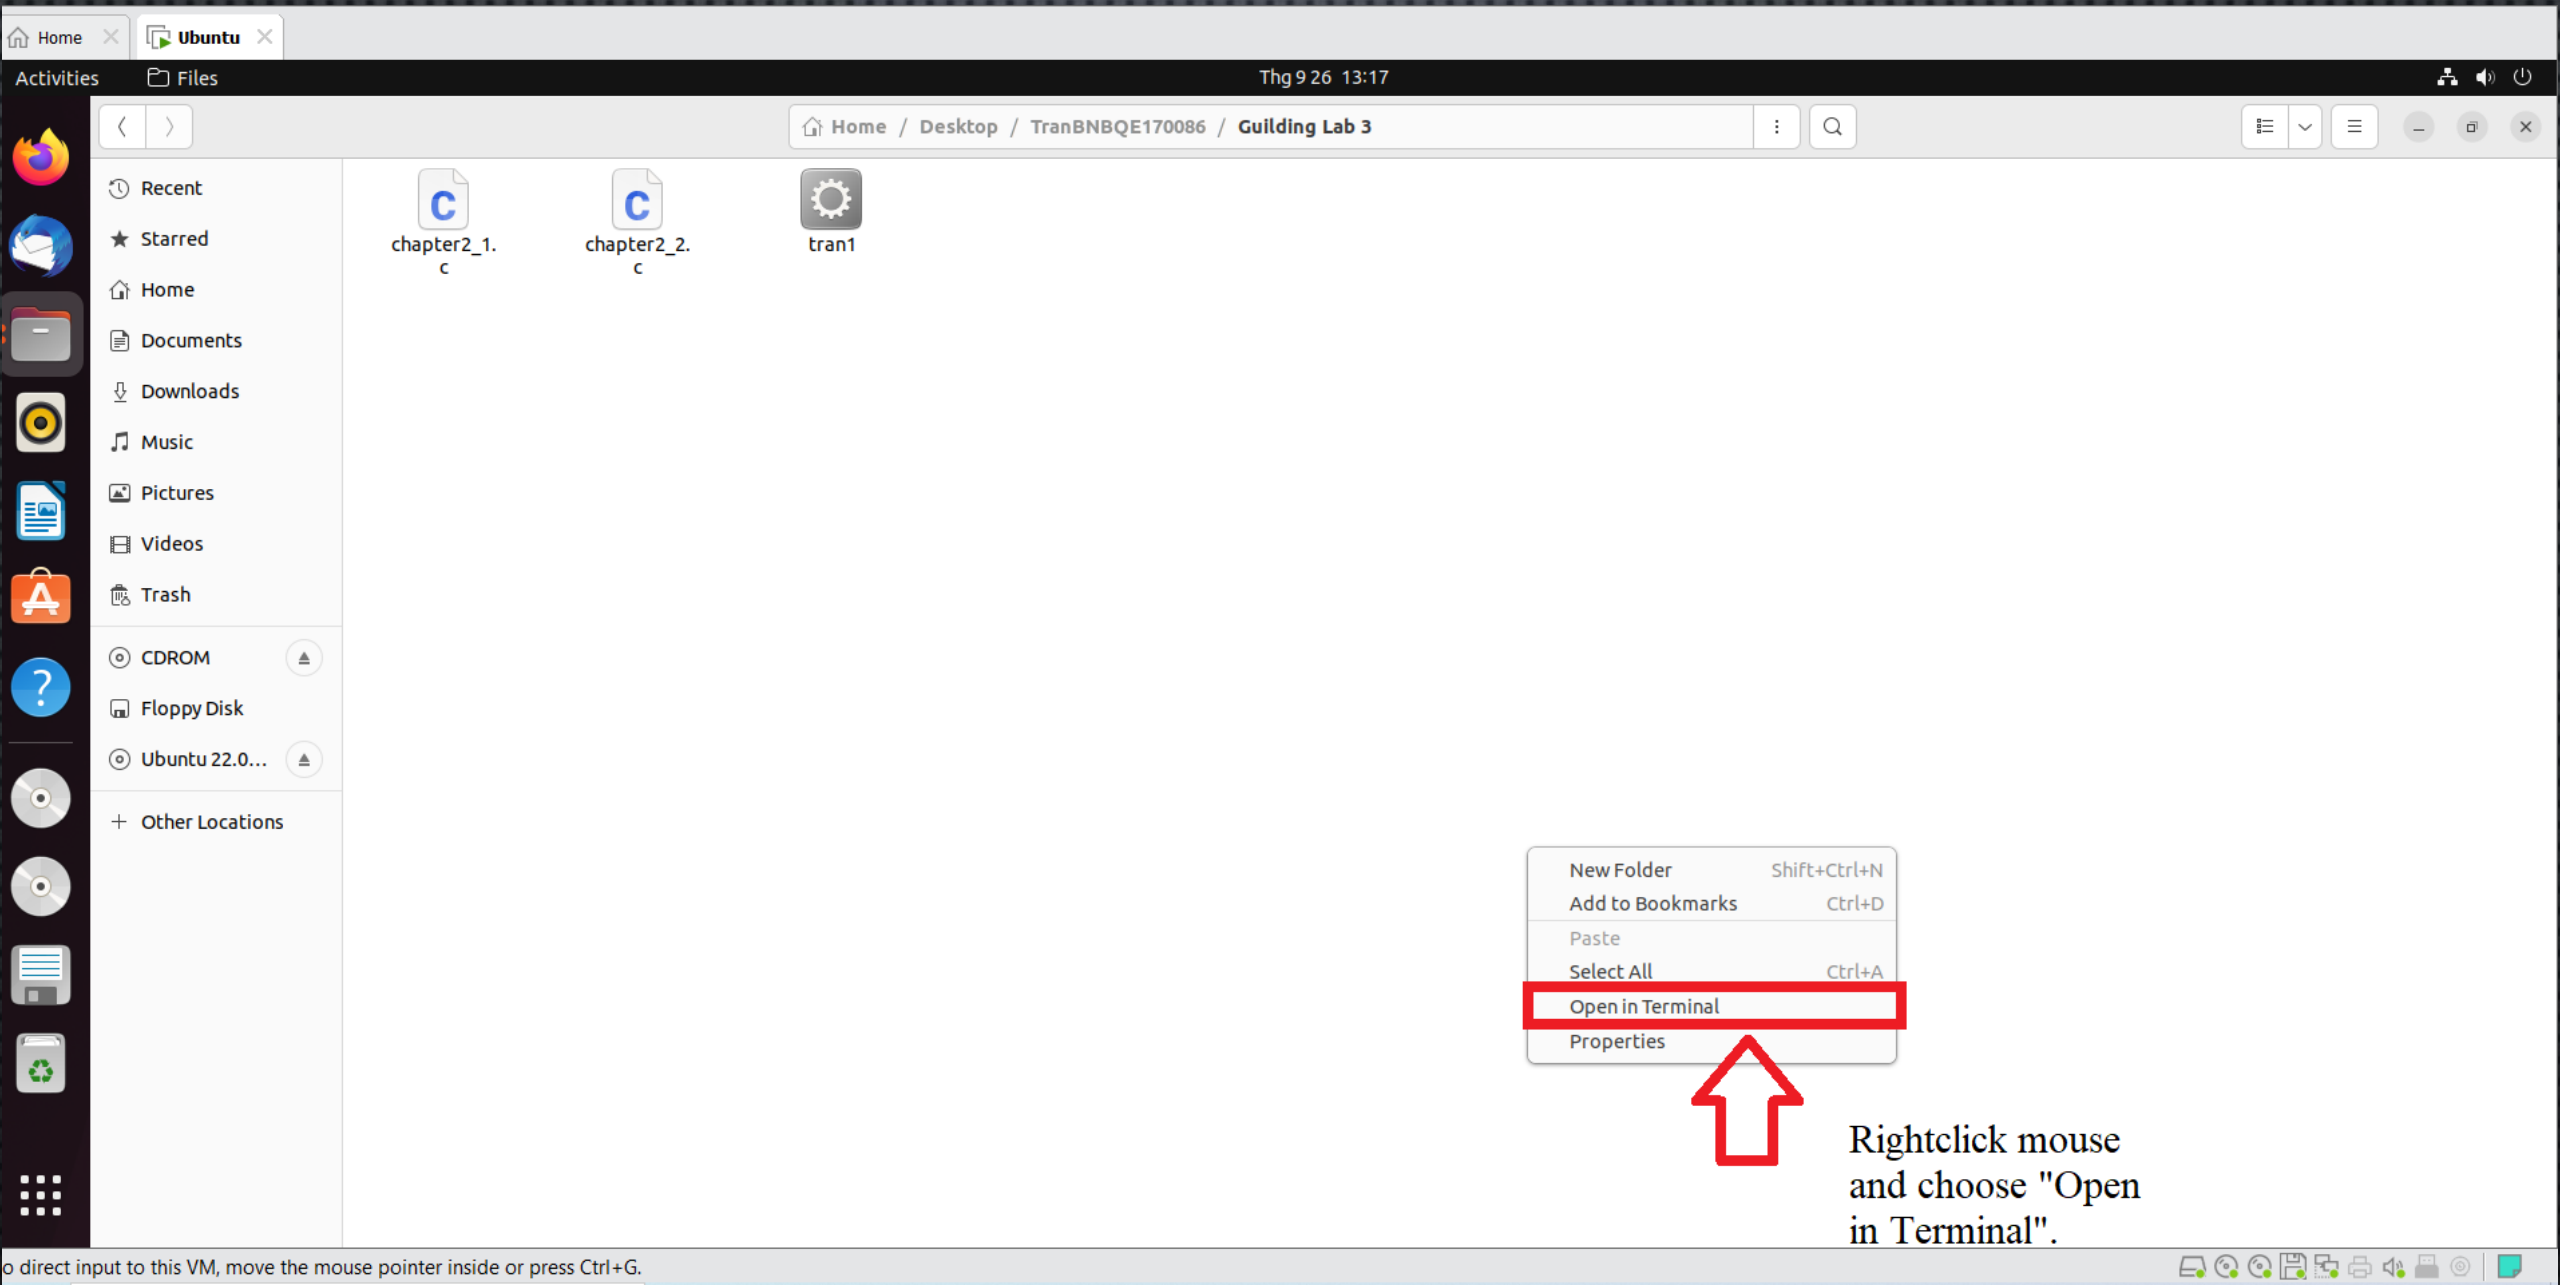

Code exercise 2 C programme.

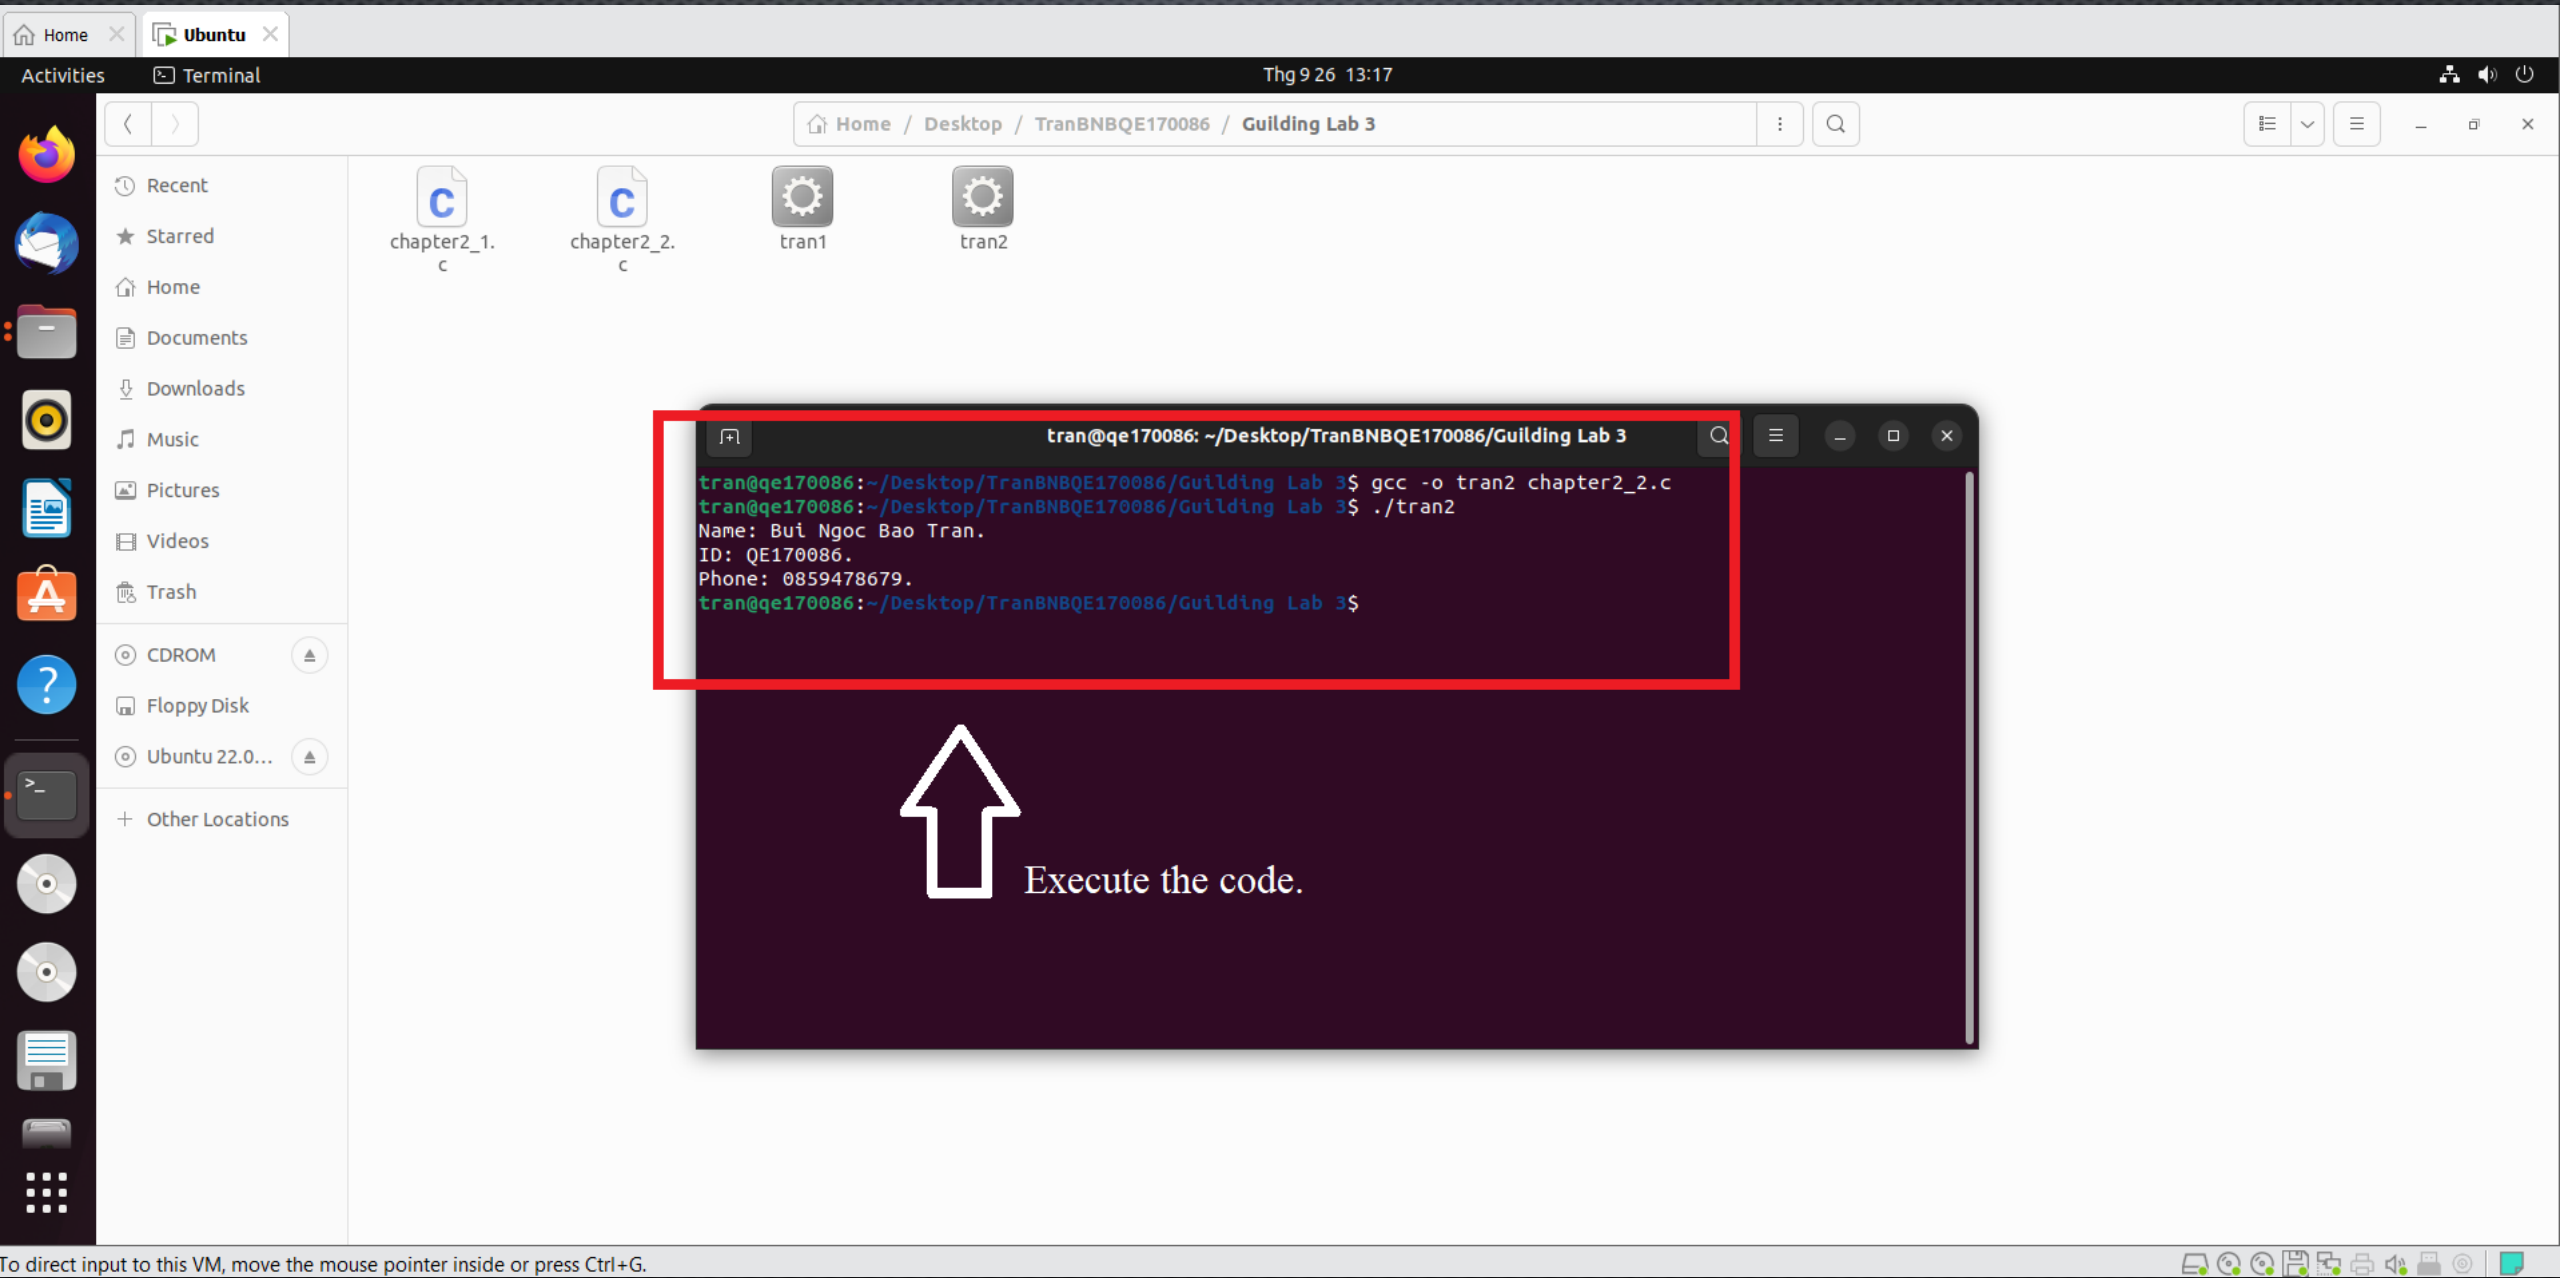

Rename your file and click "***Save***".

Rightclick mouse and choose "***Open in Terminal***".

Execute the code.

Code exercise 3 C programme.

```c
#include <stdio.h>
#include <string.h>

int main(int argc, char *argv[], char *env[])
        {
                char *token = NULL;
                char colour1[256] = "";
                char colour2[256] = "";
                int wide = 0;
                int high = 0;
                int columns = 0;
                int rows = 0;

                token = (char *) strtok(argv[1],":");
                strcpy(colour1,token);
                token = (char *) strtok(NULL,":");
                strcpy(colour2,token);
                token = (char *) strtok(NULL,":");
                wide = atoi(token);
                token = (char *) strtok(NULL,":");
                high = atoi(token);
                printf("Content-type:text/html\n\n");
                printf("<html>\n");
                printf("<body bgcolor=\"%s\">\n",colour1);
                printf("<center>\n");
                printf("<table bgcolor=\"%s\" border=2>\n",colour2);
                for(rows=1;rows<=high;rows++)
                        {
                                printf("<tr>\n"); for(columns=1;columns<=wide;columns++)
                                        {
                                                printf("<td><h6>row=%d cell=%d</h6></td>\n",rows,columns);
                                        }
                                printf("</tr>\n");
                        }
                printf("</table>\n"); printf("</body>\n"); printf("</html>\n");
                printf ("Name: Bui Ngoc Bao Tran\n");
                printf ("ID: QE170086\n");
                printf ("Phone: 0859478679\n");
                return 0;
        }

```

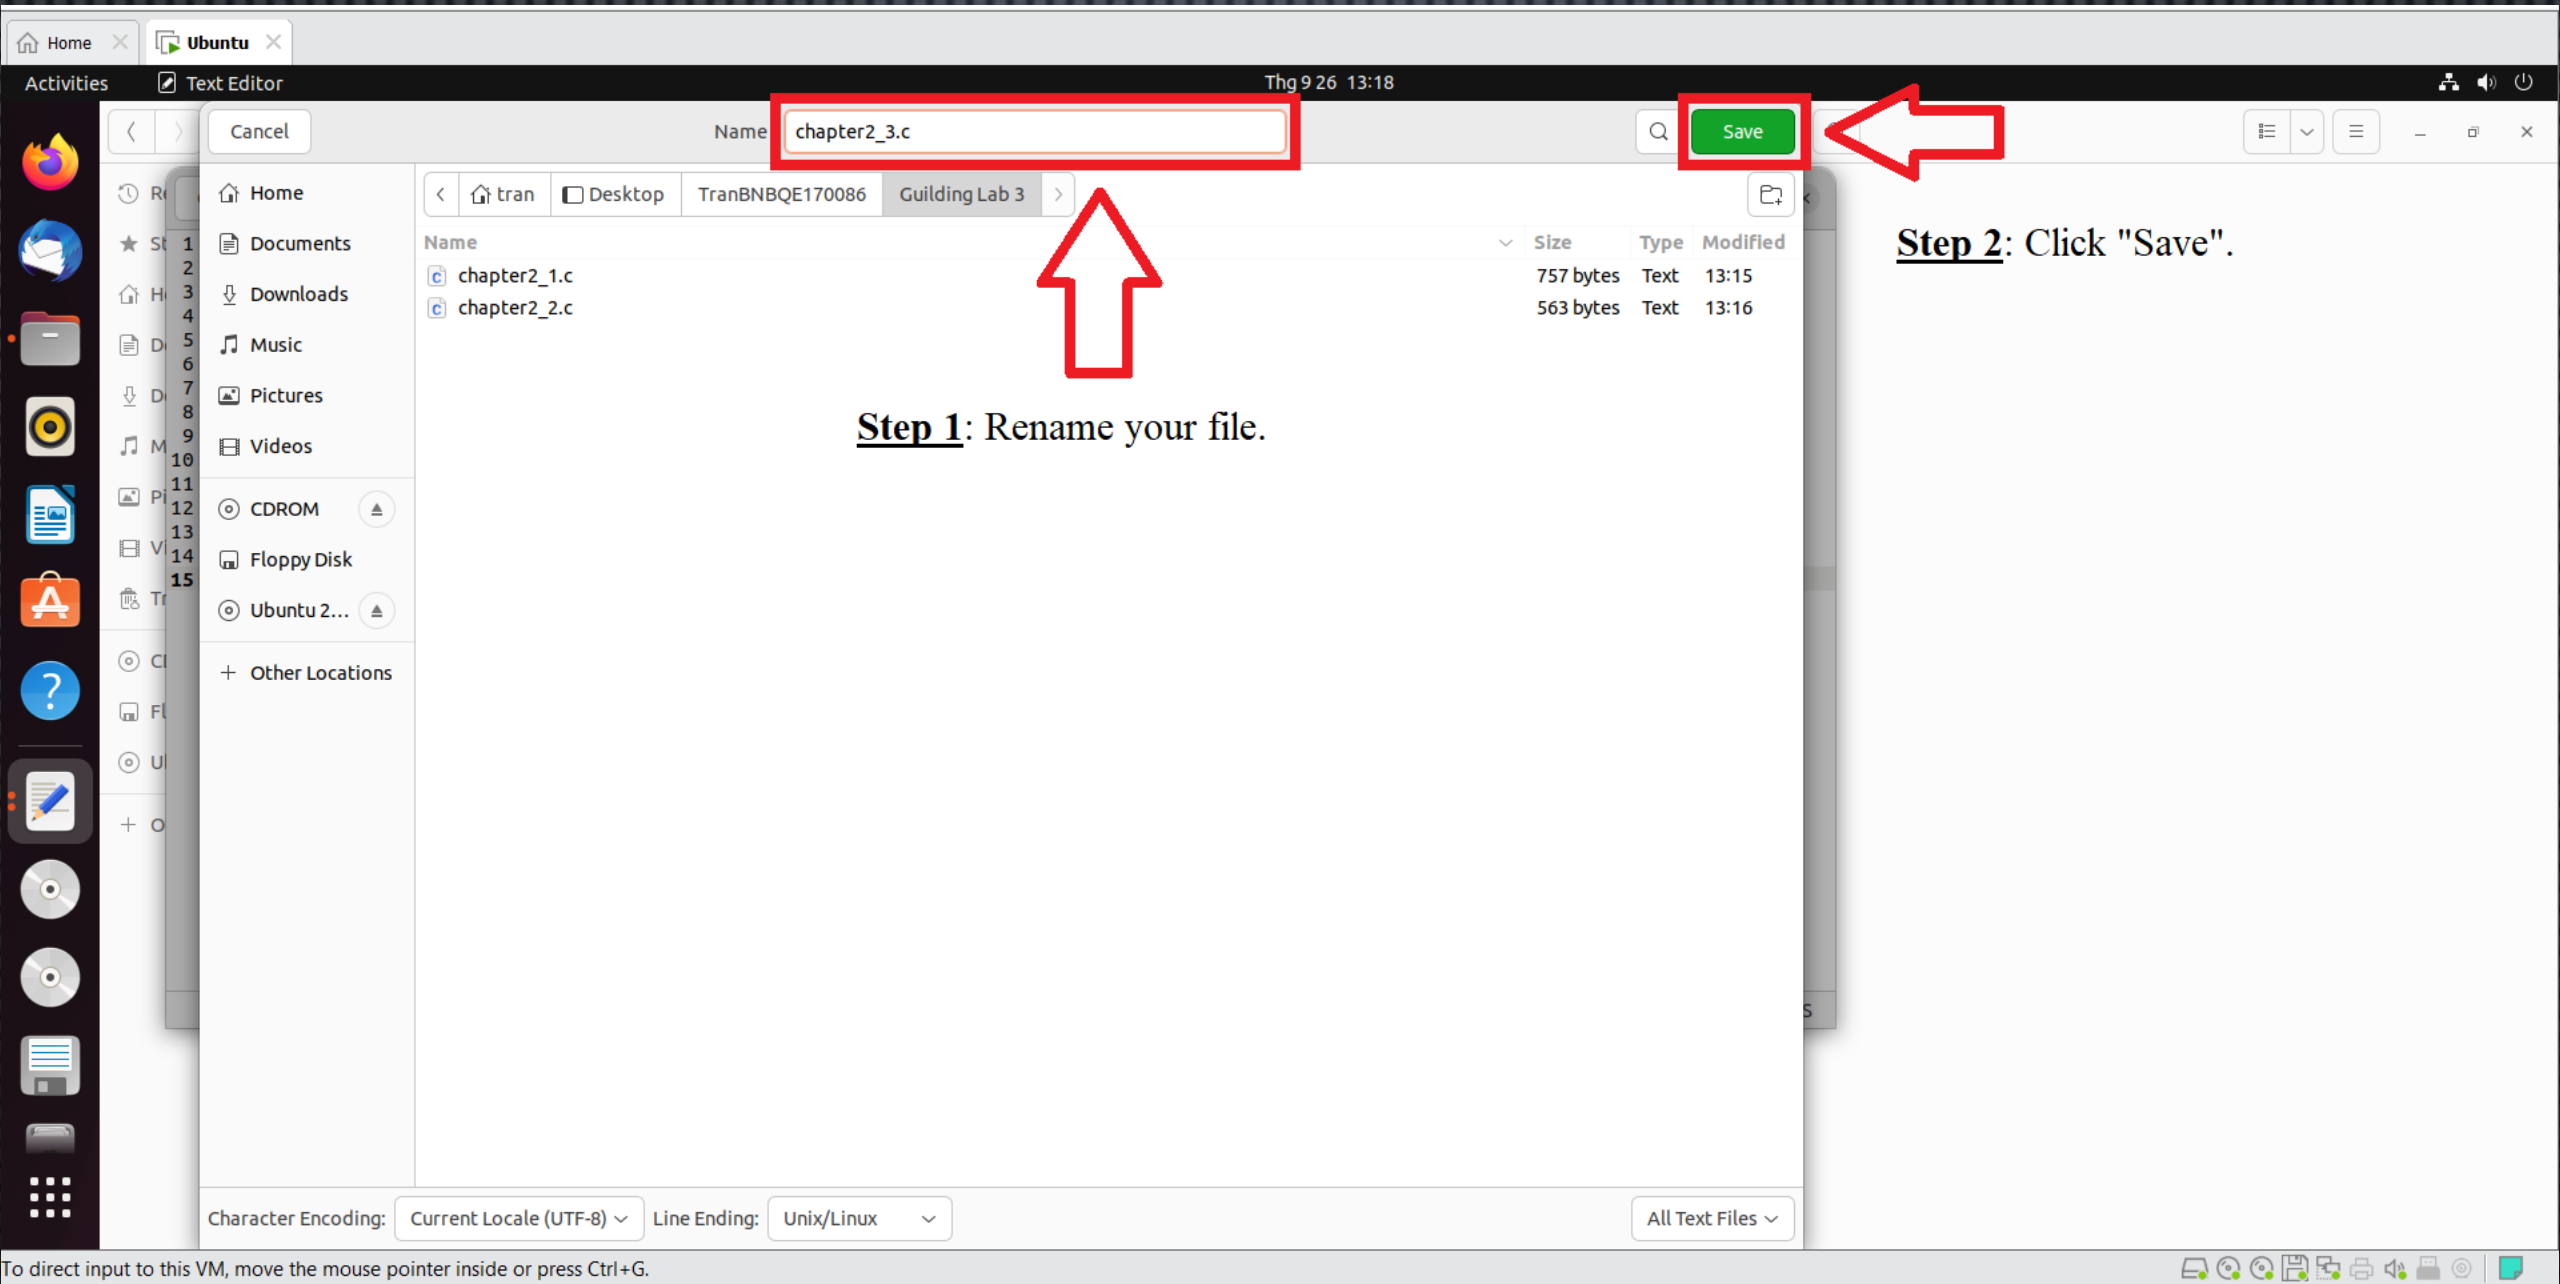

Insert the code.

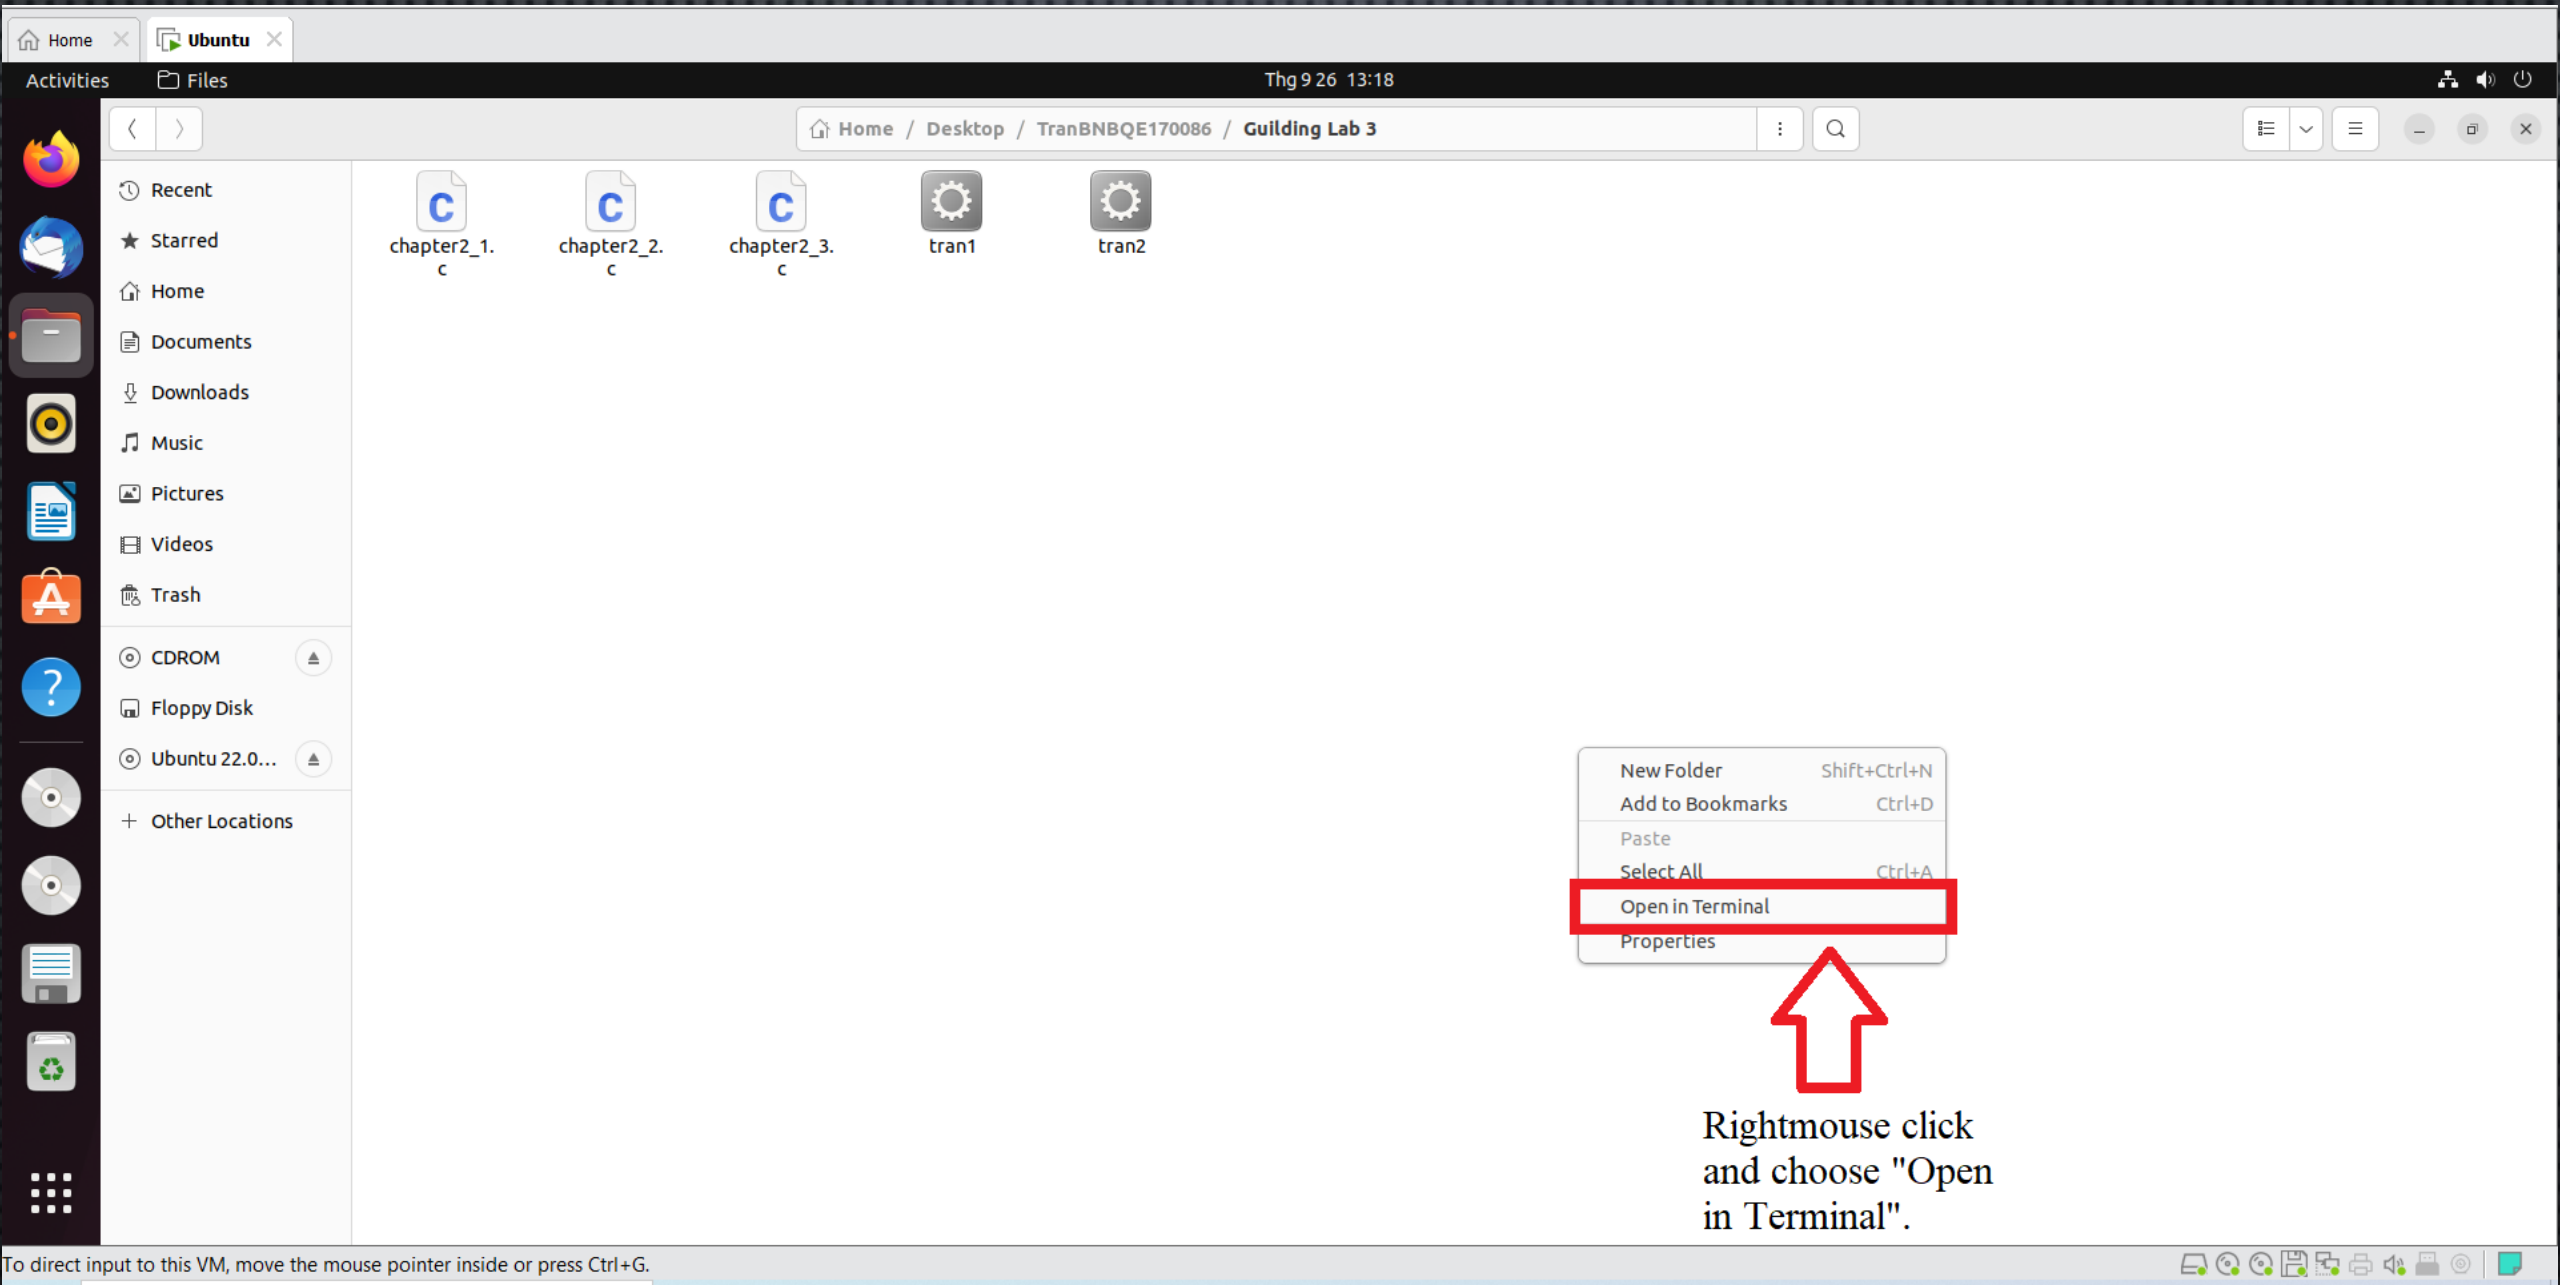

Plain Text | Tab Width: 8 | Ln 38, Col 48 | OVR

To direct input to this VM, move the mouse pointer inside or press Ctrl+G.

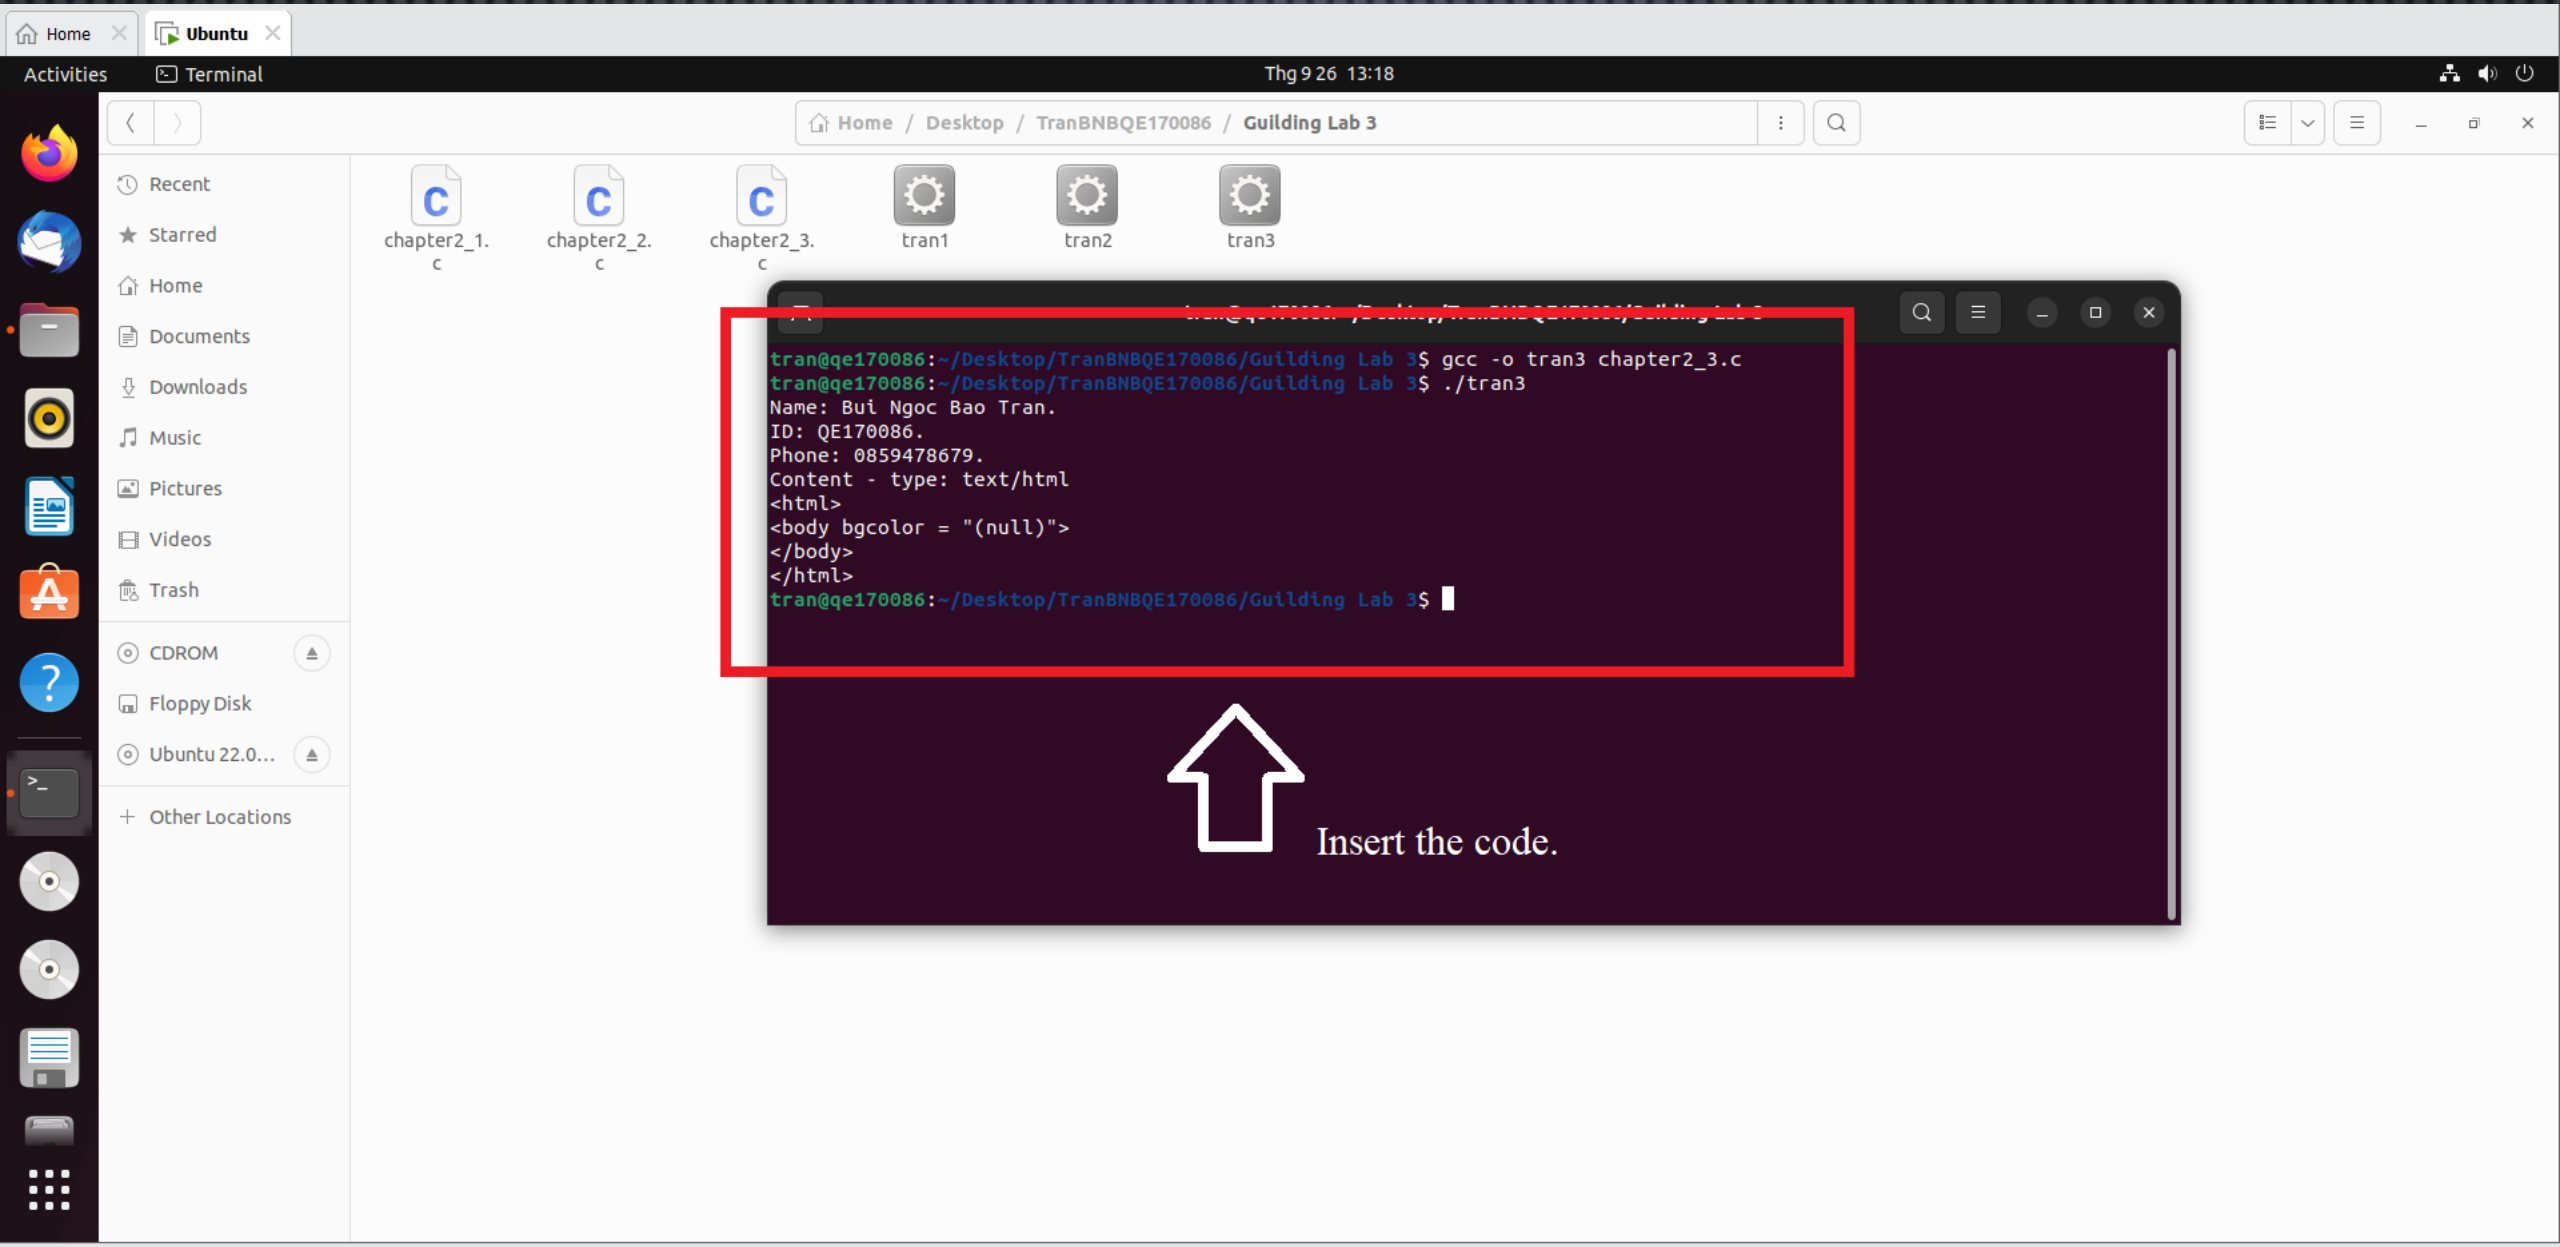

Rename your file and click "***Save***".

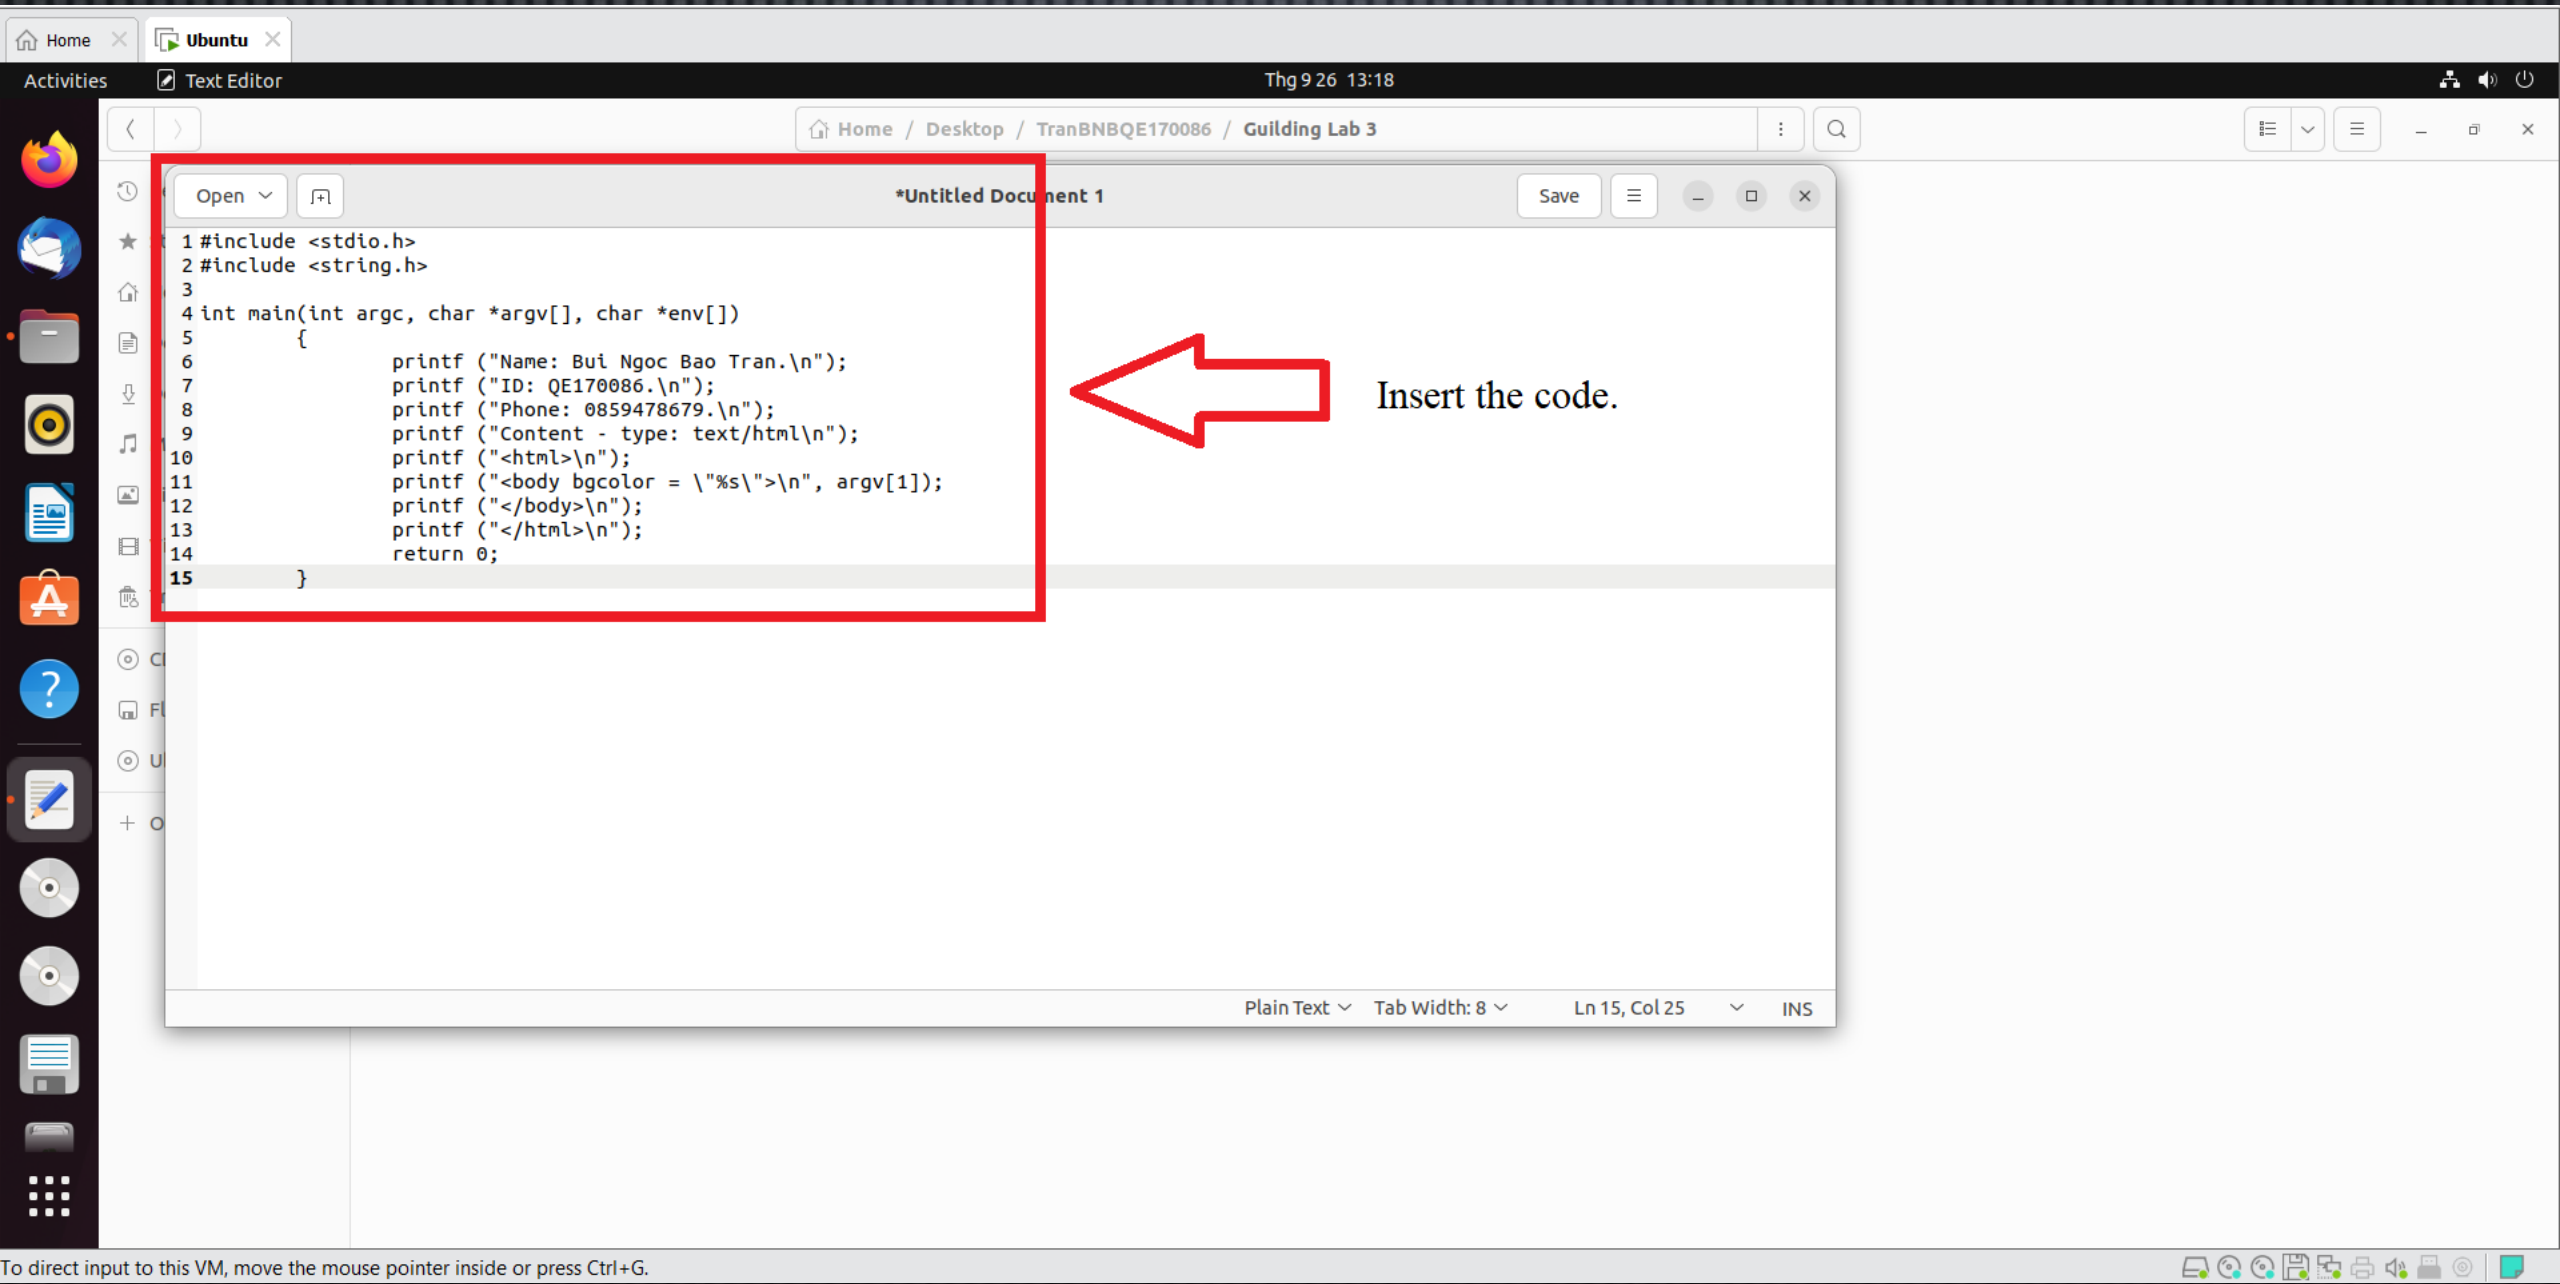

Rightclick mouse and choose "***Open in Terminal***".

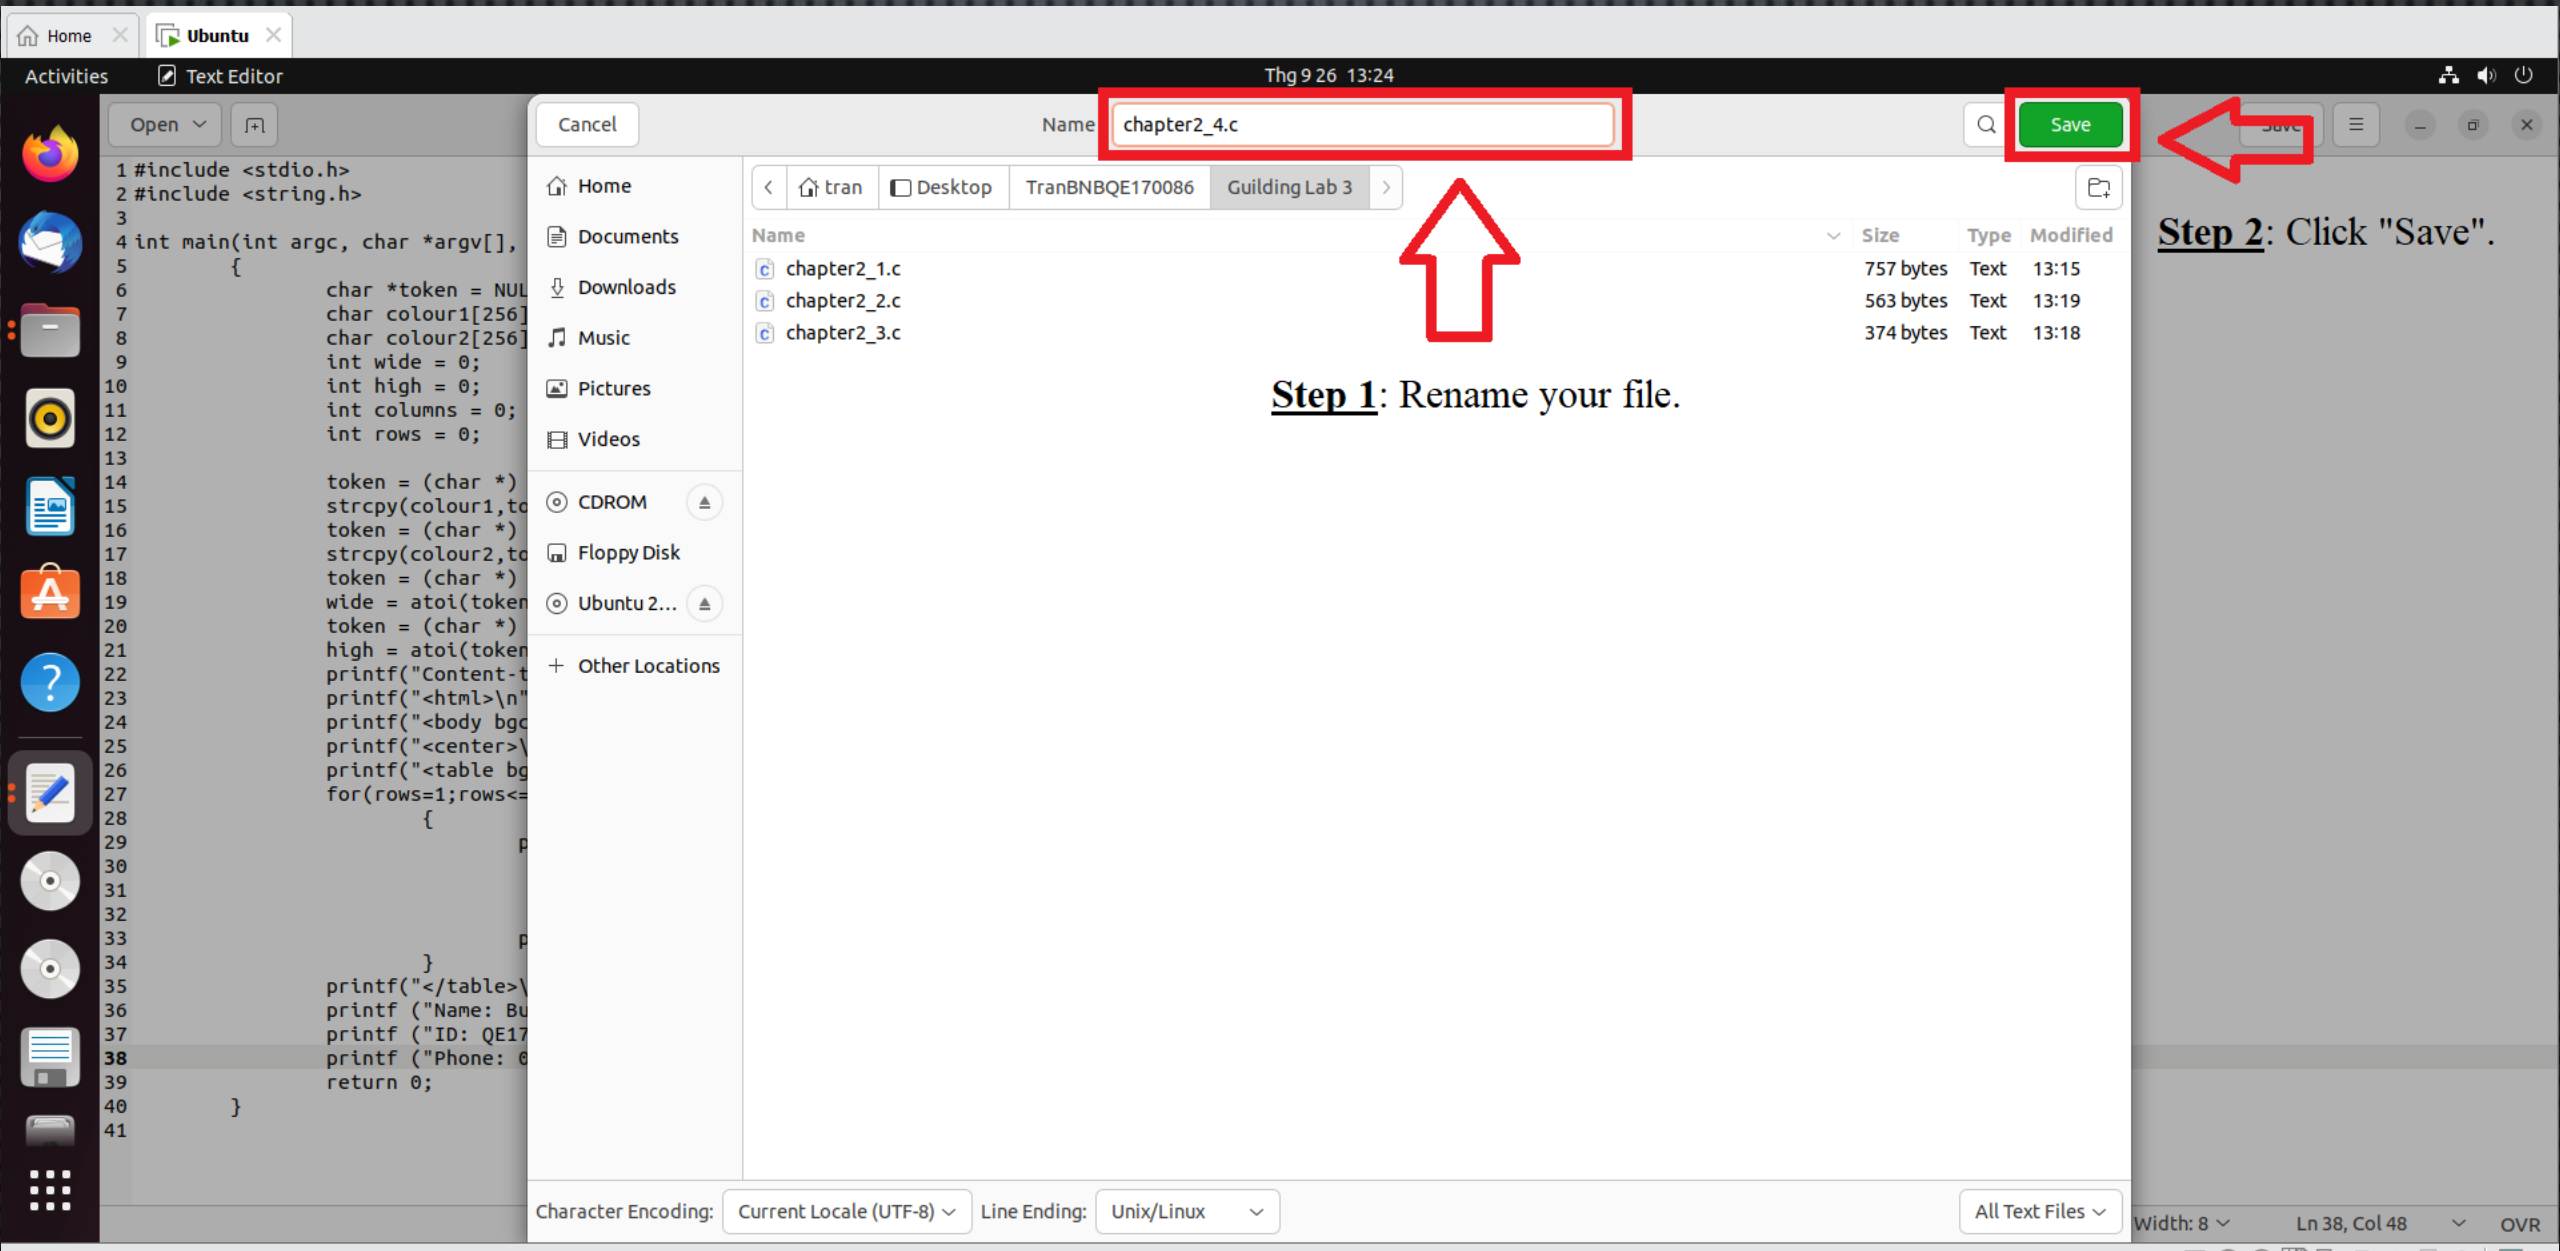

Execute the code.

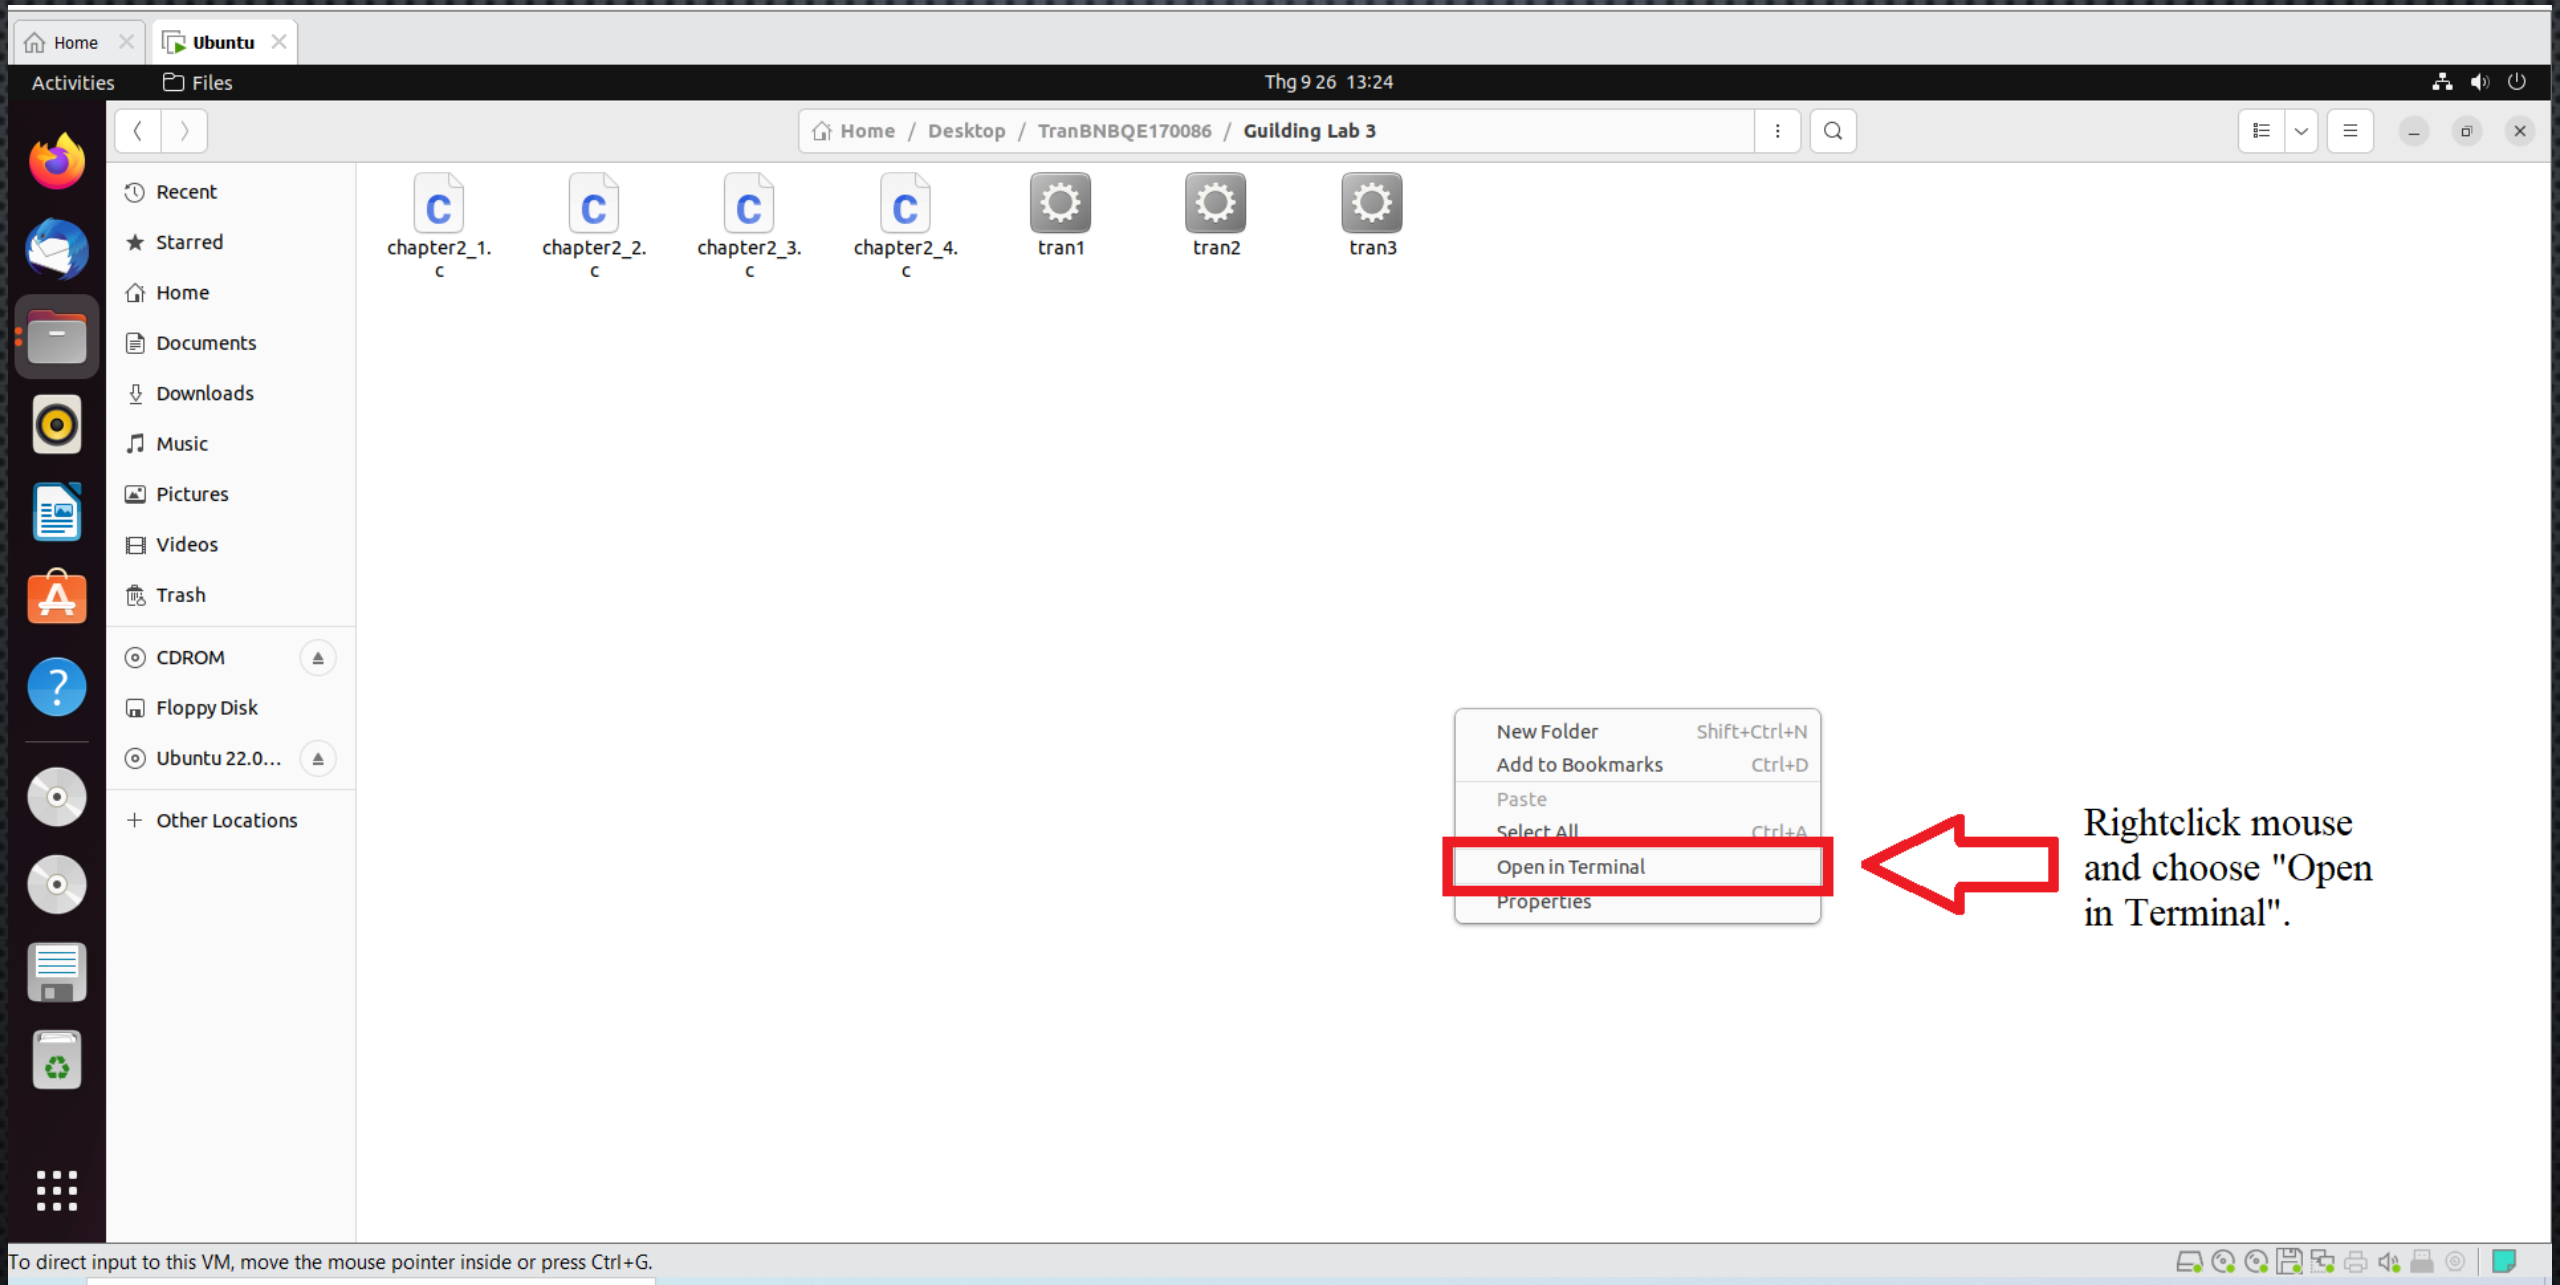

Code exercise 4 C programme.

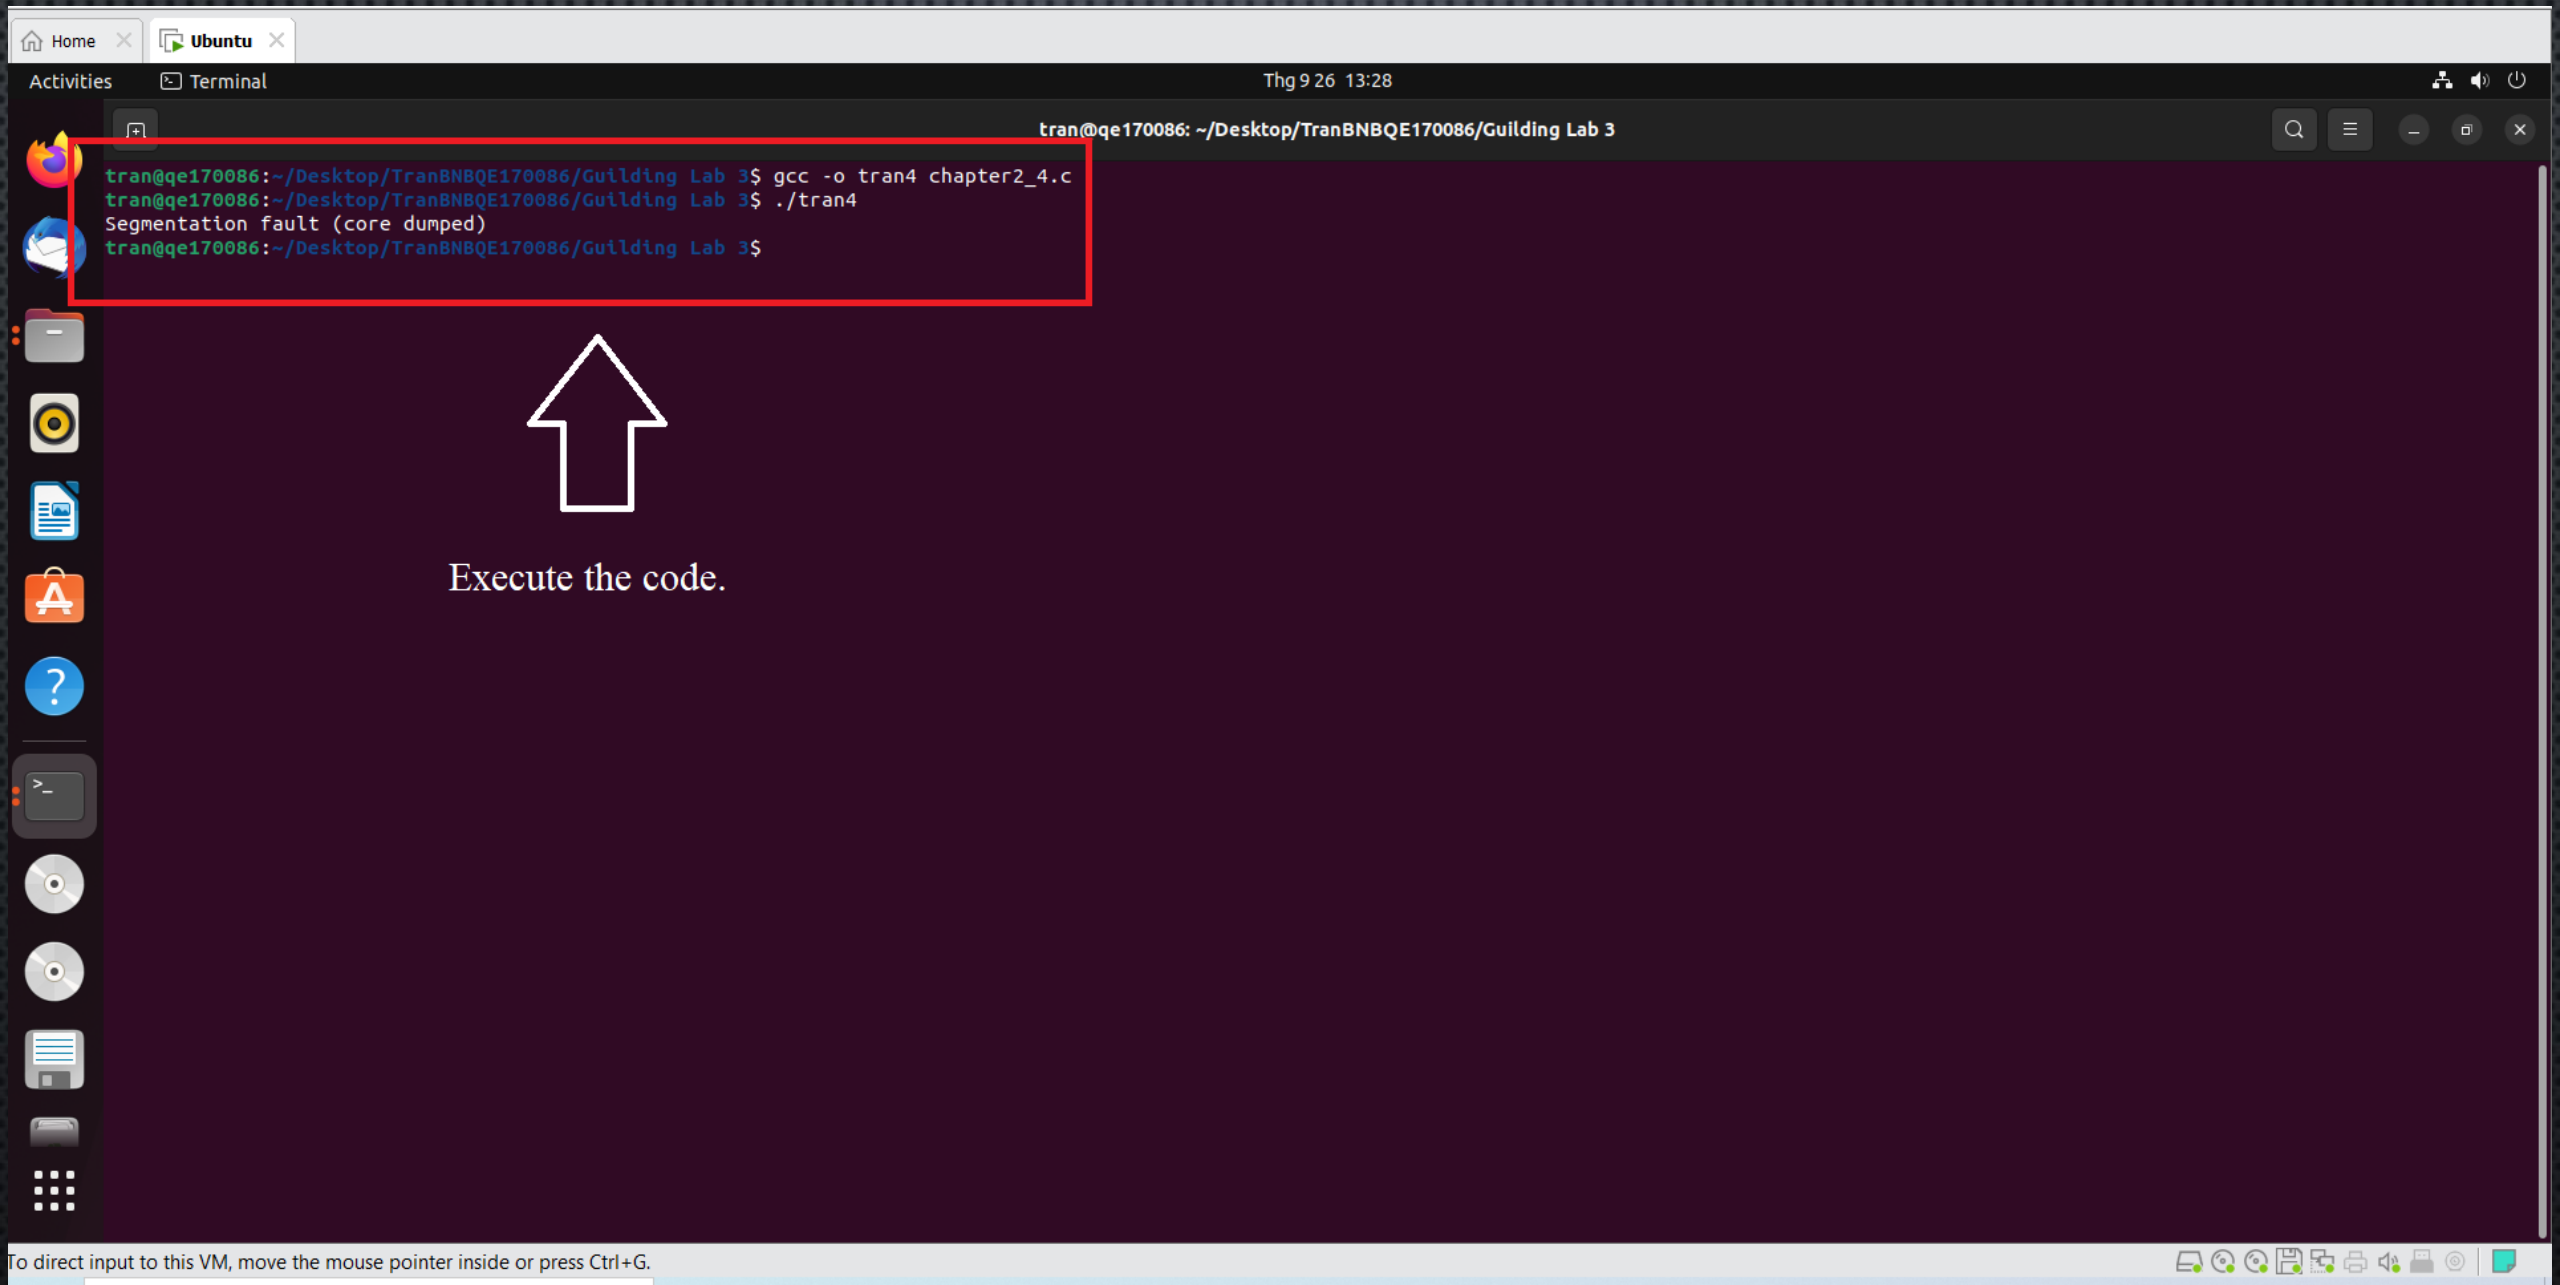

Rename your file and click "***Save***".

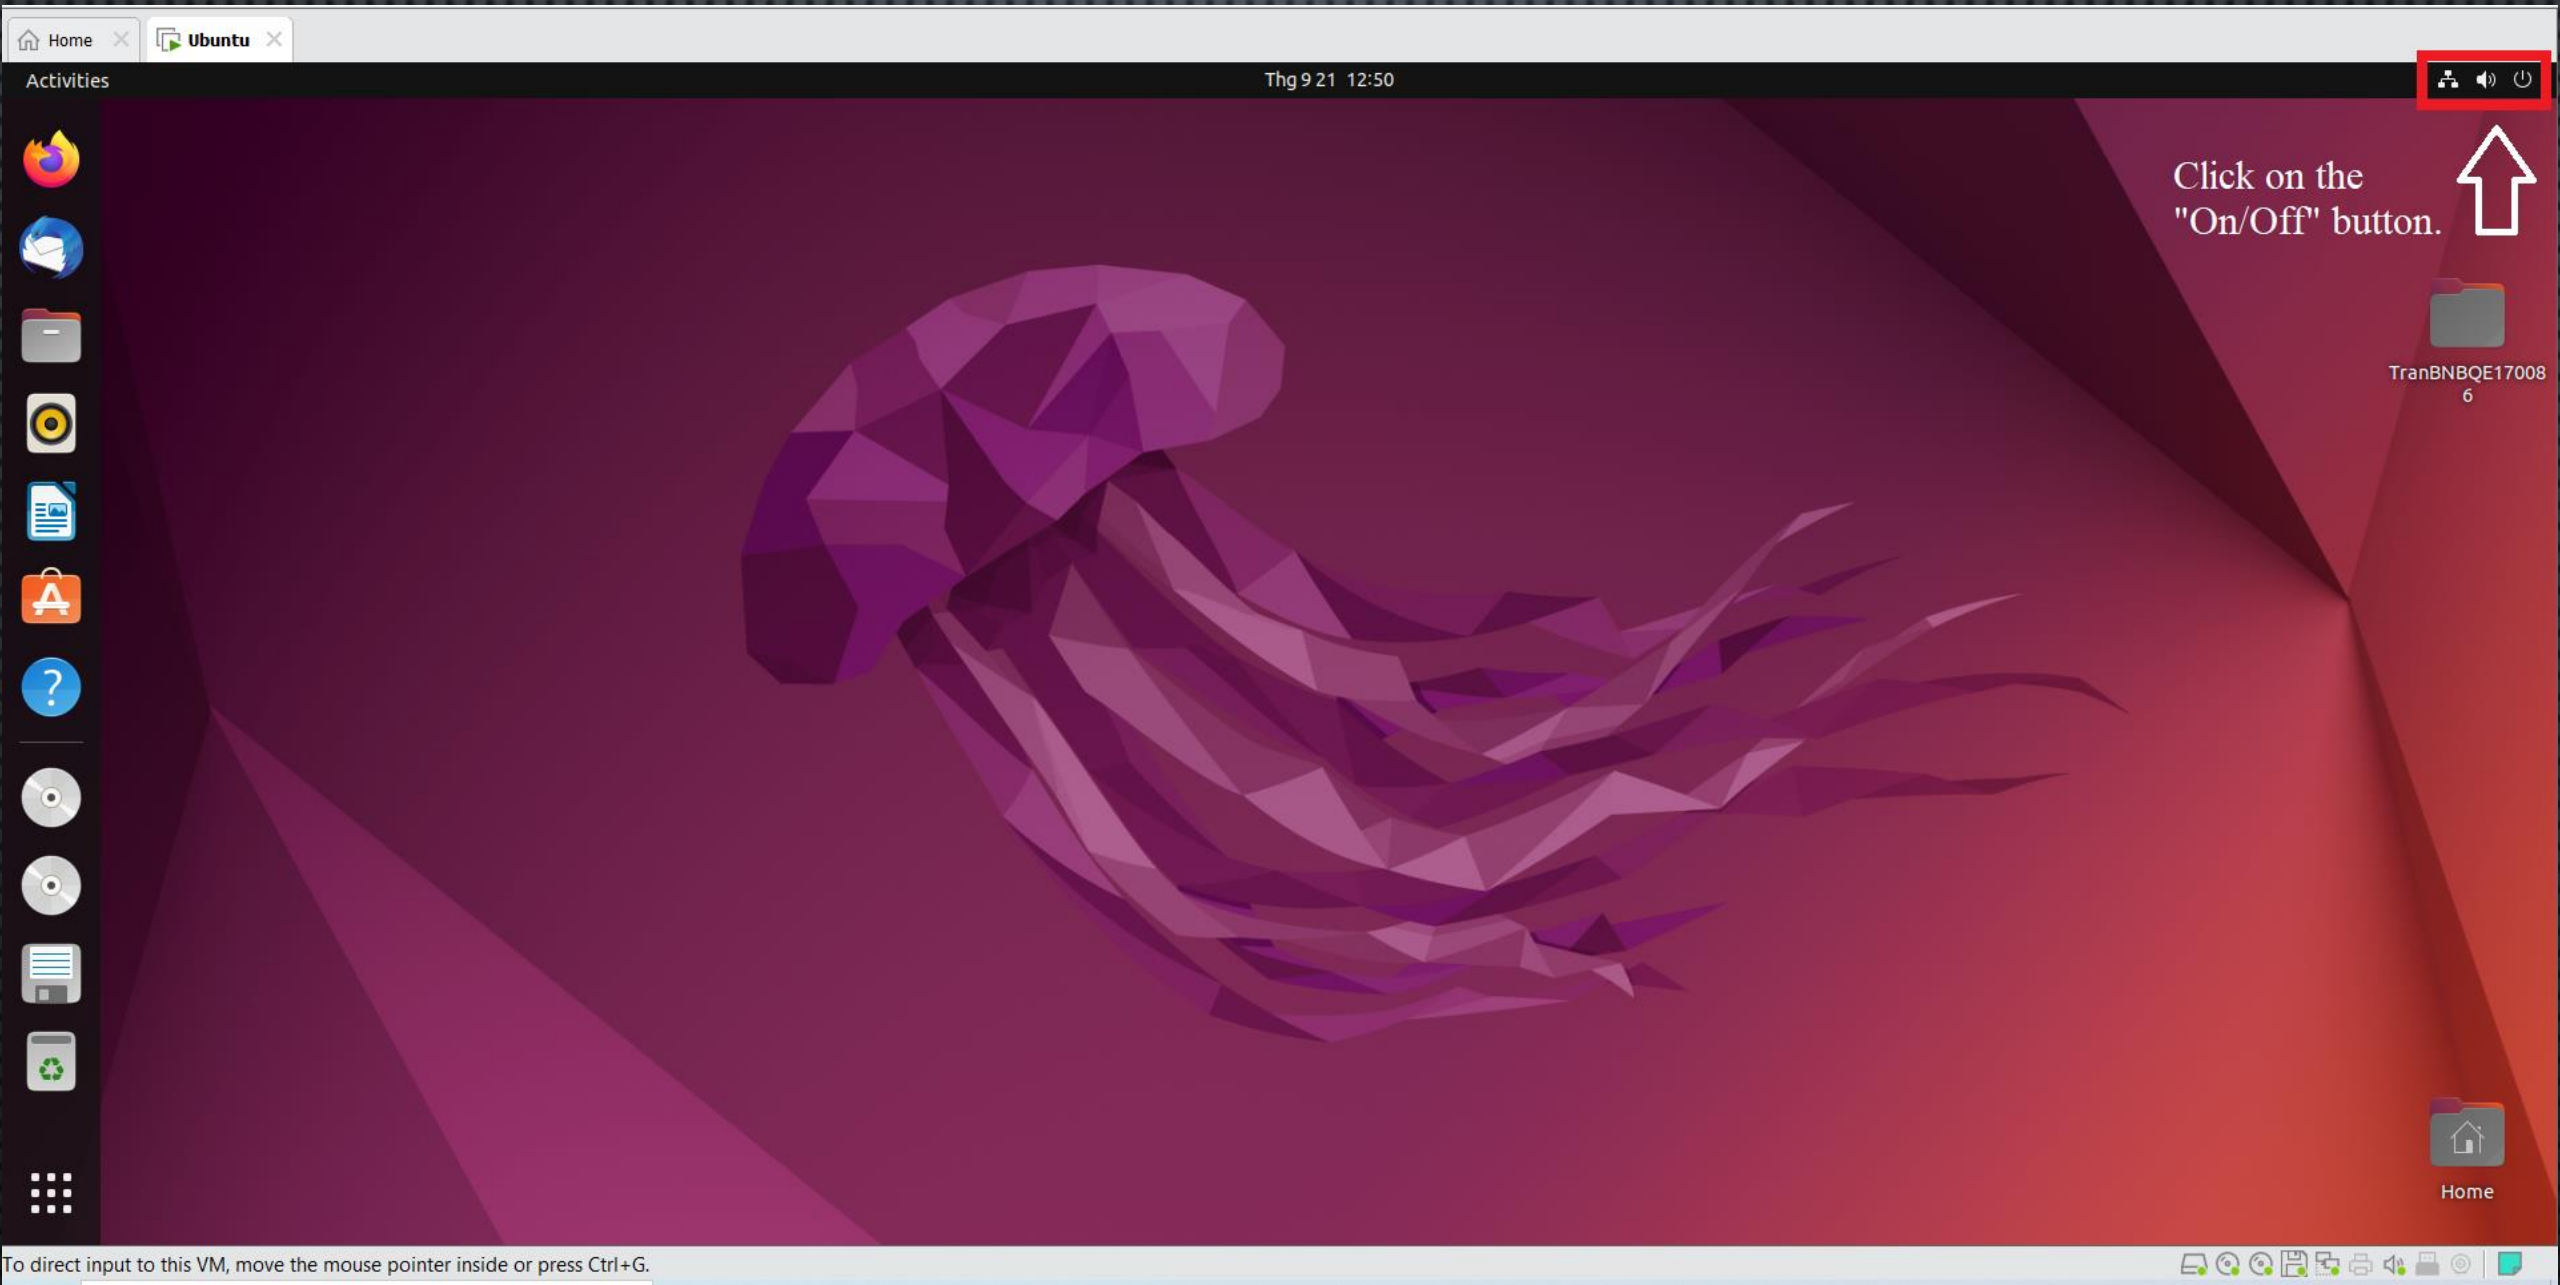

Rightclick mouse and choose "***Open in Terminal***".

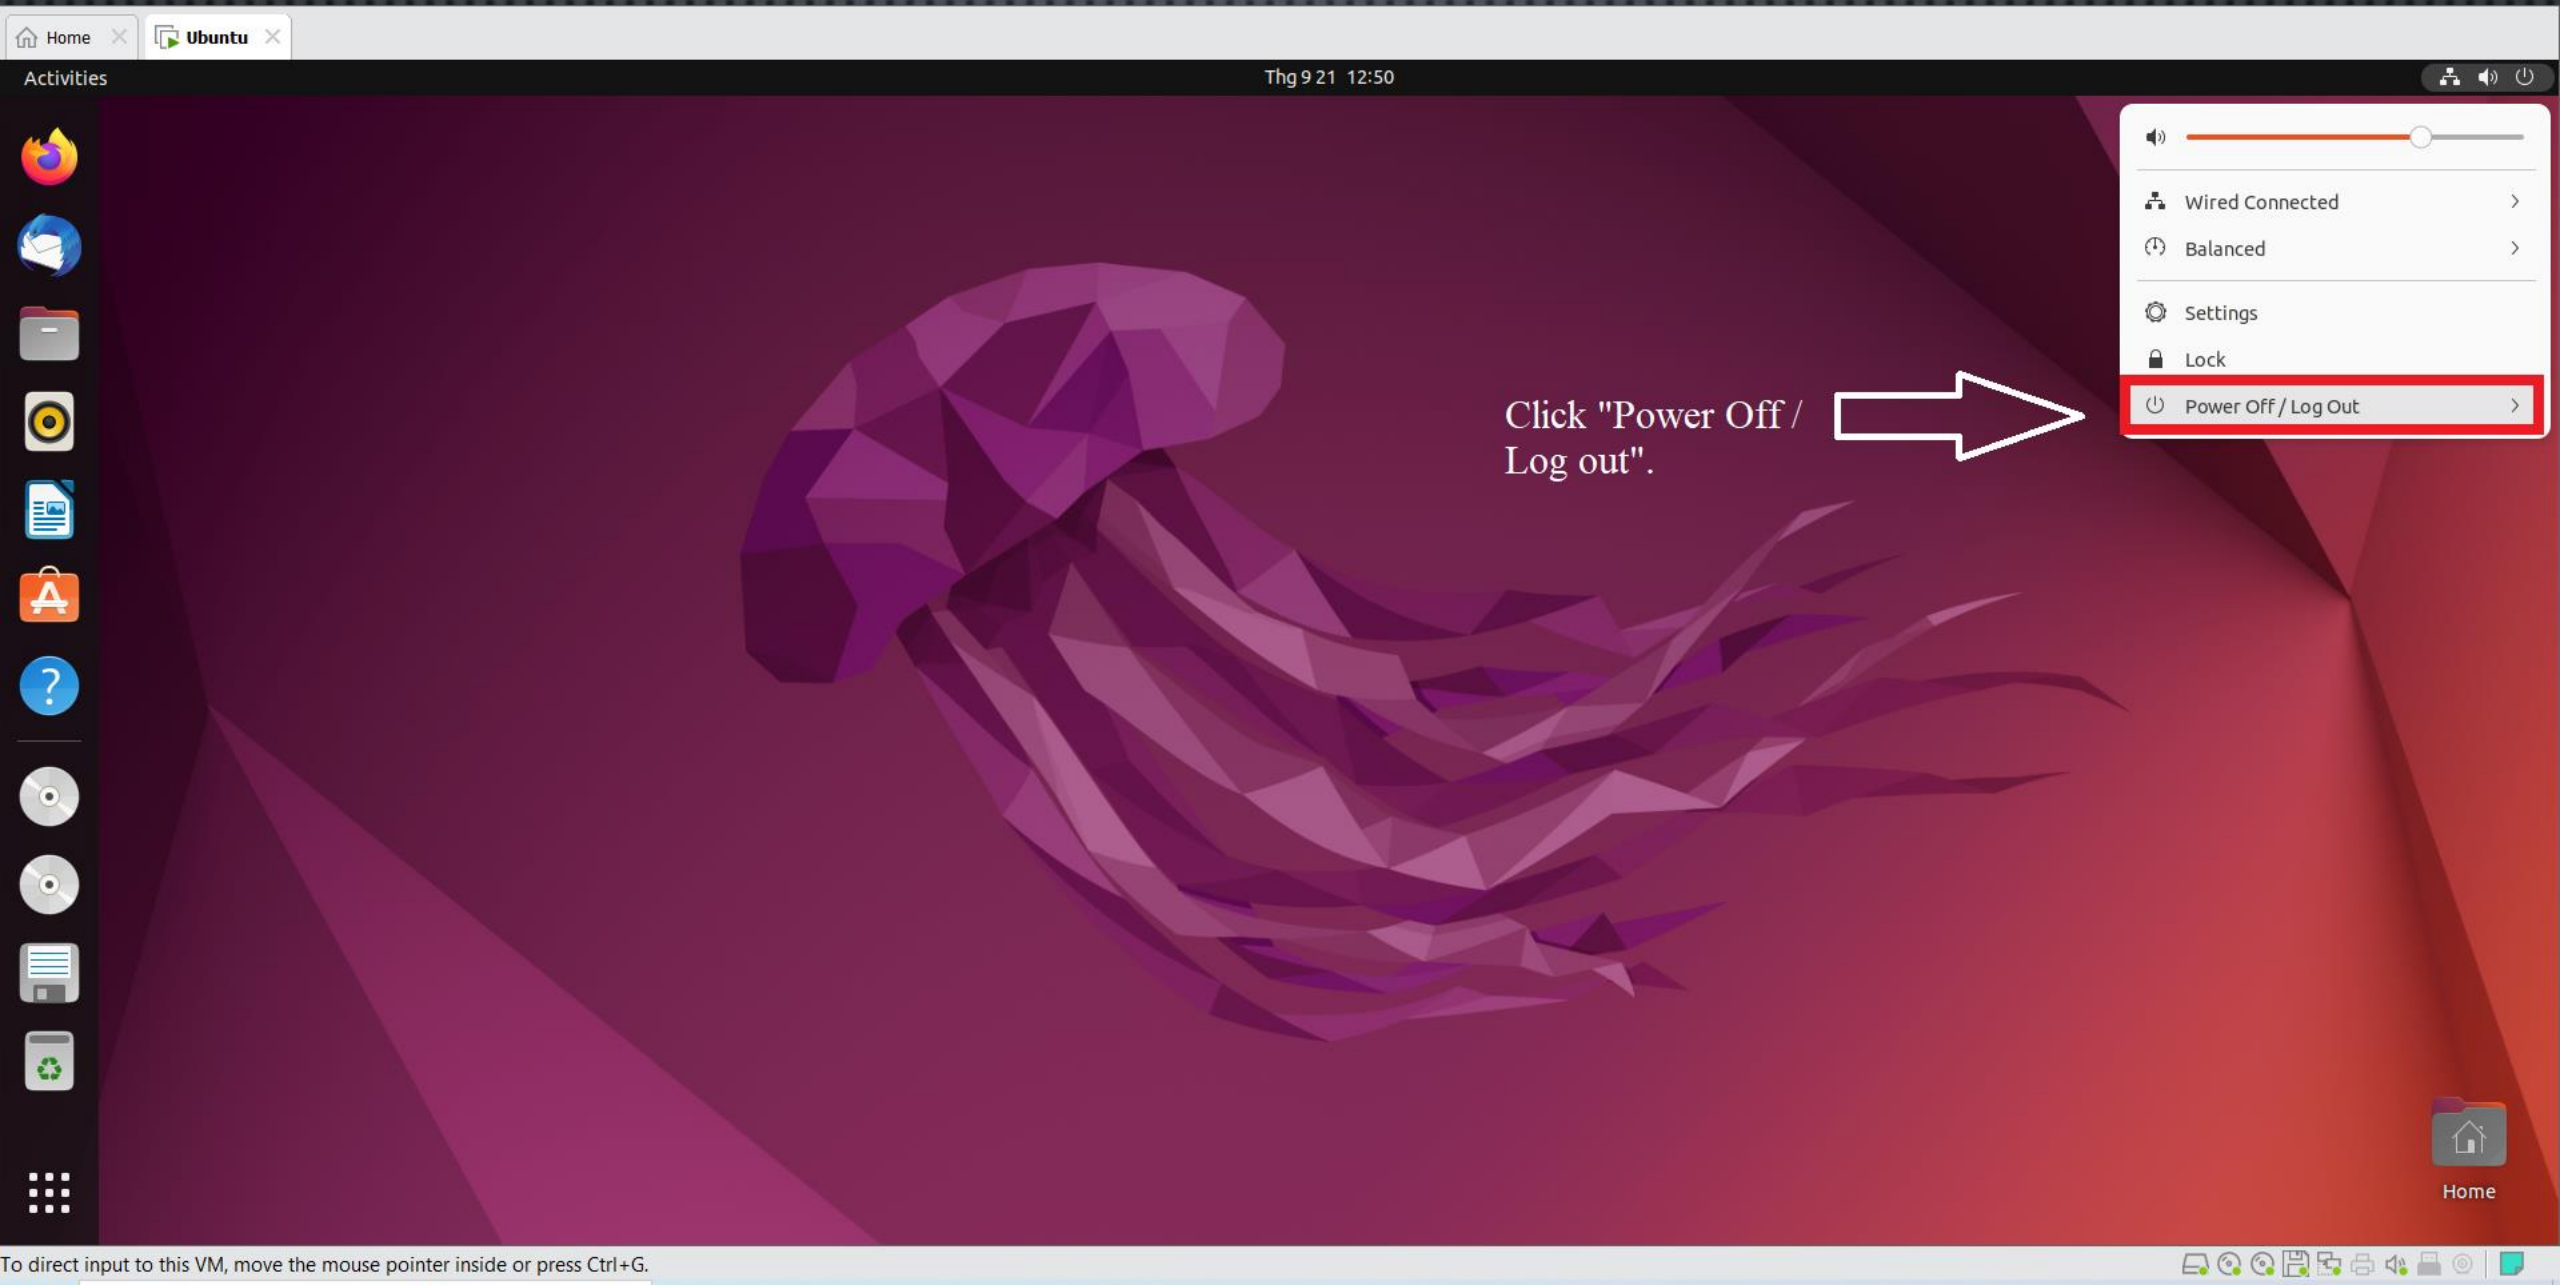

Execute the code.

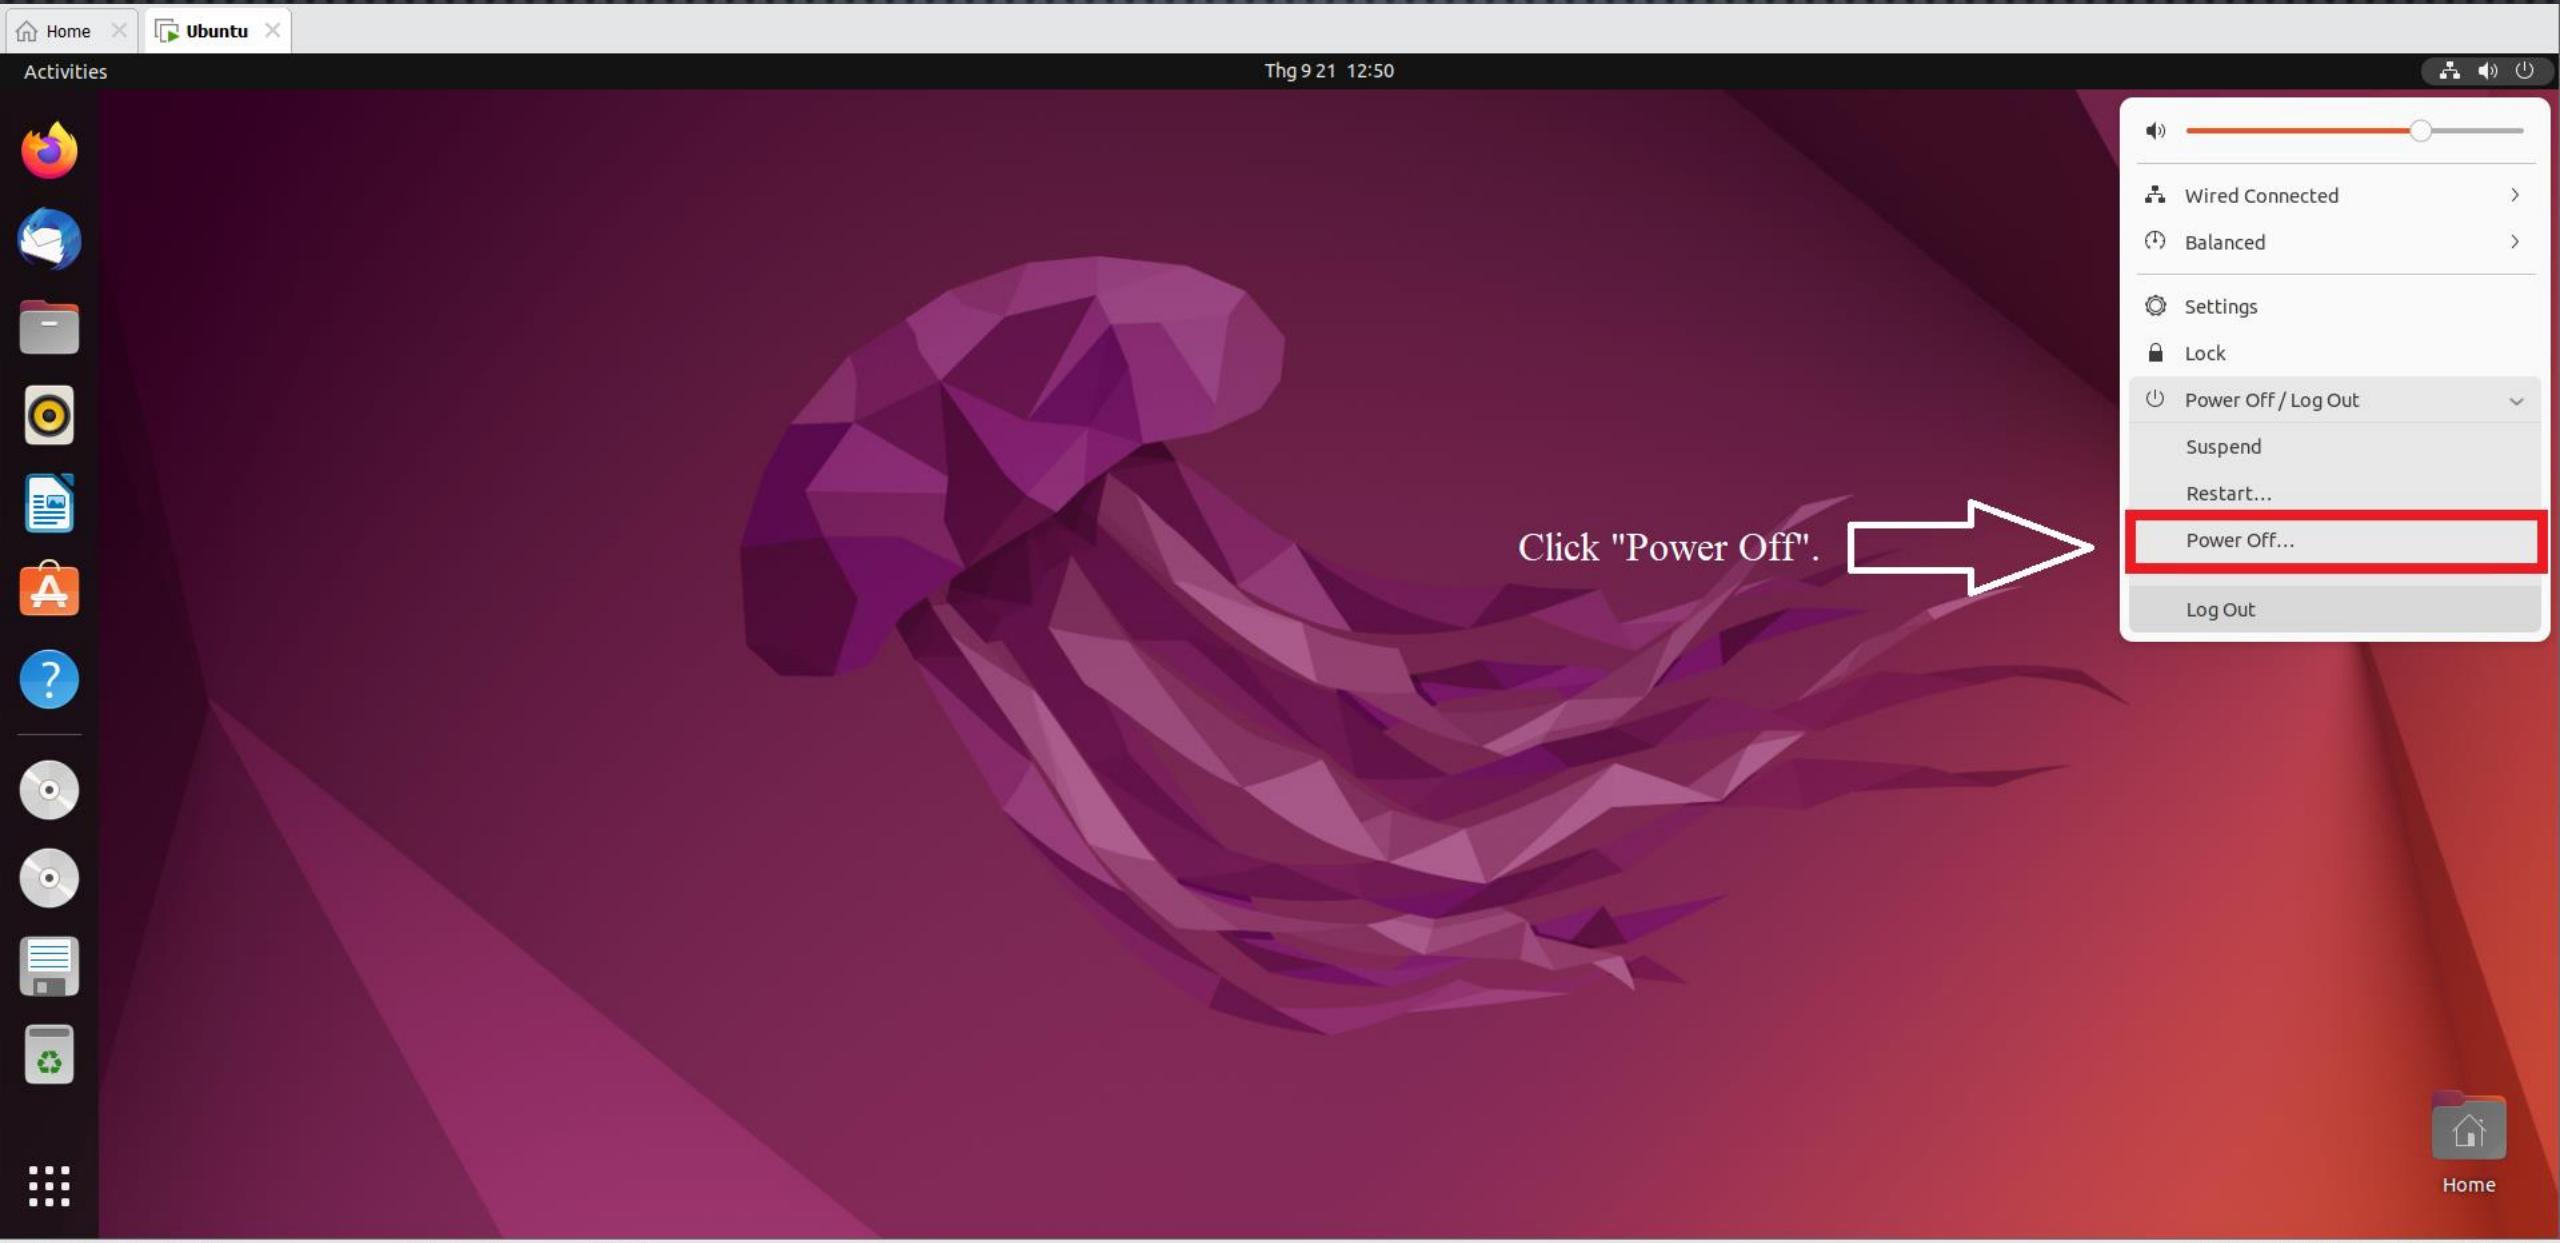

Click on the "***On/Off***" button.

Click "***Power Off / Log out***".

Click "***Power off***" and finish using virtual machine.

THE END
